

## Nite Ize S-Biner #8

# Nite Ize S-Biner Plastic Dual Carabiner #8 Instruction Manual

Brand: Nite Ize | Model: S-Biner #8

## INTRODUCTION

The Nite Ize S-Biner Plastic Dual Carabiner #8 is a versatile accessory designed for organizing, securing, and carrying various items. Its unique dual spring gate design offers convenient functionality for a wide range of applications, from household organization to outdoor activities. This manual provides essential information for the proper use and care of your S-Biner.

## PRODUCT FEATURES

- **Lightweight Construction:** Molded with highly durable glass-filled nylon for strength without excessive weight.
- **Secure Dual Gates:** Features two secure stainless steel wire gate closures, allowing for attachment to two separate items simultaneously.
- **Generous Gate Opening:** Each gate offers a 1.5 inch (38 mm) opening for easy attachment to various objects.
- **Optimal Dimensions:** Measures 7.87 inches (200.01mm) in length, 3.67 inches (93.46mm) in width, and 0.58 inches (14.80mm) in depth.
- **Lightweight Design:** Weighs only 4.06 ounces (115.00g).

## SETUP

The Nite Ize S-Biner #8 requires no complex assembly. Before initial use, perform a visual inspection:

1. **Inspect for Damage:** Check the entire body of the S-Biner for any cracks, deformities, or signs of stress.
2. **Test Gates:** Ensure both stainless steel wire gates open and close smoothly and securely without sticking or excessive play.
3. **Safety Note:** This product is designed for general utility and organization. It is **not** intended for climbing,

mountaineering, or any load-bearing applications where failure could result in injury, death, or property damage.

## OPERATING INSTRUCTIONS

---

The S-Biner #8 offers simple and intuitive operation:

1. **Opening a Gate:** To open either gate, gently press the wire gate inward towards the center of the S-Biner.
2. **Attaching Items:** While the gate is open, hook the S-Biner onto the desired item or surface. Release the gate to secure the item.
3. **Dual Functionality:** Utilize one side of the S-Biner to attach to a fixed point (e.g., a stroller handle, closet rod, or pegboard) and the other side to hold an item (e.g., a bag, tool, or extension cord).

Image: The S-Biner #8 securely holding two bags on a horizontal rod, demonstrating its dual functionality.

Image: The S-Biner #8 attached to a metal shelf, holding a bucket by its handle, illustrating its use for hanging tools or containers.

## MAINTENANCE

---

To ensure the longevity and proper function of your Nite Ize S-Biner #8, follow these maintenance guidelines:

- **Cleaning:** Regularly clean the S-Biner with mild soap and water, especially after exposure to dirt, sand, salt water, or other corrosive elements.
- **Rinsing and Drying:** Rinse thoroughly with fresh water and allow it to air dry completely before storage or next use. Avoid using harsh chemicals, solvents, or abrasive materials, as these can damage the plastic and gate mechanisms.
- **Inspection:** Periodically check the spring gates for proper function. Ensure they move freely and close completely. Look for any signs of rust on the stainless steel gates or wear on the plastic body.

## TROUBLESHOOTING

---

The Nite Ize S-Biner #8 is a simple and durable product. Most issues can be resolved with basic inspection.

- **Gate Sticking or Not Closing:** If a spring gate becomes stiff, sticky, or does not close properly, inspect the mechanism for trapped dirt, debris, or foreign objects. Clean the gate area thoroughly using the

maintenance steps above.

- **Visible Damage:** If the plastic body is cracked, severely worn, or if the stainless steel gates are bent, broken, or show significant corrosion, discontinue use immediately. The S-Biner is not designed for repair; replace damaged units.

## SPECIFICATIONS
