simplehuman Sensor Mirror: 10X Magnification Travel Makeup Mirror

Model: ST3010

Image: The simplehuman Sensor Mirror, a 10X magnification travel makeup mirror with lights, in Rose Gold Stainless Steel.

INTRODUCTION

The simplehuman Sensor Mirror is designed to provide optimal clarity and illumination for makeup application and detailed grooming. Featuring a Tru-Lux light system that simulates natural sunlight, 10X magnification, and a motion sensor for automatic lighting, this mirror offers a superior viewing experience. Its compact, foldable design and rechargeable battery make it ideal for both home use and travel.

PRODUCT FEATURES

- **Tru-Lux Light System:** Simulates natural sunlight for accurate color representation, ensuring makeup is color-correct and flawless.
- **Sensor On/Off:** Automatically illuminates as your face approaches and turns off when you move away, conserving battery life.
- **Surgical Grade LEDs:** Engineered for longevity, these LEDs are designed to perform like new for up to 40,000 hours.
- **10X Magnification:** Provides an extremely close-up view, ideal for detailed tasks such as tweezing or applying eye makeup.

- **Rechargeable and Cordless:** Operates without a cord for up to 5 weeks on a single charge, offering portability and convenience.
- **Maximum Adjustability:** Features two height options and a swivel mirror head to achieve the perfect viewing angle.
- **Compact Travel Design:** Folds down flat and includes a convenient travel case for easy storage and transport.

PACKAGE CONTENTS

Upon unpacking, please ensure all the following items are present:

- simplehuman Sensor Mirror (Model ST3010)
- Travel Case
- USB Charging Cable
- Cleaning Cloth
- User Manual

SETUP

1. **Unpack:** Carefully remove the mirror and all accessories from the packaging.
2. **Assemble:** The mirror comes pre-assembled. Simply unfold the mirror from its compact travel position. The stand will lock into place, offering two height options.
3. **Initial Charge:** For first-time use, it is recommended to fully charge the mirror. Connect the provided USB charging cable to the charging port located on the back of the mirror head and plug the other end into a USB power adapter (not included) or a computer USB port. The charging indicator light will show charging status.

OPERATION

Automatic Sensor Mode

The simplehuman Sensor Mirror features a motion sensor that automatically activates the Tru-Lux light system when your face approaches the mirror. The light will turn off automatically after you move away.

- To activate, simply bring your face within close proximity to the mirror.
- To deactivate, move away from the mirror. The light will turn off after a few seconds.

Manual Mode and Brightness Adjustment

You can also control the light manually and adjust its brightness.

- **Power On/Off:** Press the power button located on the back of the mirror head to manually turn the light on or off.
- **Adjust Brightness:** While the light is on, press and hold the power button to cycle through brightness levels. Release the button when the desired brightness is reached.

Adjusting the Mirror Angle and Height

- The mirror head can be swiveled to any desired angle for comfortable viewing.

- The stand offers two height options. Gently pull the mirror head upwards to extend the stand to its full height, or push it down to the lower height.

CHARGING

The simplehuman Sensor Mirror is powered by a rechargeable battery. A single full charge can last up to 5 weeks with typical use.

1. Locate the micro USB charging port on the back of the mirror head.
2. Connect the provided USB charging cable to the mirror's port.
3. Plug the other end of the USB cable into a compatible USB power source (e.g., wall adapter, computer USB port).
4. The charging indicator light will illuminate to show that the mirror is charging. It will change color or turn off when fully charged.

Note: A USB power adapter is not typically included. Use a standard USB adapter for charging.

MAINTENANCE

- **Cleaning the Mirror Surface:** Use the provided cleaning cloth or a soft, lint-free cloth to gently wipe the mirror surface. For stubborn smudges, lightly dampen the cloth with water or a mild, non-abrasive glass cleaner. Avoid harsh chemicals or abrasive materials.
- **Cleaning the Body:** Wipe the stainless steel body with a soft, damp cloth. Do not submerge the mirror in water.
- **Handle with Care:** To prevent breakage, handle the mirror with care and avoid dropping it.

STORAGE AND TRAVEL

The simplehuman Sensor Mirror is designed for convenient storage and travel.

1. **Folding:** Gently push the mirror head down until the stand fully retracts and the mirror folds flat.

2. **Travel Case:** Place the folded mirror into its dedicated travel case for protection during transport. The case is designed to prevent damage from impacts and scratches.

3. **Storage:** Store the mirror in a dry, safe place away from extreme temperatures and direct sunlight.
