Kobalt KWL 224-03

Kobalt 200 Lumens LED Handheld Rechargeable Battery Flashlight

Model: KWL 224-03

Introduction

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your Kobalt 200 Lumens LED Handheld Rechargeable Battery Flashlight. Please read this manual thoroughly before using the product and retain it for future reference.
The Kobalt 24-Volt max handheld flashlight is designed for versatile illumination, providing bright light for various tasks. It is powered by a high-performance lithium-ion battery (sold separately) compatible with other Kobalt 24-Volt max tools.

Safety Information

WARNING:

- Always wear appropriate personal protective equipment, such as safety glasses, when operating power tools or working in dimly lit areas.
- Do not expose the flashlight to rain or wet conditions. Water entering the flashlight will increase the risk of electric shock.
- Use only Kobalt 24-Volt max batteries and chargers with this flashlight. Use of other batteries or chargers may create a risk of injury and fire.
- Do not look directly into the LED light. The bright light can cause temporary vision impairment or eye damage.
- Keep the flashlight out of reach of children.
- Do not attempt to disassemble or modify the flashlight. Refer all servicing to qualified service personnel.

Product Overview

Familiarize yourself with the components of your Kobalt LED Handheld Flashlight.

Image: Side view of the Kobalt 200 Lumens LED Handheld Rechargeable Battery Flashlight. The flashlight features a blue and black plastic body, an LED head, a comfortable grip, and a metal hook for hanging.

- **LED Head:** Emits 200 lumens of bright light.
- **Pivoting Head:** Allows for adjustable light direction.
- **Handle/Grip:** Ergonomically designed for comfortable holding.
- **Battery Compartment:** Located at the base, for 24-Volt max lithium-ion battery (sold separately).
- **Integrated Tool Hook:** For hands-free use and easy portability.

Setup

Battery Installation

The Kobalt 200 Lumens LED Handheld Flashlight requires a Kobalt 24-Volt max lithium-ion battery (sold separately) for operation.

1. Ensure the flashlight is turned off.
2. Align the battery with the battery compartment at the base of the flashlight.
3. Slide the battery into the compartment until it clicks securely into place.
4. To remove the battery, press the battery release button (if present on your battery model) and slide the battery out.

Note: Fully charge the battery before first use according to the instructions provided with your Kobalt 24-Volt max charger.

Operating Instructions

Turning On/Off

Locate the power button, typically positioned on the handle or near the LED head. Press the button once to turn the flashlight on. Press it again to turn the flashlight off.

Adjusting Light Direction

The LED head of the flashlight can pivot to direct light where needed. Gently rotate the LED head to the desired angle. This feature is useful for spotlighting specific areas or for hands-free operation when hung using the integrated tool hook.

Image: The Kobalt 200 Lumens LED Handheld Rechargeable Battery Flashlight shown with its head pivoted, demonstrating its versatility for directing light. The flashlight is placed on a concrete surface.

Hands-Free Use

Utilize the integrated tool hook to hang the flashlight from a nail, pipe, or other suitable fixture for hands-free illumination. The pivoting head allows you to adjust the light beam even when hung.

Maintenance

- **Cleaning:** Wipe the flashlight with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the flashlight is dry before storing or using.
- **Storage:** Store the flashlight in a dry place, away from direct sunlight and extreme temperatures. If storing for extended periods, remove the battery.
- **Battery Care:** Follow the battery manufacturer's instructions for charging and storage to maximize battery life.

Troubleshooting

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery not installed correctly.	Ensure battery is fully inserted and clicks into place.
	Battery is discharged.	Charge the battery using a compatible Kobalt 24-Volt max charger.
	Faulty battery or flashlight.	Test with a different, fully charged Kobalt 24-Volt max battery. If problem persists, contact customer support.

Problem	Possible Cause	Solution
Light is dim or flickers.	Battery is low.	Recharge the battery.
	Dirty LED lens.	Clean the LED lens with a soft, dry cloth.
