## HW HAWORKS S278

# S278 Mini Voice Amplifier User Manual

Model: S278

Brand: HW HAWORKS

## 1. PRODUCT OVERVIEW

The S278 is a versatile and compact voice amplifier designed to enhance vocal projection in various settings. With its 15-watt output, it can effectively amplify your voice for audiences of 20 to 65 people, protecting your vocal cords from strain. Beyond voice amplification, it functions as a multi-source music player, supporting Bluetooth, TF card, USB flash disk, and AUX input. It also includes an FM radio and recording capabilities, making it an all-in-one portable audio solution.

## 3. SETUP

### 3.1 Initial Charging

Before first use, fully charge the voice amplifier. Connect the included USB charging cable to the amplifier's charging port and a compatible USB power source (e.g., computer USB port, USB wall adapter). The charging time is approximately 3-5 hours for a full charge.

**Each full charge provides up to 12 hours of voice amplification**

### Rechargeable voice amplifier

Working Time: 8–12 hours

Charge time: 3–5 hours

Figure 3.1: The S278 amplifier displaying battery charge and indicating charging status.

### 3.2 Connecting the Headset Microphone

Insert the 3.5mm plug of the wired headset microphone into the MIC input port on the amplifier. Position the microphone near your mouth for optimal voice pickup. The headset is designed for comfort and secure fit.

### 3.3 Wearing the Amplifier

Attach the adjustable waist/neck band to the amplifier's loops. You can wear the amplifier around your waist, over your shoulder, or around your neck for hands-free operation. Adjust the strap length for a comfortable and secure fit.

## Adjustable Waist/neck Band— Easy to carry

Figure 3.2: Various wearing options for the S278 amplifier using the adjustable band.

## 4. OPERATING INSTRUCTIONS

### 4.1 Power On/Off and Volume Control

To power on the device, rotate the volume knob clockwise until the display lights up. To power off, rotate the volume knob counter-clockwise until it clicks off. Adjust the volume by rotating the same knob.

### 4.2 Voice Amplification Mode

Once the headset microphone is connected and the device is powered on, your voice will be amplified through the speaker. Ensure the microphone is positioned correctly to avoid feedback. The 15W output is designed for clear voice projection.

# 15W

### 4.3 Bluetooth Mode

1. Turn on the amplifier.
2. Press the 'M' (Mode) button until 'BLUE' appears on the display.
3. Enable Bluetooth on your device (e.g., smartphone, tablet) and search for 'S278'.
4. Select 'S278' to pair. Once paired, you can stream audio wirelessly.

### 4.4 FM Radio Mode

1. Press the 'M' (Mode) button to switch to FM radio mode.
2. Extend the antenna for better reception.
3. Use the 'Previous' and 'Next' buttons to scan for stations.

### 4.5 MP3 Playback (TF Card/USB Disk)

Insert a TF card or USB flash disk containing MP3 audio files into the respective slot. The amplifier will automatically switch to MP3 playback mode. Use the play/pause, previous, and next buttons to control playback.

### 4.6 Recording Function

In voice amplification mode, press the record button (usually indicated by a red dot or 'REC') to start recording. Press it again to stop. Recordings are typically saved to the inserted TF card or USB disk.

## Amplify voice and play music at the same time

Bluetooth Speaker, Aux Input, USB Support

Figure 4.2: The S278 amplifier can amplify voice and play music concurrently, suitable for various activities.

## 5. MAINTENANCE

### 5.1 Charging

The S278 features a built-in rechargeable Lithium Polymer battery. When the battery indicator is low, connect the USB charging cable to recharge. A full charge takes approximately 3-5 hours and provides up to 12 hours of continuous use.

### 5.2 Cleaning

Wipe the amplifier and headset with a soft, dry cloth. Do not use liquid cleaners or abrasive materials. Keep the device free from dust and moisture.

### 5.3 Storage

Store the amplifier in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, charge the battery periodically to maintain its health.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from speaker	Device is off; Volume is too low; Microphone not connected or faulty; Battery is drained.	Turn on the device; Increase volume; Ensure microphone is securely plugged in; Charge the battery.
Feedback/Squealing sound	Microphone too close to speaker; Volume too high; Microphone pointing directly at speaker.	Increase distance between microphone and speaker; Lower volume; Adjust microphone position away from speaker.
Bluetooth pairing failure	Device not in Bluetooth mode; Amplifier too far from pairing device; Bluetooth not enabled on pairing device.	Switch amplifier to Bluetooth mode; Move devices closer; Enable Bluetooth on your device.
FM radio static/poor reception	Antenna not extended; Weak signal in current location.	Fully extend the antenna; Try moving to a different location for better signal.

## 7. SPECIFICATIONS

- Model:** S278
- Output Wattage:** 15 Watts
- Dimensions (L x W x H):** 4.5 x 3.5 x 1.3 inches
- Weight:** 0.44 lbs (7.04 ounces)
- Power Source:** Battery Powered (1 Lithium Polymer battery, included)
- Battery Life:** Up to 12 hours (voice amplification)
- Charging Time:** 3-5 hours
- Connectivity:** Bluetooth, AUX (3.5mm), USB, TF Card
- Audio Input:** 3.5mm wired headset microphone
- Material:** Acrylonitrile Butadiene Styrene (ABS)
- Color:** Black
- Manufacturer:** SHIDU
- Recommended Uses:** Teaching, announcements, music playback, tour guiding, fitness instruction
