1.3 Initial Power On and Windows Setup

1. Press the power button on the front of the desktop.
2. Follow the on-screen instructions to complete the Windows 10 setup process. This includes selecting your region, language, and creating a user account.
3. Connect to your network. The PC supports 802.11ac Wireless LAN and a wired 10/100Base-T Ethernet connection.

2. OPERATING INSTRUCTIONS

This section covers basic operation of your HP Pavilion Desktop PC.

2.1 Using the Optical Drive

Your desktop includes an Ultra Slim Tray SuperMulti DVD Burner. This drive reads and writes to various media formats including DVD+R/RW, DVD-R/RW, CD-R/RW, DVD-RAM, and double-layer DVD.

- To open the tray, press the eject button located on the drive itself.
- Place a disc gently into the tray with the label side facing up.
- Gently push the tray back into the computer until it clicks shut.

2.2 USB Ports and Media Card Reader

The desktop features 2 USB 3.0 ports and 4 USB 2.0 ports for connecting external devices. It also includes a built-in media reader supporting SD, SDHC, and SDXC memory card formats.

- USB 3.0 ports offer faster data transfer speeds for compatible devices.
- Insert compatible memory cards into the media card reader slot until they click into place.

2.3 Bluetooth Connectivity

The integrated Bluetooth 4.2 interface allows you to sync with compatible wireless devices such as headphones, speakers, and mobile phones.

- To enable Bluetooth, navigate to Windows Settings > Devices > Bluetooth & other devices.
- Ensure your Bluetooth device is in pairing mode and select it from the list to connect.

2.4 Cloud Support

Utilize cloud services to access your files from anywhere. Windows 10 integrates with OneDrive, and you can install other cloud storage applications as needed.

3. MAINTENANCE

Regular maintenance helps ensure optimal performance and longevity of your HP Pavilion Desktop PC.

3.1 System Updates

Keep your operating system and drivers updated to ensure security and performance.

- **Windows Updates:** Go to Settings > Update & Security > Windows Update to check for and install the latest updates.
- **Driver Updates:** HP provides driver updates through its support website or pre-installed HP support applications.

3.2 Data Backup and Recovery

Regularly back up your important files to an external drive or cloud storage. It is recommended to create a recovery drive when you first set up your computer.

- **Create a Recovery Drive:** Search for 'Create a recovery drive' in the Windows search bar and follow the instructions. This requires a USB flash drive.
- **System Restore Points:** Windows automatically creates restore points, but you can also create them manually before making significant system changes.

3.3 Physical Cleaning

Keep the desktop clean to prevent dust buildup, which can affect cooling and performance.

- Use a soft, dry cloth to wipe the exterior surfaces.
- Use compressed air to gently clear dust from vents and ports. Ensure the computer is powered off and unplugged before cleaning.

4. TROUBLESHOOTING

This section addresses common issues you might encounter with your HP Pavilion Desktop PC.

4.1 Power Issues

- **Computer does not power on:** Ensure the power cord is securely connected to both the computer and the wall outlet. Check the power switch on the back of the power supply, if present.
- **No display:** Verify that the monitor is powered on and correctly connected to the computer's video output (HDMI or VGA). Try a different cable or monitor if possible.

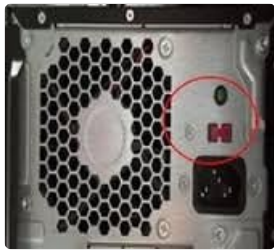

Image: Close-up of the power input area on the rear of the HP Pavilion Desktop PC. This shows the power cord connection point and a voltage selector switch (often red), which should be set correctly for your region.

4.2 Operating System Issues

- **Windows not booting:** If Windows fails to start, the system may attempt automatic repair. If this fails, you may need to use a recovery drive or access advanced startup options.
- **Application errors:** Ensure all Windows updates are installed. Try reinstalling the problematic application.

4.3 Connectivity Problems

- **No internet connection:** For wired connections, check the Ethernet cable and router. For wireless, ensure Wi-Fi is enabled and you are connected to the correct network. Restart your router and modem.
- **Bluetooth device not connecting:** Ensure the device is in pairing mode and within range. Check Bluetooth settings in Windows.
