Crane EE-5951

Crane Personal Ultrasonic Cool Mist Humidifier

Model: EE-5951 | Brand: Crane

Introduction

The Crane Personal Ultrasonic Cool Mist Humidifier is designed to provide soothing moisture for personal spaces up to 160 square feet. This filter-free humidifier helps relieve discomforts associated with nasal congestion, dry skin, chapped lips, and dry throats. Its compact design and detachable power cord make it convenient for travel and office use. The unit features a 360° adjustable nozzle for directed mist output and an automatic shut-off safety feature when the water tank is empty.

Setup

1. **Unpack:** Carefully remove all packaging materials from the humidifier.
2. **Placement:** Place the humidifier on a firm, flat, waterproof surface at least 2 feet away from walls and furniture. Ensure the mist is directed away from any obstacles.
3. **Fill Water Tank:** Remove the top cover and the center mist output component. Unscrew the water tank cap and fill the tank with cool, clean water. Distilled or demineralized water is recommended to prevent mineral buildup. Securely replace the water tank cap and the mist output component.

4. **Connect Power:** Plug the detachable power cord into the humidifier base, then plug the adapter into a standard electrical outlet.

Operating Instructions

1. **Power On/Off:** Turn the control dial clockwise to the 'ON' position to power on the humidifier. Turn it counter-clockwise to the 'OFF' position to power off.
2. **Adjust Mist Output:** Rotate the control dial to adjust the mist output from low to high.
3. **360° Adjustable Nozzle:** The mist nozzle can be rotated 360 degrees to direct the mist in any desired direction.
4. **Night Light Feature:** Some models may include a night light feature. Refer to your specific model's controls for activation.
5. **Automatic Shut-Off:** The humidifier will automatically turn off when the water tank is empty. The indicator light may change color to signal an empty tank.
6. **Essential Oil Use:** This humidifier is not designed for direct essential oil use in the water tank. Refer to the product packaging or separate instructions for compatible aroma pads or trays if available.

Maintenance

Regular cleaning is crucial to prevent mineral buildup and ensure optimal performance. The Crane Personal Humidifier is filter-free, simplifying maintenance.

Daily Maintenance

- Empty the water from the tank and base daily.

- Rinse the tank and base with clean water.
- Allow all parts to air dry before reassembling or storing.

Weekly Maintenance

- **Descaling:** Fill the water tank with 2 tablespoons of white vinegar and 1 gallon of water. Let it soak for 30 minutes.
- Empty the solution and rinse the tank thoroughly with clean water.
- **Cleaning the Base:** Use a soft brush or cloth to clean the nebulizer and other components in the base with white vinegar. Rinse thoroughly.
- Ensure all parts are completely dry before reassembly.

Troubleshooting

Problem	Possible Cause	Solution
No mist or low mist output	Low water level; mineral buildup; unit not properly assembled.	Refill water tank; perform descaling maintenance; ensure all parts are securely in place.
Unusual noise (e.g., bubbling, gurgling)	Normal operation sounds; unit not on a flat surface.	Ensure unit is on a stable, flat surface. Some bubbling is normal as water flows from the tank to the base.
Water leakage	Water tank cap not secured; unit overfilled.	Ensure water tank cap is tightly screwed on; do not overfill the tank.
Unit turns off unexpectedly	Water tank is empty.	Refill the water tank. This is an automatic safety feature.
