RISCO RPKELOWT000A Elegant Touch Keypad User Manual

Model: RPKELOWT000A

INTRODUCTION

This manual provides essential instructions for the installation, operation, and maintenance of your RISCO RPKELOWT000A Elegant Touch Keypad. This device features an ultra-flat design with a 7-inch touchscreen, adjustable contrast and backlight, and adjustable buzzer volume. It is compatible with all versions of ProSYS systems.

PRODUCT OVERVIEW

Figure 1: Front view of the RISCO RPKELOWT000A Elegant Touch Keypad, showcasing its sleek design and touchscreen interface.

SETUP

1. Unboxing and Package Contents

Carefully open the product packaging and ensure all components are present. The package should contain:

- RISCO RPKELOWT000A Elegant Touch Keypad (Plastic material)
- USB Cable
- This User Manual

2. Physical Installation

The keypad is designed for indoor use. Choose a suitable location for installation, ensuring it is easily accessible and protected from extreme temperatures or moisture. Mount the keypad securely using appropriate hardware (not included, unless specified in packaging). Connect the USB cable to the keypad and to your ProSYS system or designated connection point.

3. Initial Power-On

Connect the power cable to the keypad and a suitable power source. The keypad will initiate its startup sequence. Follow any on-screen prompts for initial configuration or system pairing with your ProSYS system.

OPERATING INSTRUCTIONS

1. Basic Functions

- **Touchscreen Interface:** Navigate through menus and input commands using the 7-inch touchscreen.
- **Adjustable Backlight:** The keypad features a backlight. Adjust its intensity via the system settings for optimal visibility in various lighting conditions.
- **Adjustable Buzzer Volume:** The integrated buzzer provides audible feedback. Adjust its volume through the system settings to suit your preference.

2. System Compatibility

This keypad is compatible with all versions of RISCO ProSYS security systems. Ensure your ProSYS system is updated to the latest firmware for optimal performance and feature compatibility.

3. Keypad Layout and Input

The virtual keypad features a QWERTY layout with 104 keys, providing a familiar input experience for text and numerical entries. Use the touchscreen to select characters and functions.

MAINTENANCE

1. Cleaning the Keypad

To clean the touchscreen and plastic casing, use a soft, lint-free cloth slightly dampened with water or a

mild, non-abrasive cleaning solution. Do not spray cleaners directly onto the keypad. Avoid using harsh chemicals, solvents, or abrasive materials, as these can damage the surface.

2. Software Updates

Information regarding guaranteed software updates for this product is not available. Please refer to the official RISCO website or your system integrator for any available firmware updates for your ProSYS system, which may include updates relevant to the keypad's functionality.

TROUBLESHOOTING

If you encounter issues with your RISCO RPKEL0WT000A keypad, please refer to the following common troubleshooting steps:

- **Keypad Not Responding:** Ensure the USB cable is securely connected and the keypad is receiving power. Try restarting the ProSYS system.
- **Display Issues:** Check the backlight settings in the system menu. If the screen remains blank, verify power connection.
- **Buzzer Not Working:** Check the buzzer volume settings in the system menu.
- **Connectivity Problems:** Ensure the keypad is properly paired or connected to your ProSYS system according to the system's installation guide.

For persistent issues, consult the comprehensive ProSYS system manual or contact RISCO technical support.
