## EGO Power+ EP7500

# EGO Power+ EP7500 31-Inch Extension Pole Attachment Instruction Manual

Model: EP7500 | Brand: EGO Power+

[Introduction](#) [Setup](#) [Operation](#) [Maintenance](#) [Specifications](#) [Warranty](#) [Support](#)

## 1. INTRODUCTION

The EGO Power+ EP7500 31-inch extension pole attachment is designed to enhance the reach and versatility of your EGO Power+ multi-head system. This attachment allows you to extend your existing EGO Power+ power head (PH1400) and compatible attachments like the pole saw (PSA1000) or hedge trimmer (HTA2000) by an additional 31 inches, making it easier to access high branches and tall hedges. Crafted from lightweight, rust-resistant aluminum, it ensures durability and ease of use for various outdoor pruning and trimming tasks.

## 2. SETUP

---

Setting up your EGO Power+ EP7500 extension pole is a straightforward process, designed for quick and secure attachment to your compatible EGO Power+ tools.

### 2.1 Unboxing and Components

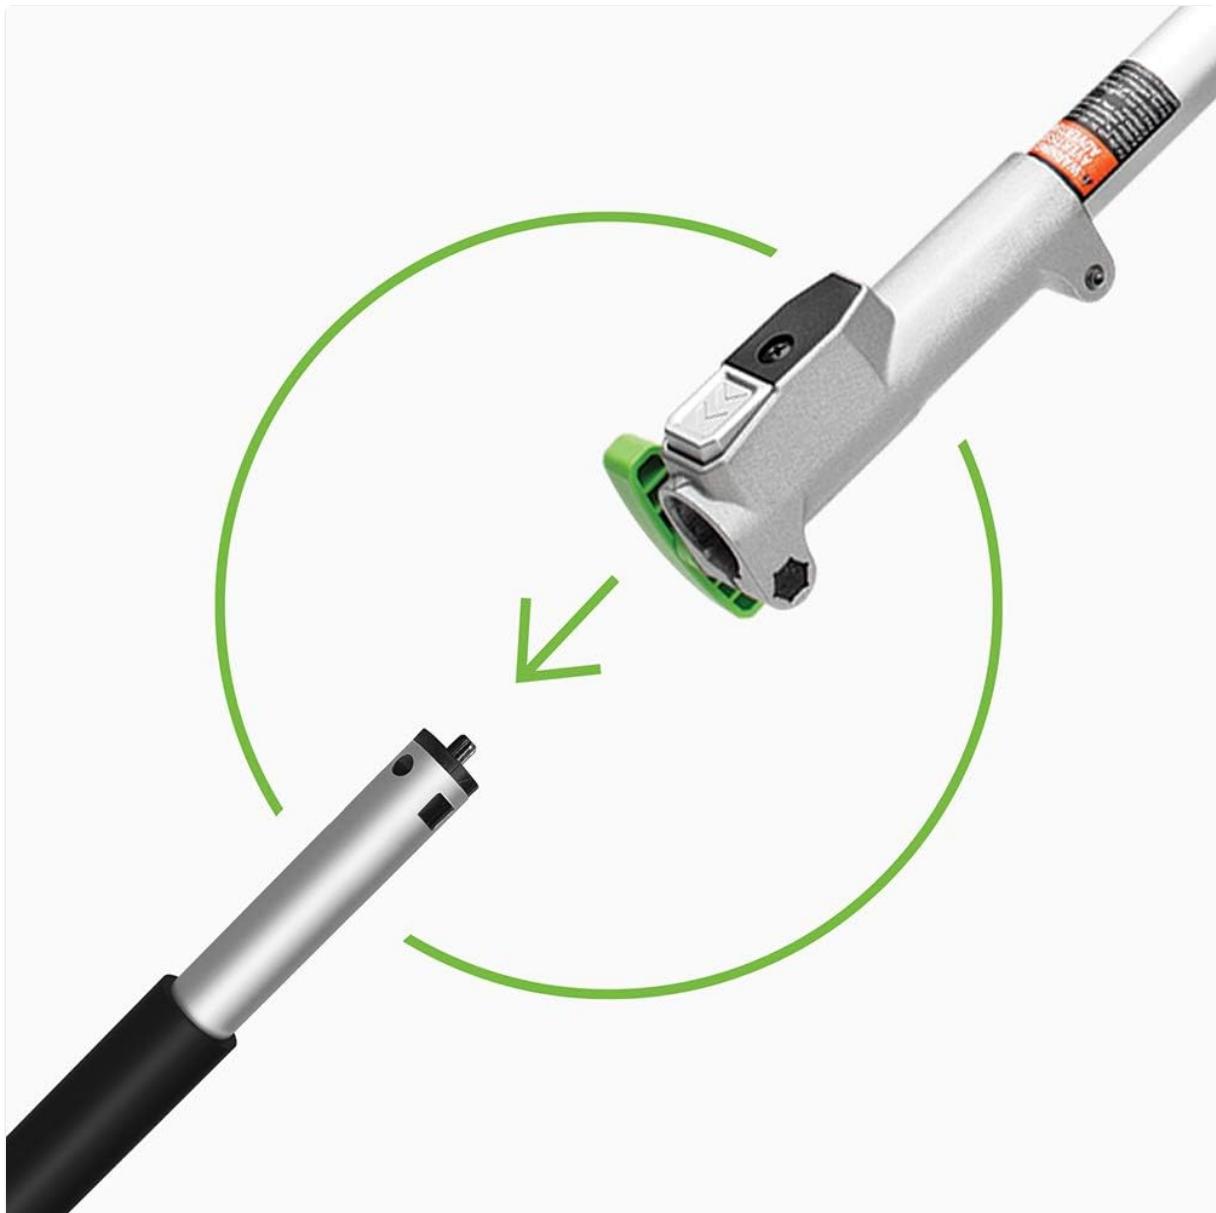

Upon unboxing, you will find the 31-inch aluminum extension pole. It features a rubberized grip for comfortable handling and a robust connection mechanism for secure attachment.

**Image 2:** The EGO Power+ EP7500 extension pole as it appears upon unboxing, highlighting its construction.

## 2.2 Attaching the Extension Pole

1. Ensure your EGO Power+ power head (PH1400) is turned off and the battery is removed for safety.
2. Align the arrows on the extension pole with the corresponding arrows on your power head or the attachment you wish to extend (e.g., PSA1000 pole saw or HTA2000 hedge trimmer).
3. Push the extension pole firmly into the power head/attachment until it clicks securely into place.
4. Tighten the green thumb screw on the connection point to further secure the attachment. This ensures a stable and safe connection during operation.

**Image 3:** A visual guide demonstrating the alignment and connection process for the extension pole with compatible EGO Power+ tools.

## 2.3 Compatibility

The EP7500 extension pole is exclusively compatible with the EGO Power+ PH1400 power head and attachments such as the PSA1000 pole saw and HTA2000 hedge trimmer. It is part of the EGO Power+ multi-head system, designed for seamless integration.

## 3. OPERATION

Once the extension pole is securely attached, you can operate your EGO Power+ tool with increased reach. The added 31 inches allows for safer and more efficient trimming and pruning of high areas without the need for ladders in many situations.

### 3.1 Extended Reach for Pruning

The EP7500 is ideal for tasks requiring extra height, such as pruning tree branches or trimming tall hedges.

The rubberized handle on the pole assists in balancing the tool, providing better control and reducing fatigue during extended use.

**Image 4:** An individual utilizing the EGO Power+ extension pole with a hedge trimmer attachment to reach and trim tall hedges effectively.

# FOR USE WITH HTA2000, PSA1000

**Image 5:** An individual using the EGO Power+ extension pole with a pole saw attachment to prune high tree branches safely from the ground.

## 3.2 Safety Considerations

- Always ensure the extension pole is securely locked into place before operating the tool.
