Learning Resources Time Activity Set Instruction Manual

Model: LER3220

INTRODUCTION

The Learning Resources Time Activity Set is designed to facilitate the understanding of time concepts for young learners aged 5 and above. This comprehensive 41-piece kit provides hands-on tools for mastering both analog and digital time, suitable for various learning environments including classrooms and homes.

The set includes a durable teaching clock with synchronized hour and minute hands, color-coded for intuitive learning. Complementary materials such as puzzle cards and activity cards enhance the learning experience by allowing children to practice time matching, writing time, and problem-solving.

SETUP

- Unpack Components:** Carefully remove all 41 pieces from the packaging.
- Inspect for Damage:** Check all items for any signs of damage or missing parts. If any issues are found, contact customer support.
- Prepare Work Area:** Ensure a clean, flat surface is available for activities.
- Familiarize with Materials:** Review the activity guide and identify each component: the main teaching clock, the write & wipe clock, puzzle cards, activity cards, and time dice.

OPERATING INSTRUCTIONS

Using the Teaching Clock

The main teaching clock features synchronized hour (red) and minute (blue) hands. When you move one hand, the other hand moves proportionally, mimicking a real clock's movement. This helps children understand the relationship between hours and minutes.

- Setting Time:** Gently rotate either the hour or minute hand to set a specific time. Observe how the other hand adjusts automatically.
- Reading Time:** Point to the hour hand first to identify the hour, then the minute hand to identify the minutes. The clock face includes minute markings (5, 10, 15, etc.) for easier reading.

Figure 4: Close-up of a child adjusting the clock hands.

Using Puzzle Cards

The 24 double-sided puzzle cards feature analog clock faces on one half and digital times on the other. Children match the analog time to its corresponding digital time.

- **Matching Activity:** Shuffle the puzzle pieces. Have the child select an analog clock piece and find the digital time piece that matches.
- **Time Recognition:** Use the puzzle cards to reinforce recognition of time in both formats.

Using Write & Wipe Cards and Time Dice

The 12 double-sided daily activity cards and 3 time dice provide interactive ways to practice writing and telling time in context.

- **Daily Activities:** Use the write & wipe activity cards to associate specific times with daily routines (e.g., "wake up at 7:00"). Children can write the time on the card using a dry-erase marker (not included).
- **Dice Games:** Roll the time dice to generate random times. Children can then set the time on the teaching clock or write it on the write & wipe clock.

MAINTENANCE

- **Cleaning:** Wipe all plastic components with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store all pieces in their original packaging or a suitable container to prevent loss or damage. Keep away from direct sunlight and extreme temperatures.

- **Write & Wipe Surfaces:** Use only dry-erase markers on the write & wipe surfaces. Erase promptly after use to prevent staining.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Clock hands do not move smoothly.	Debris or misalignment.	Gently rotate the hands back and forth to clear any obstruction. Ensure hands are not bent.
Write & wipe cards are stained.	Incorrect marker used or ink left on surface too long.	Use a dry-erase board cleaner or a small amount of rubbing alcohol on a soft cloth to remove stubborn marks. Always use only dry-erase markers.
Missing pieces.	Items misplaced or not included in original packaging.	Check all packaging materials thoroughly. If still missing, contact Learning Resources customer support.
