Feit Electric A19 LED Light Bulbs Instruction Manual

Model: A1600/850/10KLED/2

INTRODUCTION

This manual provides essential information for the safe and efficient use of your Feit Electric A19 LED Light Bulbs. These bulbs are designed to provide energy-efficient illumination with a long lifespan. Please read these instructions carefully before installation and retain them for future reference.

The Feit Electric A19 LED Light Bulbs are 100W equivalent, non-dimmable, and produce 1500 lumens of 5000K Daylight light. They feature an E26 standard base and are designed for a 10-year lifetime.

SAFETY INFORMATION

- **Risk of Electric Shock:** Do not use where directly exposed to water.
- **Risk of Fire:** Do not use in totally enclosed fixtures. Not for use with dimmers.
- Ensure power is turned off before installation or removal.
- Do not disassemble the bulb.
- Suitable for damp locations.

SETUP AND INSTALLATION

1. **Turn Off Power:** Before replacing any light bulb, ensure the power to the fixture is turned off at the switch and the circuit breaker.
2. **Remove Old Bulb:** Carefully unscrew the existing light bulb from the fixture. Allow it to cool if it has been recently in use.
3. **Install New Bulb:** Screw the Feit Electric A19 LED bulb into the E26 standard base socket. Turn clockwise until snug. Do not overtighten.
4. **Restore Power:** Turn the power back on at the circuit breaker and then at the light switch.

Figure 1: Feit Electric A19 LED Light Bulbs in their packaging. This image shows two bulbs, highlighting their A19 shape and E26 standard base, along with key specifications like 100W equivalent, 15W LED, non-dimmable, 1500 lumens, and 5000K Daylight color temperature.

OPERATING INSTRUCTIONS

Once installed, the Feit Electric A19 LED bulb operates like a standard light bulb. Simply use the wall switch or fixture switch to turn the light on or off.

- **Instant On:** These bulbs provide instant full brightness with no warm-up time.
- **Non-Dimmable:** These specific bulbs are non-dimmable. Do not use them with dimmer switches, as this can cause flickering or damage to the bulb.
- **Color Temperature:** The 5000K Daylight color temperature provides a crisp, white light suitable for various applications.

Long Lasting

Long lasting **11,000** life hours, for ease of mind.

Energy Efficient

Saves \$180 in energy costs.

Figure 2: An example of a kitchen space illuminated by 5000K Daylight bulbs, demonstrating the bright and clear light output.

MAINTENANCE

Feit Electric LED bulbs are designed for long-term, maintenance-free operation.

- **Cleaning:** Ensure the power is off before cleaning. Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners.
- **Replacement:** With an average life of 10,000 hours, frequent replacement is not typically required. When replacement is necessary, follow the installation steps.
- **Disposal:** Dispose of used LED bulbs according to local regulations for electronic waste.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bulb does not light up.	No power to the fixture. Bulb not screwed in properly. Bulb is faulty.	Check circuit breaker and wall switch. Ensure bulb is securely tightened (power off first). Replace with a new bulb to test.
Bulb flickers.	Used with a dimmer switch. Loose connection. Electrical interference.	These bulbs are non-dimmable; remove from dimmer circuit. Ensure bulb is securely tightened (power off first). Test in a different fixture to rule out electrical issues.
Light output is too low.	Incorrect bulb wattage for application.	Verify the required brightness for your space. This bulb provides 1500 lumens.