- While the pole is designed for extended reach, avoid overextending or using it in ways that could compromise stability.
- It is generally not recommended to use multiple extension poles together, as this can significantly increase the weight and reduce control, potentially leading to damage or injury. Maintain a vertical orientation as much as possible when using extended tools.
- Wear appropriate personal protective equipment (PPE) such as safety glasses, gloves, and hearing protection during operation.

## 4. MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your EGO Power+ EP7500 extension pole.

- **Cleaning:** After each use, wipe down the extension pole with a clean, damp cloth to remove any dirt,

sap, or debris. Avoid using harsh chemicals that could damage the aluminum finish or rubber grip.

- **Inspection:** Regularly inspect the connection points, locking mechanism, and the pole itself for any signs of wear, damage, or corrosion. Ensure the thumb screw operates smoothly and securely.
- **Storage:** Store the extension pole in a dry, protected area away from extreme temperatures and direct sunlight. Disassemble it from the power head and attachments for compact storage if desired.
- **Lubrication:** Periodically apply a light lubricant to the moving parts of the locking mechanism to ensure smooth operation.

The EP7500 features weather-resistant construction, contributing to its durability in various outdoor conditions.

## 5. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your EGO Power+ EP7500 extension pole. For more complex problems, refer to the main EGO Power+ power head or attachment manual, or contact customer support.

- **Problem:** The extension pole does not attach securely.  
**Solution:** Ensure the arrows on the pole and the power head/attachment are perfectly aligned. Verify that the locking mechanism is clean and free of debris. Push firmly until a click is heard, then tighten the thumb screw.
- **Problem:** Difficulty detaching the extension pole.  
**Solution:** Ensure the thumb screw is fully loosened. Press the release button/lever firmly while pulling the pole apart. If stiff, check for any debris or minor corrosion at the connection point.
- **Problem:** Excessive wobble or instability during use.  
**Solution:** Recheck all connection points to ensure they are fully engaged and tightened. Avoid using the tool at extreme angles or with excessive force, which can strain the connections.

## 6. SPECIFICATIONS

---

Feature	Detail
Brand	EGO Power+
Model Number	EP7500
Product Dimensions	32.67" L x 2.36" W x 0.02" H
Item Weight	1.54 Pounds
Handle Material	Aluminum
Special Feature	Lightweight, Weather-Resistant Construction
Included Components	Extension pole, Quick Installation Manual
Compatibility	EGO Power+ Power Head PH1400, Pole Saw Attachment PSA1000, Hedge Trimmer Attachment HTA2000
UPC	692042007224
