Kokido EV05DIS/CBX/EU

Kokido EV05CBX Telsa 5 Rechargeable Handheld Electric Pool & Spa Vacuum Cleaner User Manual

Model: EV05DIS/CBX/EU | Brand: Kokido

1. Introduction

The Kokido Telsa 5 is a rechargeable, handheld electric vacuum cleaner designed for efficient cleaning of small pools and hot tubs. This device offers wireless and portable operation, powered by a lithium battery that provides consistent suction for up to 30 minutes on a full charge. Its design allows for simultaneous vacuuming and filtering, making pool maintenance simpler.
Key features include:

- Cordless design suitable for pools up to 18 feet.
- Rechargeable lithium battery with a 30-minute run time.
- Automatic on/off operation activated by water sensor.
- Transparent body to monitor filter fullness.
- Includes one basic and one wide pivoting head.
- Connects to a standard telescopic pole or the included 5-section pole.

2. Setup and Assembly

The Telsa 5 vacuum requires minor assembly before first use. The estimated assembly time is approximately 10 minutes.

2.1 Package Contents

- Telsa 5 Vacuum Unit
- USB Charging Cable
- 5-Section Sleeve (total length 1.7m)
- Basic Pivoting Head
- Wide Pivoting Head with wheels and brushes
- Filter Bag

2.2 Assembly Instructions

1. **Attach the Cleaning Head:** Select either the basic or wide pivoting head and securely attach it to the suction inlet of the vacuum unit.
2. **Assemble the Pole:** Connect the 5 sections of the included sleeve to form the telescopic pole. Ensure all sections are firmly joined.
3. **Connect to Vacuum:** Attach the assembled pole to the telescopic handle connector on the vacuum unit. For longer reach, a standard telescopic pole (not included) can also be used.
4. **Install Filter Bag:** Ensure the filter bag is correctly inserted into the transparent body of the vacuum unit.

2.3 Initial Charging

Before first use, fully charge the vacuum's lithium battery. Connect the USB charging cable to the vacuum and a suitable USB power adapter (not included). The LED charging status indicator will provide feedback. A full charge typically takes 4-5 hours.

- **Charging Time:** Approximately 4-5 hours.
- **Run Time:** Up to 30 minutes on a full charge.

3. Operating Instructions

The Telsa 5 is designed for ease of use in small pools and hot tubs.

3.1 Powering On/Off

- The vacuum features an **automatic on/off operation with a water sensor**. The unit will only activate when fully submerged in water.
- For storage, ensure the **on/off safety switch** is in the 'off' position.

3.2 Cleaning Procedure

1. **Submerge the Unit:** Carefully lower the assembled vacuum into the pool or spa. Ensure the entire unit is fully submerged for the water sensor to activate the motor. **Important: The vacuum requires a minimum water depth of approximately 14-16 inches to operate correctly and avoid voiding the warranty.**
2. **Begin Cleaning:** Once submerged and activated, slowly guide the vacuum across the bottom and sides of the pool. The suction head with wheels and brushes is effective for collecting debris. Use the brush head for cleaning edges.
3. **Monitor Filter:** The transparent body allows you to see when the filter bag is full of dirt. Periodically check and empty the filter for optimal suction performance.
4. **Finish Cleaning:** When cleaning is complete or the battery runs low, remove the vacuum from the water. The unit will automatically power off once removed from water.

Image 4: A user demonstrating the use of the Kokido Telsa 5 in an above-ground pool, highlighting its ease of handling.

4. Maintenance

Proper maintenance ensures the longevity and optimal performance of your Telsa 5 vacuum cleaner.

4.1 After Each Use

1. **Empty and Clean Filter:** Remove the filter bag from the vacuum unit. Empty all collected debris and rinse the filter thoroughly with clean water.

2. **Rinse Unit:** Rinse the vacuum unit, especially the suction head and transparent body, with fresh water to remove any chemical residue or debris.
3. **Dry Thoroughly:** Allow all components to air dry completely before storage to prevent mold growth and corrosion.

4.2 Battery Care

- **Regular Charging:** Charge the lithium battery regularly, even during periods of non-use, to maintain its performance and lifespan. Avoid letting the battery completely discharge for extended periods.
- **Storage:** Store the vacuum in a dry place, away from direct sunlight and extreme temperatures.

---

5. Troubleshooting

If you encounter issues with your Telsa 5 vacuum, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Vacuum does not turn on.	Not fully submerged in water. Battery is not charged. Safety switch is off.	Ensure the entire unit is fully submerged (minimum 14-16 inches depth). Charge the battery for 4-5 hours. Check the on/off safety switch.
Poor suction.	Filter bag is full or clogged. Debris blocking suction inlet.	Empty and thoroughly clean the filter bag. Check the suction inlet for any obstructions and remove them.
Short run time.	Battery not fully charged. Battery degradation over time.	Ensure the battery is fully charged before use. Follow battery care instructions for regular charging.
Unit stops working unexpectedly.	Unit lifted out of water. Battery depleted.	Ensure the unit remains fully submerged during operation. Recharge the battery.

6. Specifications

Feature	Specification
Model Name	Telsa 5
Model Number	EV05DIS/CBX/EU
Power Source	Battery Powered
Battery Type	Lithium-Ion
Lithium Battery Voltage	12 Volts
Charging Time	4-5 Hours
Run Time	Up to 30 minutes
Item Weight	1.76 pounds (0.8 Kilograms)

Feature	Specification
Product Dimensions	16.54"L x 6.3"W x 4.33"H
Capacity	0.5 Liters
Hose Length (Sleeve)	1.7 Meters (5-section sleeve included)
Material	Plastic
Color	White
Assembly Required	Yes
Control Method	App (Note: This specification might be an error in the source data, as the product description implies manual operation.)
UPC	844268011671

7. Warranty Information

The Kokido Telsa 5 Rechargeable Handheld Electric Pool & Spa Vacuum Cleaner comes with a**1-year limited manufacturer warranty**. This warranty covers defects in materials and workmanship under normal use. Please retain your proof of purchase for any warranty claims.
For specific details regarding warranty coverage and claims, please refer to the documentation included with your product or contact Kokido customer support.

8. Support

For further assistance, technical support, or to inquire about replacement parts, please contact Kokido customer service. Contact information can typically be found on the product packaging or the official Kokido website.
When contacting support, please have your product model number (EV05DIS/CBX/EU) and proof of purchase readily available.
