

## Mcage 62100

# Mcage Multi-Level Small Animal Habitat Instruction Manual

Model: 62100 Black Vein | Brand: Mcage

## 1. SAFETY INSTRUCTIONS

---

- Always ensure all doors and latches are securely closed to prevent accidental escapes.
- Regularly inspect the habitat for any damaged parts or sharp edges that could harm your pet.
- Ensure the habitat is placed on a stable, level surface. Use the lockable casters to prevent unintended movement.
- This habitat is designed for small animals such as guinea pigs, chinchillas, ferrets, squirrels, rabbits, and similar-sized pets. Verify the bar spacing (0.9-inch) is appropriate for your specific pet to prevent them from getting stuck or escaping.
- The plastic platforms and ramps are designed to be paw-safe. However, for very small or sensitive animals, additional soft bedding may be considered.
- Keep cleaning supplies and chemicals out of reach of pets.

## 2. PACKAGE CONTENTS

---

Verify all components are present before beginning assembly. Refer to the main product image for a visual overview.

*This image displays the fully assembled Mcage multi-level small animal habitat, showcasing its spacious design and multiple platforms. Examples of small animals like a guinea pig, ferret, and rabbit are shown alongside the cage to illustrate its intended use.*

- Wire cage panels (various sizes for sides, top, and doors)
- Base tray with raised mesh floor and urine guard
- Solid plastic platforms (3x)
- Anti-slip ramps (3x)
- Lockable caster wheels (4x)
- Cage connectors/clips
- Front door lock mechanisms

