ECR4Kids ELR-12717

ECR4Kids ELR-12717 SoftZone Single-Tunnel Foam Climber Instruction Manual

Model: ELR-12717

1. INTRODUCTION

The ECR4Kids SoftZone Single-Tunnel Foam Climber is an indoor active play structure designed for toddlers and young children. This product encourages physical activity and the development of gross motor skills through crawling, climbing, and sliding. It features soft, durable foam shapes that connect to form a versatile play environment.

2. SAFETY INFORMATION

Your child's safety is paramount. Please adhere to the following guidelines:

- **Adult Supervision Required:** This product is recommended for children aged 6 months to 2 years and must always be used under direct adult supervision.
- **Clear Play Area:** Ensure the play area around the climber is clear of obstacles and hazards. The required clear space is dependent on your child's height.
- **Stable Placement:** The climber features a non-slip bottom to help keep the structure in place during use. Always place the climber on a flat, stable surface.
- **Certified Safe:** The ECR4Kids SoftZone Single-Tunnel Foam Climber is GREENGUARD [GOLD] Certified for minimal chemical emissions into indoor air. It is CPSIA lead and phthalate compliant, meets ASTM F963 Toy Safety Standards, and adheres to CA-117 requirements.
- **Inspect Before Use:** Before each use, inspect all components for any signs of wear or damage. Do not use if any part is compromised.

Play Safely

Create a safe play space by keeping the area around the climber clear; space is dependent on your child's height.

Grown up supervision required

Image 2.1: Diagram showing the importance of maintaining a clear play space around the climber, with a recommended minimum clear area of 32 inches around the structure.

Image 2.2: A child safely using the foam climber, highlighting the product's GREENGUARD Gold, CPSIA, and CAL TB 117 compliance certifications.

3. PACKAGE CONTENTS

The ECR4Kids SoftZone Single-Tunnel Foam Climber package includes the following components:

- One (1) Foam Ramp Piece
- One (1) Foam Tunnel Piece
- One (1) Foam Step Piece
- Detachable hook-and-loop fastener strips (pre-attached or included separately for assembly)

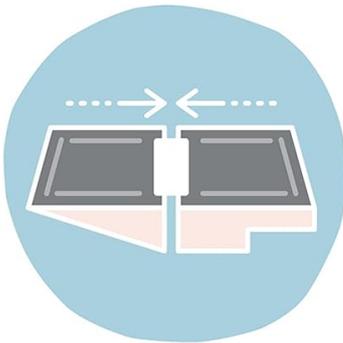

4. SETUP AND ASSEMBLY

The ECR4Kids SoftZone Single-Tunnel Foam Climber is designed for easy assembly. The foam pieces connect securely using hook-and-loop fasteners.

1. Unpack all foam pieces and fastener strips from the packaging.

2. Identify the desired configuration for your play structure. The pieces can be arranged in various ways.
3. Align the foam pieces as desired. The hook-and-loop fastener strips are located on the bottom and sides of the pieces.
4. Press the corresponding fastener strips firmly together to secure the pieces. Ensure a tight connection to prevent movement during play.
5. Verify that all connections are secure before allowing children to use the climber.

Stay-Put Fasteners

SoftZone® climbers come with detachable fastener strips to connect pieces together

Placement of fasteners vary by pieces and set

5. OPERATING INSTRUCTIONS (USAGE)

The SoftZone Single-Tunnel Foam Climber provides multiple play options to engage children and support their development.

- **Active Play:** Children can crawl through the tunnel, climb the steps, and slide down the ramp.
- **Skill Development:** This activity structure helps children develop crucial muscle coordination, balance, and gross motor skills.
- **Custom Configurations:** The individual foam pieces can be rearranged to create various custom play configurations, offering new challenges and extending playtime.

Developmental Play

Bolster confidence and strengthen gross motor skills as little ones climb, crawl and slide

Little one is 1.5 years old and 26" tall

Image 5.3: A toddler navigating the tunnel section of the foam climber, showcasing active engagement.

Image 5.4: A toddler sitting on the ramp, illustrating one way children interact with the climber.

Image 5.5: A child sliding down the ramp of the foam climber, demonstrating the sliding play option.

6. MAINTENANCE AND CARE

To ensure the longevity and hygiene of your ECR4Kids SoftZone Single-Tunnel Foam Climber, follow these maintenance guidelines:

- **Cleaning:** The polyurethane material is easy to sanitize. Wipe clean with a mild soap-and-water solution or your preferred bleach-free cleaning wipe.
- **Drying:** Allow the climber to air dry completely after cleaning before allowing children to use it.
- **Storage:** Store the climber in a dry, cool place away from direct sunlight when not in use for extended periods.
- **Inspection:** Regularly inspect the foam pieces and fastener strips for any signs of wear, tears, or damage. Address any issues promptly to maintain safety.

7. TROUBLESHOOTING

If you encounter any issues with your ECR4Kids SoftZone Single-Tunnel Foam Climber, consider the

following:

- **Climber Not Staying Together:** Ensure the hook-and-loop fasteners are clean and firmly pressed together. Over time, debris can reduce their effectiveness.
- **Unstable Structure:** Verify that the climber is placed on a flat, even surface. Check that all pieces are securely fastened.
- **Wear and Tear:** If foam pieces show significant damage or the covering is torn, discontinue use to prevent injury.

8. SPECIFICATIONS

Feature	Detail
Model Number	ELR-12717
Assembled Dimensions (L x W x H)	60 inches x 20 inches x 15 inches (152.4 cm x 50.8 cm x 38.1 cm)
Item Weight	14 pounds (4.22 kg)
Material	Polyurethane Soft Leather, Foam
