Plank+Beam 737-236

Plank+Beam Jackpot! Deluxe All-in-One Solid Wood Staircase Loft Bed Instruction Manual

Model: 737-236

Important Safety Information

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- This bed meets or exceeds federal safety standards for children’s furniture.
- Ensure all hardware is securely tightened before use. Periodically check and re-tighten as necessary.
- Do not allow children under 6 years of age on the upper bunk.
- Use only mattresses that are 74-75 inches long and 37.5-38.5 inches wide for the twin bed.
- The maximum mattress thickness for the upper bunk should not exceed 8 inches to ensure proper guardrail height.
- Always use the guardrails on the upper bunk.
- Do not attach or hang items to any part of the bunk bed that are not designed for use with the bed; for example, but not limited to, hooks, belts, and jump ropes.
- Prohibit more than one person on the upper bunk.
- Prohibit horseplay on or under the bed.
- Always use the staircase for entering and exiting the upper bunk.
- Ensure adequate ventilation and lighting in the room.
- Assembly requires 2 or more adults.

Package Contents

Verify all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Loft Bed Frame Components
- Twin Bed Frame Components
- Staircase Unit with Integrated Drawers
- Dresser Unit with Integrated Drawers and Shelves
- Guardrails (14 inches)
- Upper and Lower Slat Rolls
- Hardware Pack (screws, bolts, dowels, etc.)

- Optional Vanity Panel

Image: Overview of the Plank+Beam Jackpot! Deluxe All-in-One Solid Wood Staircase Loft Bed. This image displays the complete bed unit, featuring the upper loft bed, the integrated staircase with drawers, the dresser unit with drawers and shelves, and the L-shaped twin bed positioned underneath the loft.

Setup and Assembly

Assembly of this product requires a minimum of two adults due to its size and weight. Ensure you have ample space and the necessary tools (not included, typically a Phillips head screwdriver and Allen wrench). The bed ships in multiple boxes.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches.
2. **Identify Hardware:** Separate and identify all hardware components using the provided hardware list.
3. **Assemble Loft Bed Frame:** Follow the step-by-step diagrams in the included instruction booklet to construct the main loft bed frame. Pay close attention to the orientation of each piece.
4. **Assemble Staircase Unit:** Construct the staircase unit, ensuring all drawer slides are correctly installed. The staircase is reversible and can be attached to either side of the loft bed.
5. **Integrate Dresser Unit:** Assemble the dresser unit, including the drawers and shelves. This unit forms part of the support structure for the loft bed.
6. **Attach Guardrails and Slat Rolls:** Securely attach the 14-inch guardrails to the upper loft bed. Install the upper and lower slat rolls to support the mattresses.

7. **Position Twin Bed:** The lower twin bed is not attached to the loft structure and can be positioned L-shaped underneath the loft or moved independently. Assemble the twin bed frame and install its slat roll.
8. **Install Optional Vanity Panel:** If desired, install the optional vanity panel to close off the shelf exterior of the dresser unit.
9. **Final Inspection:** Before use, thoroughly inspect all connections to ensure they are tight and secure.

Note: Detailed assembly diagrams and specific part numbers are provided in the separate assembly booklet included with your purchase. Refer to that booklet for step-by-step visual guidance.

Operating Instructions

Using the Loft Bed

- Access the upper loft bed using the integrated staircase only.
- Ensure the mattress on the upper bunk does not exceed 8 inches in thickness to maintain adequate guardrail height.
- The upper bunk is designed for one occupant only.

Using the Storage

- The staircase steps function as drawers, providing convenient storage.
- The built-in storage towers include 8 front-facing drawers and 6 bookshelves behind them.
- Dresser drawers measure approximately 14.5 inches (W) x 13 inches (D).
- Shelves are approximately 12.75 inches deep and 10.25 inches wide.
- Avoid overloading drawers and shelves to prevent damage and ensure smooth operation.

Maintenance

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the wood finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) check all bolts, screws, and connections to ensure they remain tight. Re-tighten as necessary to maintain structural integrity and safety.
- **Drawer Slides:** If drawers become stiff, apply a small amount of silicone lubricant to the drawer slides.
- **Wood Care:** As this is a solid hardwood product, avoid placing it in direct sunlight or near heat sources to prevent warping or cracking. Maintain consistent room humidity.

Troubleshooting

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and re-tighten all bolts and screws. Ensure all connections are secure.
Drawers stick or do not slide smoothly.	Misaligned drawer slides; debris in slides; overloaded drawer.	Empty the drawer and check for obstructions. Verify drawer slides are correctly aligned and lubricate if necessary. Reduce load in the drawer.

Problem	Possible Cause	Solution
Squeaking noises.	Loose connections; friction between wood parts.	Re-tighten all hardware. If squeaking persists, identify the source and apply a small amount of wax or silicone spray to the contact points.
Missing parts or damaged components upon delivery.	Shipping error or manufacturing defect.	Do not proceed with assembly. Contact Plank+Beam customer support immediately for replacement parts.

Specifications

Model: 737-236

Brand: Plank+Beam

Manufacturer: Maxwood

Product Dimensions (Overall): 99"L x 80"W x 69"H