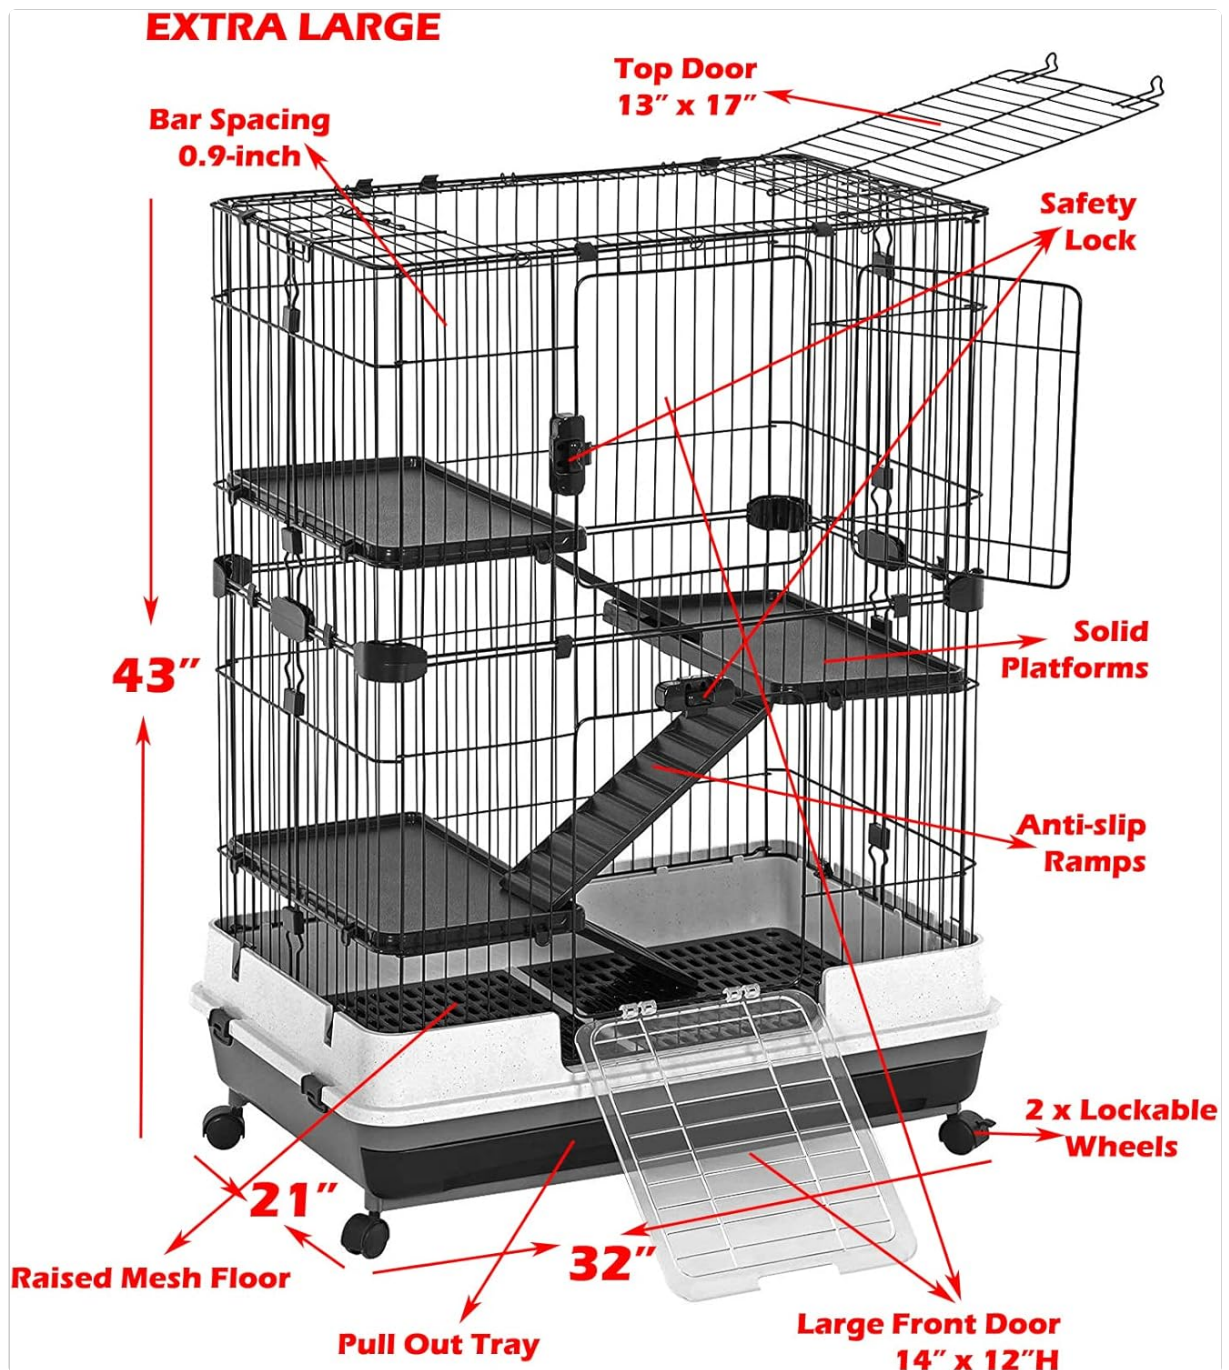

### **3. SETUP AND ASSEMBLY**

**Tools Required:**

No tools are needed for the primary assembly. Components feature easy clip-on connectors and pop-in wheels.

**Assembly Steps:**

1. Attach the 4 universal caster wheels to the bottom of the base tray by simply popping them into place.
2. Place the raised mesh floor and urine guard into the base tray.
3. Begin assembling the wire panels for the lowest level of the habitat, securing them with the easy clip-on connectors.
4. Install the first solid plastic platform and anti-slip ramp within the first level.
5. Continue assembling the wire panels for the subsequent levels, securing each section with connectors.
6. Install the remaining solid plastic platforms and anti-slip ramps on each level.
7. Attach the top panel and all door panels, ensuring the safety front door locks are correctly installed and functional.

This diagram provides an overview of the habitat's structure, highlighting its 43-inch height, 32-inch length, 21-inch width, 0.9-inch bar spacing, top door, safety lock, solid platforms, anti-slip ramps, lockable wheels, raised mesh floor, pull-out tray, and large front door.

