Artemide 1182010A_BIANCO

Artemide Cabildo Sospensione Led 3000°K User Manual

Model: 1182010A_BIANCO

Product Overview

The Artemide Cabildo Sospensione Led 3000°K is a modern suspension lamp designed by Artemide. It features an integrated LED light source and is dimmable, though a dimmer is not included with the product. Its unique design provides diffused light, making it suitable for various indoor environments.

Image: The Artemide Cabildo Sospensione Led 3000K, showcasing its elegant white finish and distinctive circular form. This suspension lamp is designed to provide ambient lighting.

Package Contents

Upon opening the package, ensure all components are present and undamaged. The standard package for the Artemide Cabildo Sospensione Led 3000°K includes:

- LED Reflector (integrated light source)
- Mounting hardware (not explicitly listed but implied for a suspension lamp)
- Instruction manual (this document)

If any items are missing or damaged, please contact your retailer or Artemide customer support immediately.

Setup and Installation

Installation of the Artemide Cabildo Sospensione Led 3000°K should be performed by a qualified electrician in accordance with local electrical codes and regulations. Ensure the power supply is disconnected before beginning installation.

1. **Preparation:** Unpack all components and verify their integrity. Identify the mounting location on the ceiling, ensuring it can support the lamp's weight (approximately 2.54 kg).
2. **Mounting the Canopy:** Secure the ceiling canopy to the junction box using the provided mounting hardware. Ensure a stable and secure attachment.
3. **Electrical Connection:** Connect the lamp's electrical wires to the main power supply wires, following the wiring diagram provided in the separate installation guide (if applicable) or on the product itself. Ensure proper grounding. This lamp operates at 220 Volts.
4. **Adjusting Suspension Wires:** Adjust the length of the suspension wires to achieve the desired hanging height. Secure the wires firmly within the canopy mechanism.
5. **Attaching the Lamp Body:** Carefully attach the lamp body to the suspension wires and secure it to the canopy. Ensure the lamp is level and stable.
6. **Final Check:** Once installed, restore power and test the lamp's functionality.

Note: This lamp is dimmable. If you wish to utilize this feature, a compatible dimmer switch must be installed separately by a qualified electrician. The dimmer is not included with the lamp.

Operating Instructions

The Artemide Cabildo Sospensione Led 3000°K is designed for straightforward operation.

- **Power On/Off:** Use a standard wall switch connected to the lamp's circuit to turn the light on or off.
- **Dimming Function:** If a compatible dimmer switch has been installed, use it to adjust the light intensity. Rotate or slide the dimmer control to achieve the desired brightness level.

The integrated LED light source provides a warm white light at 3000°K.

Maintenance

Regular maintenance will help preserve the appearance and functionality of your Artemide Cabildo Sospensione Led 3000°K.

- **Cleaning:** Disconnect power before cleaning. Use a soft, dry, or slightly damp cloth to wipe the lamp's surface. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- **Bulb Replacement:** The lamp features an integrated LED reflector. This means the LED light source is not user-replaceable. If the LED fails, professional service may be required.
- **Disposal and Recycling:** This product contains electronic components and an LED light source. Do not dispose of

it with general household waste. Please refer to local regulations for proper recycling of electrical and electronic equipment. For information on recycling and disposal of broken or damaged lamps, consult relevant local guidelines or visit Amazon's recycling information page.

Troubleshooting

If you encounter issues with your Artemide Cabildo Sospensione Led 3000°K, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lamp does not turn on.	No power supply; loose wiring; faulty switch.	Check circuit breaker. Ensure all electrical connections are secure (consult an electrician). Test the wall switch.
Light flickers or is dim.	Incompatible dimmer; unstable power supply; wiring issue.	Ensure dimmer is compatible with LED lighting. Check power supply stability. Consult an electrician to inspect wiring.
Lamp makes unusual noise.	Loose components; electrical issue.	Disconnect power and check for any loose parts. If noise persists, consult a qualified electrician.

For issues not listed here or if solutions do not resolve the problem, please contact Artemide customer support or a certified technician.
