

Ridgeway QS-806

Ridgeway QS-806 Portable Bluetooth Speaker

USER MANUAL

Product Overview

The Ridgeway QS-806 is a versatile portable Bluetooth speaker designed for powerful audio output and convenient mobility. It features an 8-inch woofer with dynamic LED lighting that synchronizes with music, offering an immersive audio-visual experience. Equipped with multiple connectivity options including Bluetooth, USB, SD card, FM radio, and AUX input, it ensures compatibility with various devices. The speaker also includes a microphone input for announcements and karaoke, making it suitable for various events. Its long-lasting rechargeable battery provides up to 7 hours of music playback, and the integrated telescopic handle and wheels allow for easy transport.

Image: The Ridgeway QS-806 portable Bluetooth speaker, black in color, with an illuminated LED woofer displaying blue and white light. A wired microphone is shown next to the speaker. The speaker features a top handle and a mesh grille covering the woofer.

Package Contents

- 1 x Ridgeway QS-806 Portable Bluetooth Speaker (8-inch plastic speaker)
- 1 x Microphone
- 1 x Remote Control
- 1 x User Manual (this document)
- Cables (Power cable, etc.)

Setup

1. **Charging the Speaker:** Before first use, fully charge the speaker's 12V 4.5Ah rechargeable battery. Connect the power cable to the speaker's charging port and plug it into a standard 120V, 50-60Hz power outlet. The charging indicator will show the charging status.
2. **Powering On/Off:** Locate the power switch, usually on the back or side panel. Flip it to the 'ON' position to power on the speaker. Flip it to 'OFF' to power off.

3. **Connecting Microphone:** Insert the microphone cable into the designated 'MIC IN' port on the speaker.
4. **Connecting AUX Devices:** For wired audio input, connect an audio cable (not always included) from your device's headphone jack to the 'AUX IN' port on the speaker.

Operating Instructions

- **Bluetooth Pairing:**
 - a. Turn on the speaker. It will automatically enter Bluetooth pairing mode, indicated by a flashing LED or an audible prompt.
 - b. Enable Bluetooth on your smartphone, tablet, or computer.
 - c. Search for available devices and select "QS-806" (or similar name) from the list.
 - d. Once paired, the speaker will confirm the connection, and you can start streaming music wirelessly.
- **USB/SD Card Playback:**
 - a. Insert a USB flash drive or SD card (with compatible audio files) into the respective slot.
 - b. The speaker should automatically detect the media and begin playback. Use the control buttons on the speaker or remote control to navigate tracks and adjust volume.
- **FM Radio:**
 - a. Press the 'Mode' button on the speaker or remote control until 'FM Radio' mode is selected.
 - b. Use the scan button to automatically search and save available radio stations.
 - c. Use the previous/next buttons to switch between saved stations.
- **AUX In Mode:**
 - a. Connect your external audio device to the 'AUX IN' port using an audio cable.
 - b. Press the 'Mode' button until 'AUX' mode is selected. Audio will now play through the speaker from your connected device.
- **Microphone Usage:**
 - a. Ensure the microphone is connected to the 'MIC IN' port.
 - b. Adjust the microphone volume knob (if available) on the speaker's control panel.
 - c. Speak or sing into the microphone.
- **LED Light Control:** The speaker features an integrated LED light that moves with the music. Specific controls for the LED light may be available on the speaker's control panel or remote control.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the speaker's exterior. Do not use abrasive cleaners or solvents.
- **Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Recharge the speaker regularly, even if not in use for extended periods.
- **Water Exposure:** This speaker is not waterproof. Avoid exposing it to water or high humidity.

Troubleshooting

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Speaker does not power on.	Battery is depleted; Power cable not connected properly.	Charge the speaker; Ensure power cable is securely connected.
No sound from speaker.	Volume is too low; Incorrect mode selected; Device not connected properly.	Increase volume; Press 'Mode' button to select correct input (Bluetooth, USB, AUX, FM); Reconnect device.
Bluetooth connection fails.	Speaker not in pairing mode; Device too far; Interference.	Ensure speaker is in pairing mode; Move device closer to speaker; Turn off other Bluetooth devices.
Microphone not working.	Microphone not connected; Microphone volume too low.	Ensure microphone is securely plugged into 'MIC IN' port; Adjust microphone volume knob.
