Case-Mate CM035992

Case-Mate CM035992 Stick-On Credit Card Wallet Instruction Manual

Model: CM035992

Introduction

The Case-Mate Universal pocket offers a practical solution for carrying identification and credit cards. Constructed from durable materials, this pocket securely holds two cards using a strong adhesive. Its straightforward application is suitable for smooth surfaces, allowing users to consolidate their essential items with their phone for convenience.

Setup

Application Instructions

1. **Prepare Surface:** Ensure the back of your phone or phone case is clean, dry, and free of dust or oils. A clean surface is crucial for optimal adhesive performance.
2. **Position the Wallet:** Carefully align the stick-on wallet to your desired position on the back of your device.
3. **Remove Adhesive Backing:** Peel off the protective film from the 3M adhesive on the back of the wallet.
4. **Apply Firmly:** Press the wallet firmly onto the prepared surface for at least 30 seconds to ensure a strong bond. Allow the adhesive to set for a few hours before inserting cards for best results.

The stick-on wallet is designed for universal fit on various smartphones and cases.

Installation Video

This short video demonstrates the application and use of the Case-Mate stick-on credit card wallet.

Operating Instructions

Inserting and Removing Cards

- **Card Capacity:** The wallet is designed to securely hold up to two standard-sized cards, such as an ID card and a credit card.
- **Inserting Cards:** Gently slide your cards into the designated slots. The material is designed to hold cards snugly.
- **Removing Cards:** To remove a card, gently push it upwards from the bottom or pull it from the top edge.

Demonstration of inserting a card into the wallet.

Maintenance

Cleaning Your Wallet

To maintain the appearance and cleanliness of your Case-Mate stick-on credit card wallet, follow these simple cleaning instructions:

- **Wet Wipe Clean:** Use a soft, damp cloth or a wet wipe to gently clean the surface of the wallet.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the material and finish.
- **Air Dry:** Allow the wallet to air dry completely before re-inserting cards or using your device.

Troubleshooting

Common Issues and Solutions

- **Cards are too tight:** The wallet is designed for a snug fit. Over time, with regular use, the material may stretch slightly to accommodate cards more easily. Avoid forcing multiple cards beyond the recommended capacity.
- **Cards feel loose or might fall out:** If the wallet has been consistently overfilled, the material may have stretched excessively. Consider replacing the wallet if cards no longer feel secure.
- **Wallet is not sticking properly:** Ensure the application surface was thoroughly cleaned and dry before initial application. If the adhesive has lost its effectiveness, the wallet may need to be replaced.
- **Edges are lifting:** This can occur if the surface was not clean during application or if the wallet experiences frequent friction. Re-pressing the edges firmly may help, but if the adhesive is compromised, replacement might be necessary.

Specifications

Feature	Detail
Brand	Case-Mate
Model Number	CM035992
Color	Black Iridescent Glitter
Material	Thermoplastic Polyurethane (TPU)
Wallet Compartment Type	Credit Card, ID Card
