JSAUX USB Type C to USB A Cable

JSAUX USB Type C to USB A 3A Fast Charging Cable Instruction Manual

Model: USB Type C to USB A Cable | Brand: JSAUX

PRODUCT OVERVIEW

The JSAUX USB Type C to USB A cable is designed for efficient charging and data synchronization across a wide range of compatible devices. This cable features a robust nylon braided exterior and reinforced aluminum connectors, engineered for enhanced durability and longevity. It supports 3A fast charging, delivering power at 5V/3A, which is approximately 25% faster than standard 5V/2.4A cables. Data transfer speeds can reach up to 480Mbps, facilitating quick file syncing.

The cable is electronically safety certified, ensuring reliable and secure operation. Its construction is designed to withstand over 10,000 bending cycles, minimizing wear and tear. This product is provided as a 2-pack of 10-foot cables, offering ample length and convenience for various usage scenarios.

KEY FEATURES

- **3A Fast Charging:** Delivers 5V/3A power for accelerated charging, up to 25% faster than conventional cables.
- **480Mbps Data Sync:** Supports high-speed data transfer for quick file synchronization between devices.
- **Enhanced Durability:** Constructed with strong nylon fiber and premium aluminum housing, designed to withstand over 10,000 bends and prevent fraying.
- **Certified Safety:** Features electronic safety certifications to ensure secure and reliable charging.
- **Wide Compatibility:** Compatible with a broad range of USB-C devices, including Samsung Galaxy S20/S10/S9/S8, iPhone 15/16 series, PS5 wireless controllers, Moto Z/Z2, LG G5/G6/V20/V30, and more.
- **Tangle-Free Design:** The nylon braided cord resists tangling, making it easy to store and use.

SETUP INSTRUCTIONS

1. **Identify Ports:** Locate the USB-A port on your power adapter, computer, or other charging source, and the USB-C port on

your device (e.g., smartphone, tablet, gaming controller).

2. **Connect to Power Source:** Insert the USB-A end of the JSAUX cable into the USB-A port of your power adapter or computer. Ensure a secure connection.

3. **Connect to Device:** Insert the USB-C end of the JSAUX cable into the USB-C port of your device. Ensure it is fully inserted.

4. **Verify Connection:** Your device should indicate that it is charging or connected for data transfer.

