Setup

Battery Installation

The flashlight requires a CR927 battery. To install or replace the battery, locate the battery compartment on the device. Carefully open the compartment, insert the CR927 battery with the correct polarity, and close the compartment securely.

Operating Instructions

Using the LED Light

The flashlight features two distinct LED light modes:

1. **Bright Light:** Press the light switch once for a steady, bright illumination.
2. **Strobe Light:** Press the light switch a second time for a flashing strobe light effect.
3. **Turn Off:** Press the light switch a third time to turn the light off.

Maintenance

Cleaning

To clean the keychain flashlight, wipe it with a damp cloth. Avoid using harsh chemicals, abrasive cleaners, or submerging the device in water, as this may damage the finish or internal components.

Battery Replacement

When the LED light dims or ceases to function, it indicates that the CR927 battery needs replacement. Follow the battery installation steps outlined in the Setup section to replace the old battery with a new CR927 battery, ensuring correct polarity.

Troubleshooting

Problem	Solution
Light does not turn on.	Check the battery. Ensure it is correctly installed and not depleted. Replace the CR927 battery if necessary.
Light is dim.	The battery may be low. Replace the CR927 battery.
Keychain appears damaged.	Discontinue use and contact customer support for assistance.
