CO-Z CO-Z 0003

CO-Z Hand Press Citrus Juicer Machine User Manual

Model: CO-Z 0003

1. Introduction

Thank you for choosing the CO-Z Hand Press Citrus Juicer Machine. This manual provides essential information for the safe and efficient operation, maintenance, and care of your juicer. Please read these instructions thoroughly before first use and retain them for future reference.

Important Safety Information:

- Always place the juicer on a stable, flat, and non-slip surface before use.
- Keep hands and fingers clear of moving parts, especially when pressing the handle.
- Ensure all removable parts are correctly assembled before operation.
- This juicer is designed for citrus fruits. Do not attempt to juice other types of produce that may damage the mechanism.
- Clean the juicer thoroughly after each use to prevent residue buildup.

2. Product Components

The CO-Z Hand Press Citrus Juicer consists of several key components designed for efficient juicing and easy cleaning:

- **Handle:** Ergonomically designed with a rubber grip for comfortable operation.
- **Pressure Cap:** The upper pressing component that extracts juice from the fruit.
- **Strainer:** A perforated stainless steel basket that separates pulp and seeds from the juice.
- **Funnel:** Collects the strained juice and directs it into your container.

- **Base:** A heavy-duty base with suction feet for stability during use.
- **Support Rods:** Provide structural support for the pressing mechanism.

Figure 2.1: Labeled components of the CO-Z Hand Press Citrus Juicer.

Figure 2.2: Detailed view of the food-grade stainless steel components.

3. Setup

1. **Unpack:** Carefully remove all components from the packaging. Inspect for any damage.
2. **Initial Cleaning:** Before first use, wash the pressure cap, strainer, and funnel with warm, soapy water. Rinse thoroughly and dry completely.
3. **Placement:** Position the juicer on a clean, dry, and stable countertop. The heavy-duty base is designed to provide stability.
4. **Assemble:** Ensure the strainer is properly seated within the funnel, and the funnel is securely placed on the base. The pressure cap should align correctly with the strainer.

4. Operating Instructions

Follow these steps to extract juice efficiently from your citrus fruits:

1. **Prepare Fruit:** Select fresh citrus fruits such as oranges, lemons, limes, or pomegranates. Cut the fruit in half or quarters, depending on its size, to fit comfortably on the strainer.

Figure 4.1: Prepare your fruit by cutting it in half.

2. **Place Fruit:** Lift the handle to raise the pressure cap. Place one half of the cut fruit onto the strainer, cut-side down.

