CLP Calisto Visitor Chair Set User Manual

Model: 151454001

1. INTRODUCTION

Thank you for choosing the CLP Calisto Visitor Chair Set. This manual provides essential information for the proper assembly, use, and maintenance of your new chairs. Please read it thoroughly before use to ensure safety and longevity of the product.

Image: A set of four black CLP Calisto visitor chairs, showcasing their sleek design and chrome-plated metal legs.

The Calisto chairs are designed with an ergonomic seat for comfort, even during extended periods of use. They feature a lacquered wood seat (or real wood veneer for oak and walnut finishes) and a stable chrome-plated metal base.

2. SETUP AND ASSEMBLY

The CLP Calisto chairs are designed for straightforward assembly. While specific step-by-step instructions are typically included in the product packaging, here are general guidelines:

- **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the included assembly guide are present.

- **Tools Required:** Typically, basic tools like an Allen key (often included) or a screwdriver may be needed.
- **Assembly Surface:** Assemble the chairs on a soft, clean surface (e.g., a carpet or blanket) to prevent scratching the chair parts or your floor.
- **Secure Fasteners:** Ensure all screws and bolts are tightened securely, but do not overtighten, as this can damage the materials.
- **Stability Check:** After assembly, gently rock the chair to ensure it is stable and all legs are evenly touching the floor. Adjust if necessary.

3. OPERATING INSTRUCTIONS

The CLP Calisto chairs are designed for general seating purposes in various environments such as offices, dining rooms, or reception areas. They are suitable for daily use.

- **Weight Capacity:** Do not exceed the maximum recommended weight capacity of 120 kg (264.6 lbs).
- **Placement:** Place the chairs on a flat, stable surface. Avoid placing them on uneven ground to prevent tipping.
- **Stackability:** These chairs are stackable, which can be useful for storage or when space is limited. Stack them carefully to avoid scratching the surfaces.

4. CARE AND MAINTENANCE

Proper care will help maintain the appearance and extend the life of your CLP Calisto chairs.

- **Cleaning the Seat:** For lacquered wood surfaces, wipe with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish. For real wood veneers, use wood-specific cleaners if necessary, and always wipe dry.
- **Cleaning the Metal Frame:** The chrome-plated metal frame can be cleaned with a soft cloth and a mild, non-abrasive cleaner. Dry thoroughly to prevent water spots or rust.
- **Spills:** Clean spills immediately to prevent staining, especially on wood surfaces.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or damage to the wood finish.
- **Regular Checks:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.

5. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Chair Wobbles:**
 - Ensure all assembly screws are tightened evenly.

- Check if the floor surface is even.
- Verify that the chair's glides (feet) are intact and level.
- **Scratches on Surface:**
 - Minor scratches on lacquered wood can sometimes be minimized with furniture polish or touch-up pens designed for wood.
 - For deeper scratches, professional repair may be required.
- **Noise (Squeaking):**
 - Tighten all fasteners. If the noise persists, disassemble and reassemble, ensuring all parts are correctly aligned.
