

Zinus OLB-ABS-7T

ZINUS 7 Inch Metal Smart Box Spring - Twin - Instruction Manual

Model: OLB-ABS-7T

Brand: Zinus

INTRODUCTION

This manual provides detailed instructions for the assembly, use, and care of your ZINUS 7 Inch Metal Smart Box Spring. This durable steel foundation is designed to provide stable support for your mattress, ensuring it remains in optimal condition for years to come. Its innovative design allows for quick and easy setup, making it a practical choice for any bedroom.

SAFETY INFORMATION

Please read and understand all safety warnings and instructions before assembly and use to prevent injury or damage to the product.

- Follow all assembly instructions carefully to ensure stability.
- Be aware of the maximum weight capacity (350 lbs for Twin size) and do not exceed it to prevent potential injuries or damage to the product.
- Ensure all connections are secure before placing a mattress on the box spring.
- Keep small parts away from children during assembly to prevent choking hazards.
- A bed frame or platform bed is required to support this foundation and is sold separately.

PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning assembly. If any parts are missing or damaged, please contact Zinus customer support.

- Steel Frame Components
- Steel Slats
- Poly Jacquard Cover
- Assembly Tools (typically an Allen wrench and small ratchet are included)

All components of the Zinus Smart Box Spring are neatly packaged and included for easy setup.

ASSEMBLY INSTRUCTIONS

The ZINUS Smart Box Spring features an easy, tool-free assembly process. Follow these steps for quick and efficient setup:

1. **Unpack Components:** Carefully remove all parts from the compact shipping box. Lay them out on a clean, flat surface to ensure all pieces are accounted for and easily accessible.
2. **Assemble the Frame:** Connect the main steel frame pieces by snapping them into place. The innovative design allows components to interlock securely without the need for bolts or nuts. Ensure each connection clicks firmly into position.

The steel frame components are designed for tool-free assembly, snapping securely into place.

ELASTIC BAND COVER

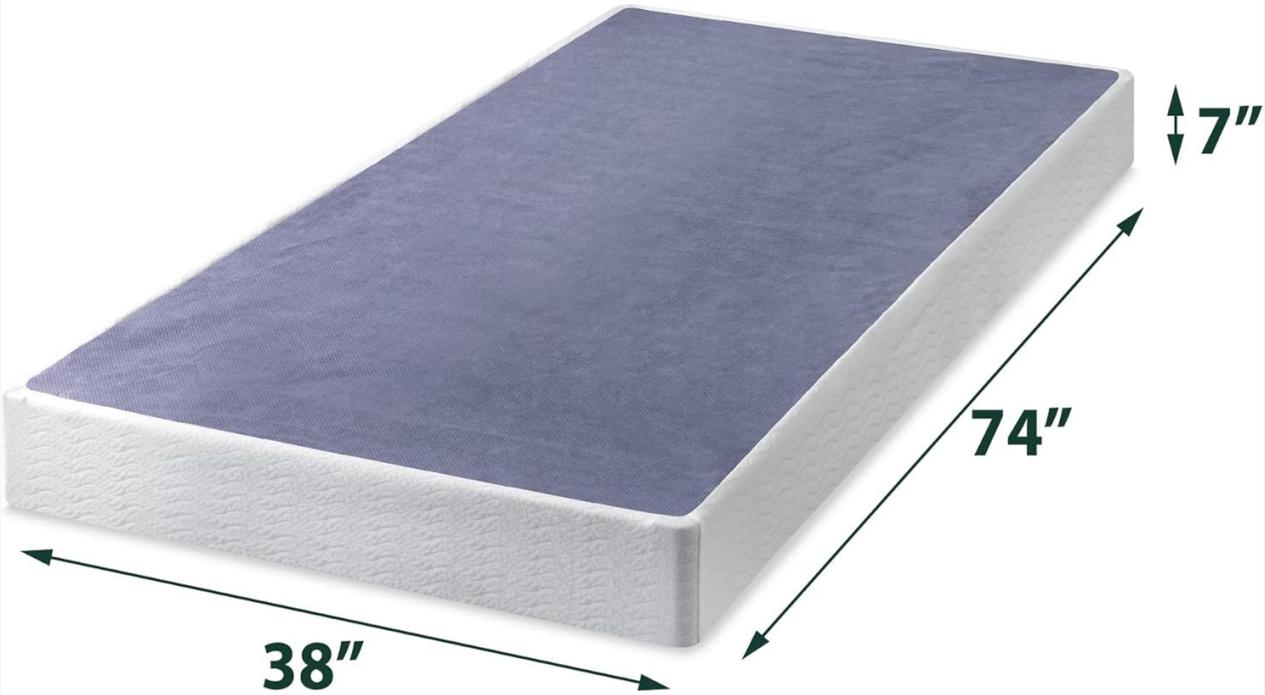

Easy on & off

Each section of the frame interlocks, providing a sturdy and stable structure.

- 3. Insert Slats:** Place the steel slats into the designated slots on the frame. Ensure they are evenly spaced and firmly seated to provide optimal mattress support. The slats should fit snugly to prevent movement.

Dimension & capacity

The metal slats easily fit into designated slots on the frame, ensuring even support.

Sturdy design

Once all slats are in place, the frame provides a robust foundation for your mattress.

- 4. Apply Cover:** Drape the included poly jacquard cover over the assembled steel frame. Align the corners and pull the cover down snugly. The cover is designed with an elastic band for easy application and removal.

Box Spring Size Guide

The fabric cover is designed to fit snugly over the assembled frame, completing the box spring.

The fully assembled Zinus 7 Inch Metal Smart Box Spring with its fabric cover, ready for a mattress. Your ZINUS Smart Box Spring is now ready to support your mattress.

OPERATING INSTRUCTIONS

The ZINUS Smart Box Spring is designed to provide a flat, level, and supportive base for your mattress. Proper use ensures longevity of both the box spring and your mattress.

- Place your mattress directly on top of the assembled box spring.
- Ensure the box spring is placed on a sturdy bed frame or platform bed that is compatible with its dimensions.
- The box spring helps to extend the life of your mattress by providing consistent support and preventing sagging.

MAINTENANCE

Regular maintenance will help preserve the quality and extend the lifespan of your ZINUS Smart Box Spring.

- To clean the fabric cover, wipe with a dry cloth. Do not use harsh chemicals or abrasive cleaners, as

these may damage the fabric.

- Periodically check all frame connections to ensure they remain secure. Tighten any loose connections if necessary, although the snap-together design minimizes this need.
- Avoid jumping on the bed, as this can damage the frame and slats, compromising the structural integrity.

TROUBLESHOOTING

If you encounter any issues with your ZINUS Smart Box Spring, refer to the following common solutions:

Squeaking Noises

- Ensure all frame connections are tightly secured. Re-check each snap-in point.
- Verify that the slats are properly seated in their holders and are not loose.
- Check if the box spring is level on the bed frame. Uneven placement can cause stress points and noise.

Mattress Sliding

- The poly jacquard cover is designed to minimize mattress movement. If sliding occurs, ensure the cover is taut and properly fitted over the frame.
- Consider using a non-slip mattress pad between the mattress and the box spring for added stability.

SPECIFICATIONS
