BLANCO Waste Separation System Flexon II 30/1 User Manual

Model: 521542

1. INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of your BLANCO Waste Separation System Flexon II 30/1. This system is designed for integration into 30 cm base cabinets, offering an efficient solution for waste management in your kitchen.

The Flexon II system features a contemporary design, is adapted for popular drawer cabinets, and provides easy access for waste disposal and cleaning. Its assembly process is designed for quick and straightforward installation.

2. PACKAGE CONTENTS

Verify that all components listed below are present in your package before beginning installation.

- 1 x Kitchen waste sorter container (19 liters)
- 1 x Mounting set
- 1 x User manual

3. SETUP AND INSTALLATION

The BLANCO Flexon II system requires installation in a standing cabinet equipped with a front panel and a pull-out drawer. The waste separation unit is mounted within this drawer.

3.1 Pre-installation Requirements

- **Cabinet Width:** Designed for 30 cm base cabinets.
- **Drawer Type:** Requires a pull-out drawer.
- **Mounting Height:** The top edge of the selector cover must be 360 mm above the drawer bottom.
- **Mounting Depth:** A minimum depth of 400 mm is required.
- **Drawer Side Wall Height:** Maximum height of the drawer's side walls should be 265 mm.

3.2 Installation Steps

1. Ensure the cabinet and drawer meet the pre-installation requirements.
2. Refer to the included mounting set instructions for specific hardware placement.
3. Secure the mounting rails (part 1 from exploded view) to the inside of the cabinet or drawer according to the specified dimensions.
4. Assemble the frame (part 4) and attach the waste container (part 3) within it.
5. Slide the assembled unit into the mounted rails, ensuring it is securely seated and operates smoothly with the pull-out drawer.
6. Place the lid (part 2) on top of the container.

4. OPERATION

The BLANCO Flexon II system is designed for intuitive use within your kitchen drawer.

4.1 Accessing the System

To access the waste container, simply pull out the cabinet drawer. The waste separation unit will extend with the drawer, providing full access to the 19-liter bucket.

Image: The BLANCO Flexon II waste separation system fully extended within a kitchen base cabinet drawer, showing the accessible waste container.

4.2 Waste Disposal

The system features one 19-liter container. Use this container for general waste or for specific recyclable materials as per your local guidelines. The lid helps to contain odors.

5. MAINTENANCE AND CLEANING

Regular cleaning will ensure the longevity and hygiene of your waste separation system.

5.1 Cleaning the Container

- The waste container is removable for easy cleaning. Lift the container out of its frame.
- Wash the container with warm water and a mild detergent.
- Rinse thoroughly and allow to air dry completely before placing it back into the system.
- Avoid abrasive cleaners or harsh chemicals, as these can damage the plastic material.

5.2 Cleaning the Frame and Lid

- Wipe down the frame and lid with a damp cloth and mild detergent.
- Dry with a clean, soft cloth.

6. TROUBLESHOOTING

If you encounter issues with your BLANCO Flexon II system, consider the following:

- **System not sliding smoothly:** Check for any obstructions in the drawer or on the rails. Ensure the mounting screws are tight and the system is correctly aligned.
- **Container not fitting correctly:** Verify that the container is seated properly within its frame and that no debris is preventing it from settling.
- **Odor issues:** Ensure the lid is properly closed. Clean the container and surrounding areas thoroughly. Consider using waste bags to further contain odors.

7. SPECIFICATIONS

Feature	Detail
Brand	BLANCO
Model Number	521542
Product Dimensions (L x W x H)	15.75 x 10.55 x 14.57 inches (400 x 268 x 360 mm)
Weight	6.01 Pounds

Feature	Detail
Capacity	19 Liters (1 bucket)
