OMAC 5023202

OMAC Front Bug Shield Hood Deflector Instruction Manual

Model: 5023202

PRODUCT OVERVIEW

The OMAC Front Bug Shield Hood Deflector is designed to provide protection for your vehicle's bonnet and windshield from stone chips, dirt, and insects. Made from durable acrylic plastic, this accessory offers a stylish and functional addition to your vehicle, specifically designed for a perfect fit.

This deflector is UV-stable, shatterproof, and translucent, ensuring long-lasting performance and maintaining its appearance over time. Its aerodynamic design helps to redirect airflow over the vehicle, further enhancing protection.

INSTALLATION GUIDE

Installation of the OMAC Front Bug Shield Hood Deflector is designed to be straightforward and does not require any drilling or cutting. The process typically takes only a few minutes with the included installation parts.

Included Components:

- Front Bug Shield Hood Deflector
- Mounting clips/hardware
- Installation instructions (English language not guaranteed, refer to this manual)

Image: Illustrates the process of carefully peeling off the transparent protective film from the deflector, a crucial step after installation to ensure optimal appearance.

3. **Position the Deflector:** Carefully align the deflector with the contours of your vehicle's bonnet. Ensure it sits flush and correctly.
4. **Secure with Clips:** Use the provided special clips to attach the deflector to the bonnet. These clips are designed for a secure fit without the need for drilling. Refer to the specific clip placement indicated in the packaging or product diagrams.
5. **Verify Fitment:** After securing, gently check that the deflector is firmly in place and does not wobble.

For optimal performance and longevity, ensure all mounting points are securely fastened.

OPERATING PRINCIPLES

The OMAC Front Bug Shield Hood Deflector operates passively by altering the airflow over the front of your vehicle. Its aerodynamic shape is designed to create an updraft, lifting insects and small debris over the windshield and bonnet, thereby reducing impacts and potential damage to the paintwork and glass.

Image: A visual representation demonstrating the aerodynamic benefits of the deflector, showing how it diverts airflow to protect against bugs and stones.

This continuous protection is active whenever the vehicle is in motion, providing a constant barrier against environmental elements.

MAINTENANCE

To ensure the longevity and appearance of your OMAC Front Bug Shield Hood Deflector, follow these simple maintenance guidelines:

- **Cleaning:** Clean the deflector regularly with mild soap and water. Use a soft cloth or sponge to avoid scratching the surface. Rinse thoroughly with clean water.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or strong chemical detergents, as these can damage the acrylic material.
- **Inspection:** Periodically inspect the deflector and its mounting points for any signs of looseness or damage. Tighten any loose clips if necessary.

- **Car Washes:** While the deflector is designed to be durable, some automated car washes with aggressive brushes may cause damage or dislodge the deflector. Hand washing is recommended.

TROUBLESHOOTING

If you encounter any issues with your OMAC Front Bug Shield Hood Deflector, consider the following:

- **Loose Fitment:** If the deflector feels loose after installation, re-check all mounting clips to ensure they are properly engaged and tightened. Ensure the deflector is correctly seated on the bonnet's edge.
- **Vibration/Noise:** Excessive vibration or noise at speed may indicate improper installation. Re-verify that all clips are secure and the deflector is flush against the bonnet.
- **Damage:** In case of damage from impacts or extreme weather, the deflector may need to be replaced to maintain its protective function and aesthetic appeal.

If problems persist, please contact OMAC customer support for further assistance.

SPECIFICATIONS

| Feature | Detail |
|--------------------|---|
| Brand | OMAC GmbH |
| Model Number | 5023202 |
| Material | Acrylic Plastic |
| Colour | Black |
| Exterior Finish | Matte |
| Product Dimensions | 168 x 37 x 10 cm |
| Item Weight | 10 kg |
| Position | Front Outside |
| Compatibility | Nissan Rogue Sport 2017-2019 (Also compatible with Nissan Qashqai J11 2014-2021 as per feature bullets) |
