Graco 4Ever Extend2Fit

Graco 4Ever Extend2Fit 4-in-1 Car Seat Instruction Manual

Model: 4Ever Extend2Fit

Brand: Graco

PRODUCT OVERVIEW

The Graco 4Ever Extend2Fit 4-in-1 Convertible Car Seat is designed to grow with your child, offering 10 years of use. It seamlessly transitions through four modes: rear-facing infant car seat, forward-facing 5-point harness toddler car seat, high-back belt-positioning booster, and backless belt-positioning booster. The Extend2Fit 4-position extension panel provides 5 inches of additional legroom, allowing children to ride safely rear-facing for longer periods.

This car seat features the Simply Safe Adjust Harness System and a 10-position headrest, enabling simultaneous adjustment of the harness and headrest without rethreading. A 6-position recline ensures child comfort, while the InRight LATCH system facilitates easy, one-second installation. It is engineered with Graco ProtectPlus, a combination of rigorous crash tests for frontal, side, rear, and rollover impacts, including additional testing based on the New Car Assessment Program and for extreme car interior temperatures.

MODES OF USE

The Graco 4Ever Extend2Fit car seat adapts to your child's growth through four distinct modes:

1. **Rear-Facing Harness:** For infants and toddlers weighing 4-50 lb. The head must be at least 1 inch below the top of the car seat shell.
2. **Forward-Facing Harness:** For toddlers and preschoolers weighing 22-65 lb, with a height of 27-49 inches.
3. **High-Back Booster:** For children weighing 40-100 lb, with a height of 43-57 inches.
4. **Backless Booster:** For older children weighing 40-120 lb, with a height of 43-57 inches.

RECOMMENDED USE

Recommended Weight and Height Range

Rear-facing Harness

Weight: 4-50 lb

Height: Head must be at least 1"

Forward-Facing Harness

Weight: 22-65 lb

Height: 27-49"

Highback Booster

Weight: 40-100 lb

Height: 43-57"

Backless Booster

Weight: 40-120 lb

Height: 43-57"

SETUP AND INSTALLATION

Proper installation is crucial for child safety. Always refer to your vehicle's owner's manual and the car seat manual for complete instructions.

Installation Methods:

- **InRight LATCH System:** Provides an easy, one-second attachment to your vehicle's lower anchors. Ensure the car seat is securely fastened and does not move more than 1 inch side-to-side or front-to-back at the belt path.
- **Vehicle Seat Belt:** For vehicles without LATCH anchors or when LATCH is not permitted for the chosen seating position. The integrated belt lock-off helps secure the vehicle seat belt for a tight installation.

An easy-to-read level indicator is integrated into the car seat to help eliminate guesswork during rear-facing installation, ensuring the correct recline angle.

OPERATING THE CAR SEAT

Harness and Headrest Adjustment:

The Simply Safe Adjust Harness System allows you to adjust the headrest and harness together with one hand. This eliminates the need for rethreading the harness as your child grows, ensuring a proper fit at every stage. The car seat offers 10 height positions for the headrest.

Extend2Fit Extension Panel:

The 4-position extension panel provides up to 5 inches of additional legroom, enabling your child to ride rear-facing longer, which is the safest position for young children.

Recline Positions:

The car seat features a 6-position recline to keep your child comfortable during travel, regardless of their age or the car seat mode being used.

Integrated Cup Holders:

Two integrated cup holders keep your child's drinks or snacks conveniently close at hand.

MAINTENANCE

- **Seat Cover:** The plush seat cover is easy to remove without uninstalling the car seat or removing the harness, and it is machine washable. Always follow the care instructions on the label.

- **Harness Straps:** Harness straps may be spot cleaned with mild soap and water. Do not use bleach.
- **Metal and Plastic Parts:** These parts may be cleaned with mild soap and water.
- **Harness Storage:** An integrated harness storage compartment holds unused harness straps when the car seat is used in belt-positioning booster mode.

SAFETY AND SPECIFICATIONS

Graco ProtectPlus Engineered:

This car seat is designed and tested to help protect your child in frontal, side, rear, and rollover crashes. It undergoes additional testing based on the New Car Assessment Program and for extreme car interior temperatures.

Construction:

The car seat features a steel-reinforced frame for strength and durability, ensuring reliable performance throughout its 10-year lifespan.
