ZINUS Wen Wood Platform Bed Frame

User Manual - Model: AZ-SWPB-12F

1. INTRODUCTION

This manual provides detailed instructions for the assembly, use, and maintenance of your ZINUS Wen Wood Platform Bed Frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Safety Information

- Do not load more than 700 pounds on the bed frame.
- Ensure proper assembly to prevent instability.
- Keep all small parts and packaging materials away from children.
- Use the bed frame only for its intended purpose.

2. PACKAGE CONTENTS

Before assembly, verify that all components and tools are present. All parts and tools are shipped in one efficiently packed box.

Image: All components of the ZINUS Wen Wood Platform Bed Frame laid out, including side rails, legs, center support, slats, and the packaging box.

Included Components:

- Side Rails (Wood)
- Legs (Wood)
- Center Support Beam (Steel)
- Wood Slats
- Assembly Hardware (Bolts, Washers, Nuts)
- Assembly Tool (Ratchet Allen Wrench)

3. SETUP AND ASSEMBLY

Assembly typically takes less than an hour with the help of a second person. Follow these steps carefully.

Step-by-Step Assembly:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches.
2. **Attach Legs to Side Rails:** Securely fasten the wooden legs to the side rails using the provided hardware and ratchet allen wrench. Ensure all connections are tight.
3. **Install Center Support Beam:** Connect the steel center support beam to the designated points on the side rails. This beam provides additional stability and weight distribution.
4. **Place Wood Slats:** Lay the wood slats across the bed frame. The slats are designed to support your mattress directly, eliminating the need for a box spring.
5. **Secure Slats:** The slats feature a non-slip tape. Peel off the protective strip from the upper side of the slats to expose the adhesive, which helps keep your mattress in place.

Once assembled, gently lift and move the bed frame to its desired location. Avoid dragging the frame to prevent damage to the legs or floor.

4. OPERATING AND USAGE

The ZINUS Wen Wood Platform Bed Frame is designed for direct mattress placement, eliminating the need for a box spring.

Mattress Placement:

- Place your mattress directly onto the assembled wood slats.
- The non-slip tape on the slats will help secure the mattress and prevent shifting.

- This frame is compatible with latex, memory foam, or spring mattresses.

Weight Capacity:

The Full size bed frame supports a maximum weight capacity of 700 lbs. This includes the weight of the mattress and occupants.

Dimension & Capacity

5. MAINTENANCE

Proper care will ensure the longevity and appearance of your bed frame.

Cleaning Instructions:

- Wipe the wood surfaces with a dry cloth to remove dust and debris.
- For stubborn marks, use a slightly damp cloth and immediately dry the area.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the cherry finish.

General Care:

- Periodically check all bolts and connections to ensure they remain tight. Tighten if necessary.
- Avoid exposing the bed frame to excessive moisture or direct sunlight for prolonged periods, which can cause warping or fading.

6. TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common problems and solutions.

Common Issues:

- **Squeaking Noises:**
Solution: Squeaking often indicates loose connections. Re-tighten all bolts and screws on the frame, especially where the side rails connect to the legs and the center support beam. Ensure slats are properly seated.
- **Mattress Sliding:**
Solution: The bed frame is equipped with non-slip tape on the slats. Ensure the protective strip has been removed to expose the adhesive. If the tape has lost its effectiveness, consider adding additional non-slip pads between the mattress and slats.
- **Instability/Wobbling:**
Solution: This is typically due to incomplete or improper assembly. Disassemble and reassemble the frame, ensuring all parts are correctly aligned and all hardware is fully tightened. Verify that the center support leg is making firm contact with the floor.
- **Missing Parts:**
Solution: If any parts are missing upon unboxing, please contact ZINUS customer support immediately for assistance.

7. SPECIFICATIONS

Feature	Detail
Model Number	AZ-SWPB-12F
Size	Full
Product Dimensions (L x W x H)	74.5" x 53.5" x 12"
Color	Cherry
Material	Solid Wood with Steel Interior Framework
Weight Capacity	700 lbs (Full size)
Ground to Item Distance	8.46 Inches

Feature	Detail
