OXO OXO Good Grips Baster

OXO Good Grips Baster with Cleaning Brush

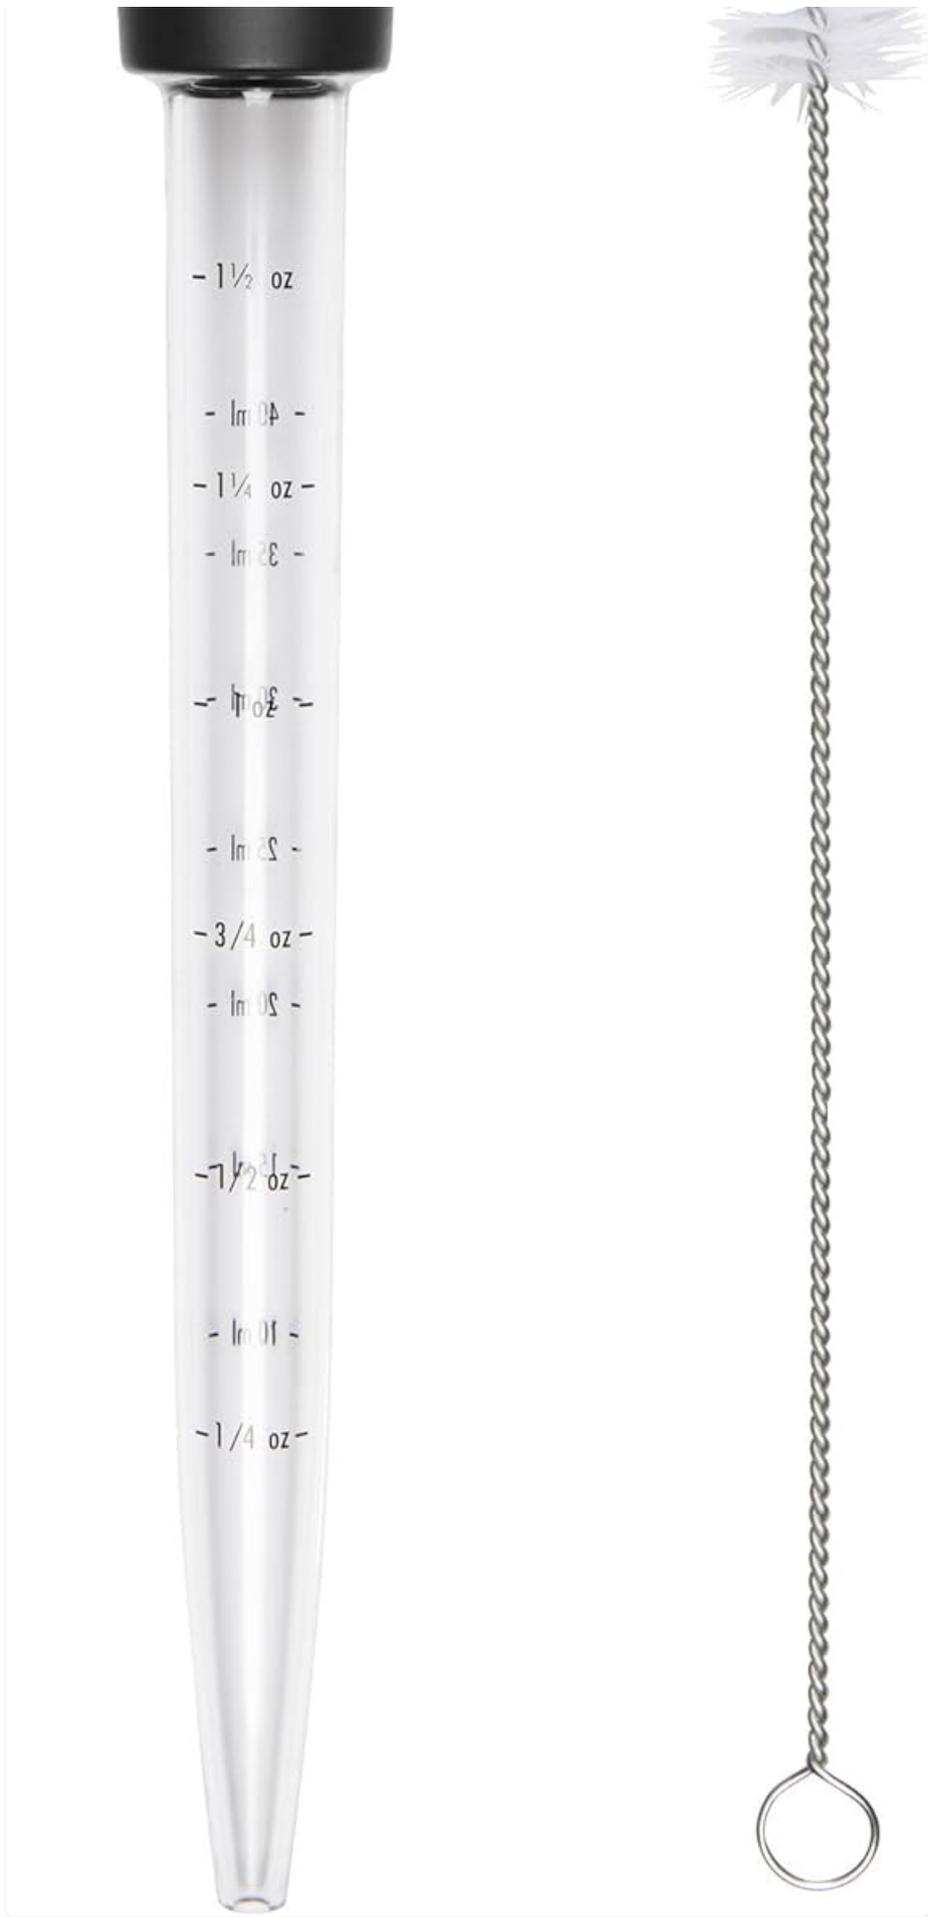

Model: B01NCP217S

PRODUCT OVERVIEW

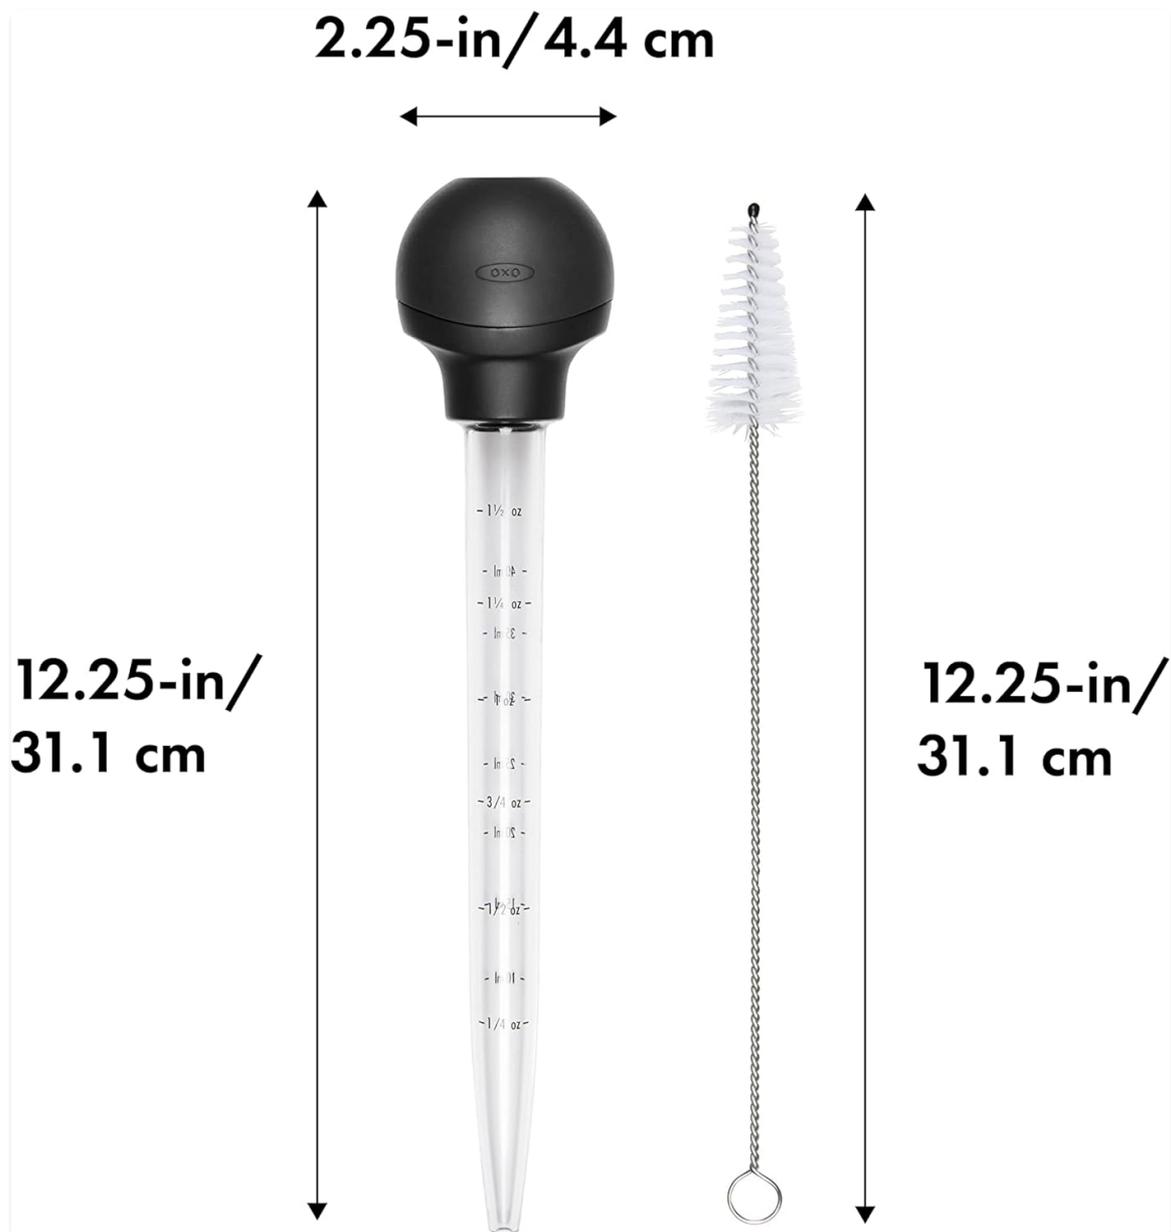

The OXO Good Grips Baster with Cleaning Brush is designed for maximum comfort and control during basting. Its unique bulb shape allows for two comfortable grip options, and the flat bulb design prevents rolling on countertops. The tube is constructed from crack-resistant, high-heat plastic, ensuring durability. It features easy-to-read standard and metric measurement markings for precise liquid transfer. A cleaning brush is included for thorough maintenance.

- Unique bulb shape and collar for two comfortable grip options.
- Flat bulb prevents rolling on countertops.
- Crack resistant, high heat plastic construction.
- Easy-to-read standard and metric measurement markings.
- Top-rack dishwasher safe.
