Sluban M38-B0253

Sluban M38-B0253 Light-Up Stage Cart Building Set

Model: M38-B0253 | **Brand:** Sluban

Introduction

Thank you for choosing the Sluban M38-B0253 Light-Up Stage Cart building set. This 369-piece construction toy is designed to inspire creativity and imaginative play for children aged 6 years and above. This manual provides essential information for assembly, operation, and maintenance to ensure a safe and enjoyable experience.
Please read these instructions carefully before beginning assembly and keep them for future reference.

Safety Information

- **Choking Hazard:** This set contains small parts and is not suitable for children under 3 years of age. Adult supervision is recommended for all users.
- **Material Safety:** The building blocks are made from non-toxic plastic materials, ensuring safety during play.
- **Proper Use:** Do not throw or misuse the building blocks. Ensure all connections are secure to prevent parts from detaching unexpectedly.
- **Disposal:** Dispose of packaging materials responsibly and keep them away from children.

Package Contents

Your Sluban M38-B0253 Light-Up Stage Cart set includes:

- 369 x Plastic Building Blocks (various shapes and sizes)
- 1 x Instruction Manual (this document, or a separate printed guide)
- 1 x Light-Up Module (integrated into specific pieces)

Please check all contents upon opening the package. If any parts are missing or damaged, please contact customer support.

Assembly Instructions

Follow the step-by-step pictorial instructions provided in the separate printed building guide included in your package. The assembly process is designed to be intuitive, but careful attention to detail will ensure a stable and complete model.

1. **Preparation:** Unpack all building blocks and sort them by color or shape if desired. This can make the assembly process easier.
2. **Follow the Guide:** Refer to the numbered steps in the dedicated building instruction booklet. Each step illustrates which pieces to use and where to place them.
3. **Secure Connections:** Ensure each block is firmly pressed into place to create a sturdy structure.
4. **Light-Up Module Integration:** Pay special attention to the steps involving the light-up components. These are typically integrated during specific stages of the build.
5. **Verification:** After completing all steps, double-check your model against the images in the instruction booklet to ensure all parts are correctly assembled.

Note: No product images are available for this specific model (M38-B0253) in the provided data. Relevant product images would typically be embedded here to illustrate assembly steps.

Operating Instructions

The Sluban M38-B0253 Stage Cart features an integrated light-up function to enhance play. As per specifications, no batteries are required, indicating a self-contained or mechanical light source.

1. **Activate Light:** Locate the activation mechanism for the light-up feature on the completed stage cart. This is typically a small button or a pressure-sensitive area.
2. **Enjoy Play:** Once activated, the stage cart will illuminate, adding a dynamic element to imaginative performances.
3. **Deactivate Light:** To turn off the light, press the activation mechanism again or allow it to deactivate automatically if it has a timed function.

Maintenance

- **Cleaning:** To clean the building blocks, wipe them gently with a damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the assembled model or disassembled blocks in a cool, dry place away from direct sunlight to prevent material degradation and color fading.
- **Handling:** Handle the assembled model with care to avoid accidental breakage, especially with smaller or more delicate parts.

Troubleshooting

Problem	Solution
Missing or damaged parts	Contact Sluban customer support with details of the missing/damaged part and your purchase information.

Problem	Solution
Difficulty connecting blocks	Ensure blocks are aligned correctly. Apply gentle, even pressure. Avoid forcing pieces together.
Light-up feature not working	Check if the light-up module is correctly assembled and connected according to the building instructions. Ensure the activation mechanism is fully pressed.
Assembled model is unstable	Review the assembly steps to ensure all blocks are firmly connected and placed in the correct positions.
