Intex 28503

Intex PureSpa LED Light User Manual

Model: 28503

INTRODUCTION

The Intex PureSpa LED Light is designed to enhance your spa experience by providing multi-colored illumination. This battery-operated light offers various color options and modes to create the perfect ambiance for relaxation.

This manual provides essential information for the safe and effective use of your Intex PureSpa LED Light. Please read it thoroughly before operation and retain it for future reference.

SAFETY INFORMATION

- **Read all instructions:** Before using this product, carefully read and understand all instructions provided in this manual.
- **Battery Safety:**
 - Use only 3 AAA batteries as specified.
 - Do not mix old and new batteries, or different types of batteries.
 - Ensure batteries are inserted with correct polarity (+ and -).
 - Remove exhausted batteries promptly to prevent leakage.
 - Dispose of batteries properly according to local regulations.
 - Do not expose batteries to excessive heat or direct sunlight.
- **Water Safety:** This product is designed for use in water. Ensure the battery compartment is securely sealed before placing it in water.
- **Children:** Keep out of reach of small children. This is not a toy.
- **Maintenance:** Do not attempt to modify or repair the light yourself. Refer all servicing to qualified personnel.

PACKAGE CONTENTS

Verify that all components are present:

- 1 x Intex PureSpa LED Light (Model 28503)

MAINTENANCE

- Cleaning:** Wipe the light with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Battery Replacement:** When the light dims or stops functioning, replace all 3 AAA batteries. Ensure the battery compartment is dry before opening.
- Storage:** If storing for an extended period, remove the batteries to prevent leakage and store the light in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Batteries are dead or incorrectly inserted.	Replace batteries with new ones, ensuring correct polarity.
Light is dim.	Batteries are low.	Replace batteries.

Problem	Possible Cause	Solution
Water inside battery compartment.	Battery compartment cover not sealed properly.	Immediately remove batteries, dry the compartment thoroughly, and ensure the cover is sealed correctly next time. If damage persists, discontinue use.