- BPA-free materials.
- Includes a dedicated cleaning brush.

SETUP

Initial Assembly

The OXO Good Grips Baster comes pre-assembled. Before first use, ensure that the rubber bulb and collar are securely attached to the baster tube. No additional assembly is required.

Includes deep cleaning brush

OPERATING INSTRUCTIONS

Basting Technique

Follow these steps to effectively baste your food:

1. **Prepare the Baster:** Squeeze the rubber bulb firmly to expel all air from the tube.
2. **Draw Liquid:** Submerge the tip of the baster into the liquid you wish to use for basting (e.g., pan drippings, marinade, broth). Slowly release the pressure on the rubber bulb to draw the liquid into the tube.
3. **Baste Food:** Position the baster over the food you intend to baste. Gently squeeze the rubber bulb to release the liquid evenly over the surface of the food.
4. **Repeat as Needed:** Repeat the process as necessary to keep your food moist and flavorful during cooking.

The baster tube features clear, easy-to-read standard (ounces) and metric (milliliters) measurement

markings, allowing for precise control over the amount of liquid being transferred.

Flat bulb won't roll on counters

MAINTENANCE AND CLEANING

Disassembly for Cleaning

For thorough cleaning, the baster can be easily disassembled:

1. **Remove Bulb:** Firmly pull the rubber bulb away from the clear baster tube to detach it.
2. **Remove Collar:** Twist the plastic collar to separate it from the tube.

Cleaning

All components of the OXO Good Grips Baster are top-rack dishwasher safe. For manual cleaning or to address stubborn residue, use the included deep cleaning brush to scrub the inside of the baster tube and other components with warm, soapy water. Rinse thoroughly and allow to air dry before reassembly.

**1.5 oz/40 mL
capacity**