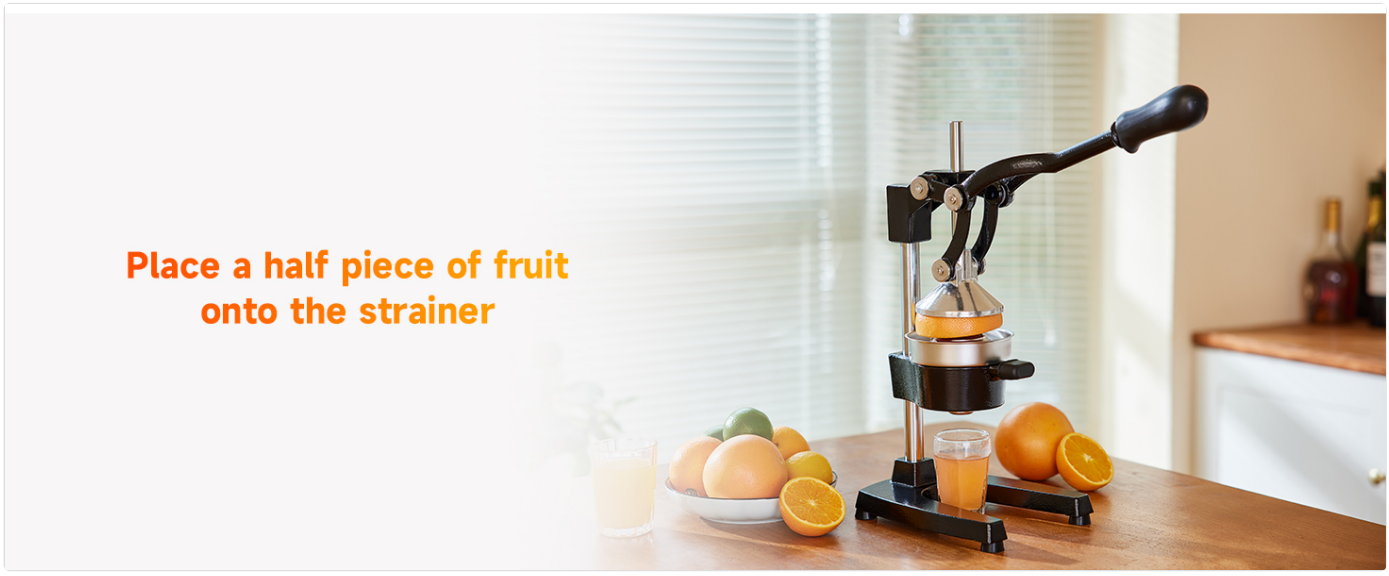

Figure 4.2: Place the fruit half onto the strainer.

3. **Position Container:** Place a glass or container directly beneath the funnel to collect the extracted juice.
4. **Extract Juice:** Firmly pull the handle down with steady pressure. The pressure cap will press the fruit against the strainer, extracting the juice. Continue pressing until all juice is extracted.

Figure 4.3: Press the handle down to extract juice.

5. **Repeat:** Lift the handle, remove the squeezed fruit, and repeat the process for additional juice.

Figure 4.4: Step-by-step guide to using the juicer.

Figure 4.5: The juicer effectively extracts juice from various citrus fruits.

5. Maintenance and Cleaning

Regular cleaning ensures the longevity and hygienic operation of your juicer.

1. **Disassembly:** After each use, lift the handle and carefully remove the pressure cap, strainer, and funnel from the main unit.
2. **Washing:** The stainless steel pressure cap, strainer, and funnel are dishwasher safe. Alternatively, wash them by hand with warm, soapy water and a soft brush to remove any pulp or residue.

Figure 5.1: The detachable strainer is easy to clean under running water.

3. **Rinsing:** Rinse all parts thoroughly to remove soap residue.
4. **Drying:** Dry all components completely before reassembly or storage to prevent water spots or corrosion.
5. **Main Unit:** Wipe down the main body and handle with a damp cloth. Do not immerse the main unit in water.
6. **Storage:** Store the juicer in a clean, dry place.

6. Troubleshooting

Problem	Possible Cause	Solution
Not enough juice extracted.	Fruit not ripe enough; insufficient pressure; fruit too large/small.	Use ripe fruit. Apply firm, steady pressure. Cut fruit to appropriate size (halves or quarters).
Juicer slides on countertop.	Surface is wet or slippery; suction feet not engaged.	Ensure countertop is dry and clean. Press down firmly on the base to engage suction feet.
Handle is stiff or difficult to operate.	Residue buildup; mechanism needs lubrication.	Clean thoroughly. Apply a small amount of food-grade lubricant to pivot points if necessary.
Pulp or seeds in juice.	Strainer not properly seated; strainer clogged.	Ensure strainer is correctly placed. Clean strainer thoroughly.

7. Specifications

Feature	Detail
Brand	CO-Z
Model Number	CO-Z 0003
Color	Black
Product Dimensions (L x W x H)	6.9" x 11.4" x 15.3" (17.5 cm x 29 cm x 38.9 cm)
Item Weight	13.2 pounds (6 kg)
Material	Iron, Food-Grade 304 Stainless Steel
Capacity	0.8 Liters
Power Source	Manual
Care Instructions	Dishwasher Safe (removable parts)