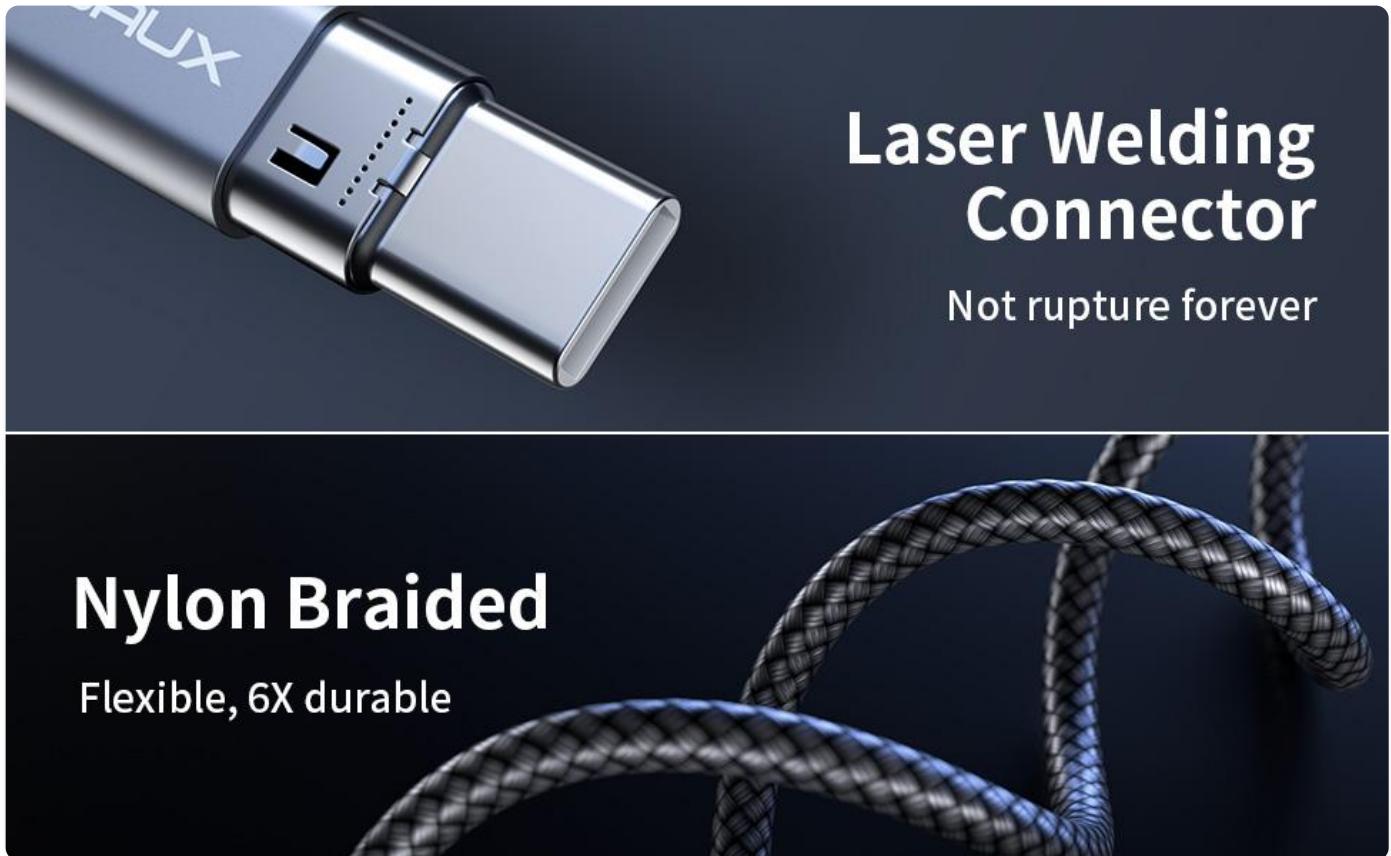

Figure 2: Connecting the USB-C cable for fast charging. Use an original wall charger for optimal performance.

OPERATING INSTRUCTIONS

Charging Your Device

To achieve fast charging, ensure your power adapter supports fast charging protocols (e.g., QC/AFC for Samsung devices) and provides at least 18W output via a USB-A port. Connect the cable as described in the Setup Instructions. The cable will automatically deliver the maximum safe charging current supported by your device and power source.

Data Transfer

Connect the USB-A end of the cable to a computer or other device with a USB-A port, and the USB-C end to your compatible device. Your computer should recognize the connected device, allowing you to transfer files at speeds up to 480Mbps. Follow your device's operating system instructions for file management.

Figure 3: Premium engineering of the JSAUX cable ensures efficient power delivery and data transfer.

MAINTENANCE

- **Cleaning:** Gently wipe the cable and connectors with a dry, soft cloth to remove dust or debris. Avoid using liquid cleaners or abrasive materials.
- **Storage:** When not in use, coil the cable loosely and secure it with the provided cable tie or a similar fastener. Avoid sharp bends or kinks. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Always grasp the connector head when plugging or unplugging the cable. Avoid pulling directly on the cable itself to prevent damage to the internal wiring and connectors.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging or charging slowly	• Loose connection • Incompatible power adapter (not fast charging capable) • Device does not support fast charging • Cable damage	• Ensure both ends of the cable are securely plugged in. • Use a power adapter that supports fast charging (e.g., QC/AFC 18W USB-A charger for Samsung). • Verify your device's fast charging compatibility. • Inspect the cable for visible damage. If damaged, discontinue use and replace.
Data transfer not working	• Loose connection • Incorrect port usage • Device driver issues	• Ensure both ends of the cable are securely plugged in. • Connect to a computer's USB-A port. • Check your computer's device manager for driver updates or issues. • Try a different USB port on your computer.
Cable appears frayed or damaged	Physical wear and tear	Discontinue use immediately to prevent potential electrical hazards. Replace the cable.

Figure 5: The cable's robust design is certified for safety and rupture resistance.

SPECIFICATIONS

Feature	Detail
Brand	JSAUX
Connector Type	USB Type C (Male) to USB Type A (Male)
Cable Type	USB
Fast Charging	3A (5V/3A), 15 Watts Max
Data Transfer Rate	480 Mbps (0.48 Gigabits Per Second)
Material	Nylon Braided Cord, Aluminum Connectors
Length	10 Feet (each cable)
Color	Grey
Durability	10,000+ bend test cycles
Usage Environment	Indoor, Outdoor
Quantity	2 cables per pack

WARRANTY AND SUPPORT

JSAUX products are designed for reliability and performance. For warranty information, product support, or to report any issues, please refer to the official JSAUX website or contact their customer service directly. Keep your purchase receipt for warranty claims.
