GE Lighting LED A19 Dimmable Daylight Light Bulb (Model 67616) Instruction Manual

INTRODUCTION

This manual provides essential information for the safe and effective use of your GE Lighting LED A19 Dimmable Daylight Light Bulbs. These 10-watt LED bulbs are designed to replace traditional 60-watt incandescent bulbs, offering significant energy efficiency and a long operational lifespan. They produce a cool, bluish-white 'Daylight' light, ideal for active spaces and general purpose lighting.

SAFETY INFORMATION

- **Electrical Safety:** Always turn off power to the fixture at the circuit breaker before installing, removing, or cleaning the bulb.
- **Indoor Use Only:** These bulbs are rated for indoor use in dry locations.
- **Not for Enclosed Fixtures:** Do not use these bulbs in fully enclosed luminaires, as this can shorten their lifespan and may pose a fire hazard.
- **Dimmable Compatibility:** Ensure your dimmer switch is compatible with LED bulbs to prevent flickering or damage. Refer to your dimmer's instructions for compatibility.
- **Disposal:** Dispose of used bulbs according to local regulations.

PACKAGE CONTENTS

Your package should contain the following items:

- 4 x GE Lighting LED A19 Dimmable Daylight Light Bulbs (Model 67616)

LED

long life/low energy

daylight

GENERAL
PURPOSE

Brightness

800
lumens

Estimated
Energy Cost

\$1.20
per year

**Provides nearly the same light output as a 60-watt incandescent bulb (800 lumens vs. 840 lumens).

LED A19

4 BULBS

Image: Packaging for the 4-pack of GE Lighting LED A19 Dimmable Daylight Light Bulbs. The packaging highlights 60W replacement, 10W actual usage, 13-year lifespan, dimmable feature, and 800 lumens brightness.

SETUP (INSTALLATION)

1. **Turn Off Power:** Before beginning installation, ensure the power to the light fixture is turned off at the circuit breaker or wall switch.
2. **Remove Old Bulb:** Carefully unscrew and remove the existing light bulb from the fixture.
3. **Install New Bulb:** Screw the GE LED A19 bulb into the E26 Medium base socket until it is finger-tight. Do not overtighten.
4. **Restore Power:** Turn the power back on at the circuit breaker or wall switch.

Medium Base

MOST COMMON BASE SIZE

Image: A diagram detailing the dimensions of a Medium Base (E26), which is the most common screw-in base size for light bulbs.

OPERATING INSTRUCTIONS

These GE LED A19 bulbs are designed for simple operation in standard E26 medium base fixtures.

- **Turning On/Off:** Use your existing wall switch or fixture switch to turn the light bulb on or off.
- **Dimming:** These bulbs are dimmable. If connected to a compatible dimmer switch, you can adjust the light intensity from full brightness (800 lumens) down to a lower level. Ensure your dimmer is designed for LED compatibility to avoid performance issues.
- **Light Color:** The bulbs provide a 'Daylight' color temperature of 5000 Kelvin, which is a cool, bluish-white light.

Understanding Light Bulb Choices

Your browser does not support the video tag.

Video: This official GE Lighting video, titled "Find Your Bulb," explains how to choose the right light bulb based on base type (e.g., Medium Base, Candelabra Base, GU10, GU24, G5.3), application (e.g., general purpose, ceiling fan, flood/spotlight, chandelier), color temperature (Daylight vs. Soft White), and technology (LED, Halogen, Incandescent). It highlights the benefits of GE LED bulbs, including energy efficiency, long life, and money savings.

MAINTENANCE

GE LED A19 bulbs require minimal maintenance.

- **Cleaning:** Ensure the power is off and the bulb is cool before cleaning. Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **No User Serviceable Parts:** The bulb contains no user-serviceable parts. Do not attempt to open or repair the bulb.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bulb does not light up.	No power to the fixture, loose connection, or faulty bulb.	Check circuit breaker and wall switch. Ensure bulb is screwed in securely. Test bulb in another working fixture.
Bulb flickers or dims improperly.	Incompatible dimmer switch, or bulb used in an enclosed fixture.	Ensure your dimmer switch is LED compatible. Do not use in enclosed fixtures. Replace with a compatible dimmer if necessary.
Bulb lifespan is shorter than expected.	Used in an enclosed fixture, excessive heat, or voltage fluctuations.	Avoid using in enclosed fixtures. Ensure proper ventilation. Verify stable voltage supply.

SPECIFICATIONS

Feature	Detail
Brand	GE
Model Name	67616
Light Type	LED
Wattage	10 Watts
Incandescent Equivalent Wattage	60 Watts
Bulb Shape Size	A19
Bulb Base	E26 Medium
Light Color	Daylight (bluish white light)
Color Temperature	5000 Kelvin
Brightness	800 Lumens
Special Feature	Dimmable

Feature	Detail
Voltage	120 Volts
Indoor/Outdoor Usage	Indoor
Average Life	15,000 Hours
Specification Met	Energy Star
Material	Glass
Product Dimensions	2.37"W x 4.92"H

WARRANTY AND SUPPORT

Warranty: According to product information, there is no specific warranty provided for this item. Please refer to the retailer's return policy for any issues.

Customer Support: For further assistance or inquiries, please visit the official GE Lighting website or contact their customer support directly.
