Apple MLA22LL/A

Apple Magic Keyboard 2 Wireless Keyboard User Manual

Model: MLA22LL/A

1. Introduction

This manual provides instructions for the Apple Magic Keyboard 2, model MLA22LL/A. This wireless keyboard features a sleek design, an integrated rechargeable battery, and enhanced key functions for an optimized typing experience. It is designed to pair seamlessly with your Mac devices.

Please note that this product is a certified refurbished item, tested and certified to function and appear like new. It may arrive in generic packaging, and accessories might be generic rather than manufacturer-original.

2. Setup and Pairing

The Magic Keyboard 2 is designed for automatic pairing with your Mac, allowing for immediate use. Follow these steps to set up your keyboard:

1. **Charge the Keyboard:** Before initial use, ensure your Magic Keyboard 2 is sufficiently charged. Connect the included Lightning cable to the Lightning port on the rear edge of the keyboard and to a USB power source (e.g., your Mac or a USB power adapter).
2. **Turn On the Keyboard:** Locate the power switch on the rear edge of the keyboard and slide it to the 'On' position (green indicator visible).
3. **Enable Bluetooth on Your Mac:** On your Mac, go to **System Settings** (or **System Preferences**) > **Bluetooth** and ensure Bluetooth is turned on.
4. **Pairing:** Your Mac should automatically detect the Magic Keyboard 2 and prompt you to connect. Click 'Connect' or follow any on-screen instructions. If it doesn't appear automatically, look for 'Magic Keyboard 2' in the list of available Bluetooth devices and click 'Connect'.
5. **Initial Wired Connection (Optional):** If you encounter issues with wireless pairing, connect the keyboard to

your Mac using the Lightning cable. This will establish a wired connection and often initiate the Bluetooth pairing process automatically.

3. Operating the Keyboard

The Magic Keyboard 2 offers a comfortable and precise typing experience with several key features:

- **Enhanced Scissor Mechanism:** Each key features an improved scissor mechanism, providing increased stability, optimized key travel, and a lower profile for a more responsive and comfortable typing feel.
- **Long-Lasting Battery:** The integrated rechargeable battery is designed for incredible longevity, powering your keyboard for a month or more between charges, depending on usage.
- **Standard Apple Layout:** The keyboard maintains the familiar Apple layout, including dedicated function keys for brightness, volume, media playback, and Mission Control, ensuring intuitive control over your Mac.

4. Maintenance

To ensure the longevity and optimal performance of your Magic Keyboard 2, follow these maintenance guidelines:

- **Charging:** Recharge the keyboard using the included Lightning cable when the battery level is low. Connect the cable to the keyboard's Lightning port and a USB power source. A full charge typically takes a few hours.
- **Cleaning:** To clean the keyboard, first turn it off. Use a soft, lint-free cloth slightly dampened with water to wipe the keys and surfaces. Avoid using abrasive materials, harsh chemicals, or excessive moisture, which can damage the keyboard. For dust or debris between keys, use compressed air.
- **Storage:** When not in use for extended periods, turn off the keyboard to conserve battery life. Store it in a clean, dry environment away from extreme temperatures.

5. Troubleshooting

If you encounter issues with your Magic Keyboard 2, try the following troubleshooting steps:

- **Keyboard Not Connecting or Responding:**
  - Ensure the keyboard is turned on and fully charged.
  - Verify that Bluetooth is enabled on your Mac.

- Try connecting the keyboard to your Mac using the Lightning cable. This can sometimes re-establish the Bluetooth connection.
- On your Mac, go to **System Settings** (or **System Preferences**) > **Bluetooth**. If the keyboard is listed but not connected, try removing it from the list (click the 'X' or 'Forget Device') and then attempt to pair it again.
- Restart your Mac and the keyboard.

- **Keys Not Functioning Correctly:**
  - Check for any physical obstructions or debris under the affected keys. Gently clean with compressed air.
  - Ensure the keyboard is properly connected and charged.
- **Battery Life is Shorter Than Expected:**
  - Ensure the keyboard is fully charged before use.
  - If battery life remains significantly shorter than advertised, consider contacting support.

6. Specifications

Feature	Detail
Brand	Apple
Model Number	MLA22LL/A
Connectivity Technology	Bluetooth
Keyboard Description	Wireless
Compatible Devices	Personal Computer (Mac)
Special Feature	Wireless
