## **SpaRoom PureMist Medium Ultrasonic Essential Oil Diffuser Instruction Manual**

Model: PureMist (0857681006834)

### **IMPORTANT SAFETY INSTRUCTIONS**

Please read and understand all safety instructions before using your SpaRoom PureMist Diffuser. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always place the diffuser on a firm, flat, and waterproof surface.
- Keep out of reach of children and pets. This diffuser is designed to be safe around children and pets, but direct supervision is recommended.
- Do not immerse the diffuser base in water or any other liquid.
- Use only clean tap water or distilled water. Do not use hot water.
- Do not add water beyond the maximum fill line indicated inside the water tank.
- Use only 100% pure essential oils. Avoid synthetic fragrances or corrosive substances.
- Unplug the diffuser from the power outlet before cleaning or when not in use.
- Do not block the mist outlet during operation.
- If the diffuser emits an unusual smell or sound, or if smoke appears, unplug it immediately.
- Do not attempt to repair the diffuser yourself. Contact customer support for assistance.

**Safe to use around  
pets & children**

## PRODUCT OVERVIEW

The SpaRoom PureMist Ultrasonic Essential Oil Diffuser uses ultrasonic technology to disperse a fine mist of water and essential oils into the air, creating an aromatic and humidifying effect. It features gradient lighting with 7 rotating colors and an automatic shut-off function for safety.

### Components

- Diffuser Base with Power Button
- Water Tank (100 mL capacity)
- Cover
- AC Adapter

Image: This illustration shows the process of adding essential oil to the diffuser, alongside key features such as ultrasonic misting, noise-free operation, BPA-free construction, and adjustable light options.

### **AROMATHERAPY EFFECT:**

IF YOU ADD A FEW DROPS OF ESSENTIAL OILS TO THE WATER BEFORE TURNING ON THE DIFFUSER, THE MIST THAT'S RELEASED WILL CARRY THE FRAGRANCE OF THE OILS INTO THE AIR. THIS IS HOW THE DIFFUSER PROVIDES A PLEASANT AND THERAPEUTIC AROMA TO YOUR SPACE.

### **HUMIDIFICATION:**

ALONG WITH THE AROMATHERAPY BENEFITS, THE ULTRASONIC DIFFUSER ALSO ACTS AS A HUMIDIFIER. THE FINE MIST RELEASED INTO THE AIR ADDS MOISTURE TO THE ROOM, WHICH CAN HELP COMBAT DRY AIR, ESPECIALLY IN DRY CLIMATES OR DURING WINTER.

Image: This graphic explains the dual benefits of the diffuser: providing an aromatherapy effect by dispersing essential oil fragrance and offering humidification by adding moisture to the air.

## **SETUP**

---

Follow these steps to set up your SpaRoom PureMist Diffuser for first use:

- 1. Remove the Cover:** Gently lift the top cover from the diffuser base.
- 2. Add Water:** Fill the water tank with clean tap water or distilled water up to the maximum fill line (100 mL). Do not overfill.
- 3. Add Essential Oil:** Add 5-10 drops of your preferred 100% pure essential oil directly into the water tank. Adjust the number of drops based on desired aroma intensity.
- 4. Replace the Cover:** Carefully place the cover back onto the diffuser base, ensuring it is securely seated.
- 5. Connect Power:** Plug the AC adapter into the power port on the back of the diffuser, then plug the adapter into a standard electrical outlet.

# Easy as 1-2-3!

Image: A visual guide demonstrating the simple 3-step setup process: removing the cover, adding water and essential oil, and then replacing the cover to begin diffusing.

## OPERATING INSTRUCTIONS

Once set up, operating your PureMist Diffuser is straightforward.

## Powering On/Off and Mist Function

- **To Turn On:** Press the power button located on the front of the diffuser once. The diffuser will begin to mist, and the gradient lighting will activate, cycling through colors.
- **Automatic Shut-Off:** The diffuser is designed to operate for up to 3 hours continuously and will automatically shut off when the water level is low or after approximately 3 hours of operation.
- **To Turn Off:** Press the power button again to turn off both the mist and the light functions.

## Light Modes

The PureMist Diffuser offers multiple lighting options:

- When the diffuser is turned on, the light will automatically cycle through 7 gradient colors.
- To **freeze the light on a specific color**, press the power button a second time while the diffuser is on.
- To **turn off the light** while the mist is still operating, press the power button a third time.
- Pressing the power button a fourth time will turn off both the mist and the light.

## MAINTENANCE

---

Regular cleaning and proper storage will ensure the longevity and optimal performance of your diffuser.

### Cleaning

Clean the diffuser after every 5-6 uses or every 3-5 days, especially when changing essential oils, to prevent mineral buildup and ensure proper mist output.

1. **Unplug:** Ensure the diffuser is unplugged from the power outlet.
2. **Empty Water:** Remove the cover and carefully empty any remaining water from the tank, pouring away from the air outlet.
3. **Wipe Tank:** Use a soft cloth or cotton swab with a small amount of rubbing alcohol or white vinegar to gently wipe the inside of the water tank and the ultrasonic plate.
4. **Rinse:** Rinse the tank with clean water, being careful not to get water into the air outlet.
5. **Dry:** Wipe all parts dry with a clean, soft cloth.

**Important:** Do not use harsh detergents, abrasive cleaners, or scrub brushes, as these can damage the diffuser.

## Storage

When not in use for an extended period, ensure the diffuser is clean and completely dry. Store it in a cool, dry place away from direct sunlight.

## TROUBLESHOOTING

---

If you encounter issues with your SpaRoom PureMist Diffuser, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
No mist or weak mist.	<ul style="list-style-type: none"><li>Insufficient water in the tank.</li><li>Water level exceeds MAX line.</li><li>Mineral buildup on the ultrasonic plate.</li><li>Mist outlet blocked.</li></ul>	<ul style="list-style-type: none"><li>Add water to the tank, ensuring it is between MIN and MAX lines.</li><li>Empty excess water.</li><li>Clean the ultrasonic plate as per maintenance instructions.</li><li>Ensure the mist outlet is clear.</li></ul>
Diffuser does not turn on.	<ul style="list-style-type: none"><li>Power adapter not properly connected.</li><li>No power from the outlet.</li><li>Diffuser is damaged.</li></ul>	<ul style="list-style-type: none"><li>Check if the power adapter is securely plugged into both the diffuser and the wall outlet.</li><li>Test the outlet with another appliance.</li><li>Contact customer support.</li></ul>
Light function not working correctly.	<ul style="list-style-type: none"><li>Incorrect button presses.</li><li>Internal malfunction.</li></ul>	<ul style="list-style-type: none"><li>Refer to the "Light Modes" section in Operating Instructions.</li><li>Contact customer support.</li></ul>
Unusual noise during operation.	<ul style="list-style-type: none"><li>Insufficient water.</li><li>Diffuser not on a flat surface.</li></ul>	<ul style="list-style-type: none"><li>Add water.</li><li>Place the diffuser on a stable, flat surface.</li></ul>
