Premier Water Systems WHS1252K85F20

Premier Water Systems WELL Water Softener + Iron Removing Filter System User Manual

Model: WHS1252K85F20

1. Introduction

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Premier Water Systems WELL Water Softener and Iron Removing Filter System. Please read this manual thoroughly before attempting any installation or use to ensure proper function and longevity of the product. Adherence to these guidelines will help optimize system performance and prevent potential issues.

2. Product Overview and Key Features

The Premier Water Systems WELL Water Softener and Iron Removing Filter System is engineered to effectively treat well water by addressing common issues such as hardness, iron, sulfur, manganese, unpleasant odors, various chemicals, heavy metals, and sediment. A key component of this system is the integrated KDF 85 Media Guard, which provides enhanced filtration capabilities.

Key Features:

- **Complete System:** Includes a pre-loaded ion exchange resin, KDF MediaGuard, FRP (Fiber Reinforced Polymer) Tank, bypass valve, brine tank with salt grid and float assembly, and a metered control valve.

- **High-Capacity Resin:** Features a 12x52 inch media tank semi-preloaded with upgraded 10% cross-linked softening resin for extended life and superior performance.
- **KDF 85 Media Guard:** Specifically designed for well water, this media effectively removes heavy metals, iron, and hydrogen sulfide, contributing to better-tasting water throughout the entire house. The KDF 85 system requires no maintenance.
- **Comprehensive Removal:** Capable of removing water hardness up to 50 GPG (Grains Per Gallon), iron up to 6 PPM (parts per million) or mg/l, and hydrogen sulfide up to 2 ppm.
- **General Filtration:** Provides general filtering of various chemicals, odors, and sediment, improving overall water quality.
