SUNUV SUNmini2

SUNUV Mini2 UV LED Nail Lamp User Manual

Model: SUNmini2 | Brand: SUNUV

INTRODUCTION

Thank you for choosing the SUNUV Mini2 UV LED Nail Lamp. This compact and portable nail lamp is designed for efficient curing of various gel nail polishes. With its dual light source technology and two timing settings, it provides a convenient solution for both home and travel use. Please read this manual carefully before use to ensure proper operation and maintenance.

PRODUCT FEATURES

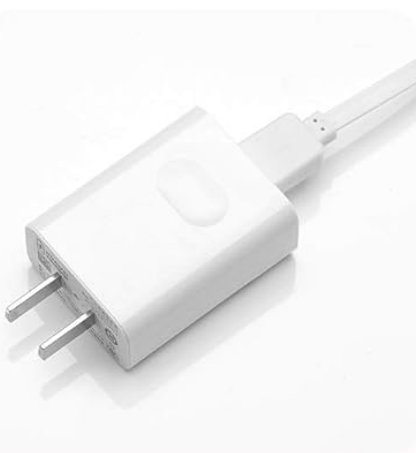

- **Dual Light Source Technology:** Combines UV and LED light for curing all types of gel polishes.
- **Two Timing Settings:** Features 45-second and 60-second curing modes.
- **Portable and Foldable Design:** Compact size with foldable legs for easy storage and travel.
- **USB Powered:** Can be powered by a USB plug, power bank, or PC USB port.
- **Eye and Skin Safe:** Designed to be harmless to eyes and skin during normal use.
- **Long-lasting Lamp Beads:** Equipped with 6 double light source lamp beads with an estimated lifespan of 50,000 hours.

SETUP

Before using your SUNUV Mini2 nail lamp, follow these simple setup steps:

1. **Unpack:** Carefully remove the nail lamp from its packaging.
2. **Unfold Legs:** Gently unfold the two support legs of the lamp until they click into place, ensuring stability.
3. **Connect Power:** Connect the provided USB cable to the lamp's USB port. Plug the other end into a suitable USB power source, such as a USB wall adapter (not included), a power bank, or a computer's USB port.

USB Interface Easy to connect

USB Plug

Power Bank

PC USB

bank, and a PC USB port for power supply.

OPERATING INSTRUCTIONS

The SUNUV Mini2 features a single button for controlling its timing functions:

- **45-Second Mode:** Press the button once briefly. The lamp will illuminate and cure for 45 seconds, then automatically turn off.
- **60-Second Mode:** Press and hold the button for approximately 2 seconds. The lamp will illuminate and cure for 60 seconds, then automatically turn off.

To cure your gel polish:

1. Apply a thin, even layer of gel nail polish to your nails.
2. Place your hand or foot under the lamp, ensuring all nails are exposed to the light.
3. Select the desired curing time (45s or 60s) by pressing the button as described above.
4. Repeat the process for additional coats of gel polish as recommended by your gel polish manufacturer.

Timing Function

- 1 Short press time 45 seconds
- 2 Long press time 60 seconds

MAINTENANCE

To ensure the longevity and optimal performance of your SUNUV Mini2 nail lamp, follow these maintenance guidelines:

- **Cleaning:** Disconnect the lamp from the power source before cleaning. Use a soft, dry cloth to wipe the exterior of

the lamp. Do not use abrasive cleaners or solvents.

- **Storage:** When not in use, fold the legs and store the lamp in a cool, dry place away from direct sunlight and moisture.
- **Handling:** Handle the lamp with care. Avoid dropping it or subjecting it to strong impacts.

TROUBLESHOOTING

If you encounter any issues with your SUNUV Mini2 nail lamp, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lamp does not turn on.	Not properly connected to power source; faulty USB cable or power source.	Ensure the USB cable is securely connected to both the lamp and the power source. Try a different USB port or power adapter.
Gel polish is not curing properly.	Too thick a layer of gel polish; incorrect curing time; incompatible gel polish.	Apply thinner coats of gel polish. Ensure you are using the correct curing time for your specific gel polish. Some gel polishes may require longer curing times or multiple cycles. Ensure the gel polish is compatible with UV/LED lamps.
Lamp turns off prematurely.	Power fluctuation; internal sensor issue.	Try connecting to a stable power source. If the issue persists, contact customer support.

SPECIFICATIONS

Feature	Detail
Model	SUNmini2
Power	6 Watts
Lamp Type	UV LED Dual Light Source
Timing Settings	45 seconds, 60 seconds
Product Dimensions	6.7D x 13.1W x 1.9H Centimeters