## 4. OPERATING INSTRUCTIONS

### Accessing the Habitat:

The habitat features multiple access points for convenience:

- **Top Opening:** A large door on the top provides easy access for placing or removing pets, or for extensive cleaning.
- **Front Openings:** Two doors on the front allow for convenient interaction with your pet and routine tasks like feeding or spot cleaning.

**Easy Adjustable and Washable  
Solid Plastic Platform With Anti-Slip Ramp  
PAW SAFE**

*This image shows the secure locking mechanism on the front door, designed to prevent accidental escapes and ensure pet safety.*

### **Mobility:**

The habitat is equipped with universal wheels for easy movement:

- To move the habitat, ensure all wheel brakes are disengaged.
- To secure the habitat in place, engage the brakes on all 4 wheels.

*This image highlights one of the universal wheels with a brake, demonstrating how to lock the wheel to secure the habitat in place.*

## **5. MAINTENANCE**

---

### **Cleaning the Pull-Out Tray:**

The habitat features a slide-out bottom plastic tray for easy cleaning:

1. Unlock the clips securing the tray.
2. Gently slide out the deep plastic tray from the bottom of the habitat.
3. Dispose of waste and clean the tray with pet-safe cleaning solutions and water.
4. Ensure the tray is completely dry before sliding it back into place and securing the clips.

## **Detachable Up and Bottom Base With Pull Out Tray**

*This image focuses on the deep pull-out tray, emphasizing its depth and ease of removal, which simplifies the cleaning process.*

## **Plastic Bottom Mesh Flooring Urine Training Guard Removable and Washable**

*This image illustrates how the upper and lower sections of the cage can be separated, and the deep pull-out tray can be easily removed for cleaning.*

### **Cleaning Platforms and Ramps:**

The solid plastic platforms and anti-slip ramps are removable and washable:

- Carefully unclip or detach the platforms and ramps from their positions within the cage.
- Wash them with warm water and a mild, pet-safe soap. Rinse thoroughly to remove all soap residue.
- Allow them to air dry completely before reattaching them to the habitat.

*This image details the solid plastic platforms and anti-slip ramps, designed for pet comfort and safety, and highlights their easy-to-remove and washable nature.*

**Urine Guard and Mesh Floor:**

The raised bottom mesh floor with an integrated urine guard helps maintain hygiene and is also removable for cleaning.

## **Easy Pull Down Solid Acrylic Clear Front Door**

*This image shows the mesh flooring and integrated urine guard, designed to keep pets clean and facilitate hygiene, both of which are removable and washable.*

### **6. SPECIFICATIONS**

<b>Feature</b>	<b>Detail</b>
Model Number	62100 Black Vein
Overall Dimensions (L x W x H)	32 x 21 x 43 inches
Number of Floors	4
Bar Spacing	0.9 inches
Metal Wire Size	0.78 inches and 0.13 inches

Material	Plastic (platforms, tray) and Metal (wire)
Access Doors	One top, two front
Mobility	4 universal wheels with brakes
Tray Depth	2 inches

## 7. TROUBLESHOOTING

---

- **Difficulty with Assembly:** Ensure all clips are correctly aligned and fully engaged. Refer to the assembly videos and diagrams for visual guidance. Do not force components; if they don't fit, re-check the orientation.
- **Doors Not Closing Securely:** Check that the cage panels are properly aligned and that the door latches are not obstructed. Ensure the safety front door locks are fully engaged.
- **Wheels Not Locking:** Verify that the brake levers on the caster wheels are fully pushed down to engage the lock mechanism.
- **Cleaning Difficulties:** The pull-out tray and platforms are designed for easy removal. If stuck, ensure no debris is obstructing their movement. Regular cleaning prevents buildup.
- **Pet Discomfort on Mesh Floor/Platforms:** While designed to be paw-safe, some pets may prefer a softer surface. Consider adding soft bedding, fleece liners, or small rugs to platforms and the mesh floor for added comfort.

## 8. WARRANTY AND SUPPORT

---

For any questions, concerns, or warranty claims regarding your Mcage Multi-Level Small Animal Habitat, please contact the manufacturer directly through their official support channels. Keep your purchase receipt and model number (62100) handy for faster service.
