REMAX T8-Black

Remax RB-T8 Bluetooth Headset User Manual

Model: RB-T8 (T8-Black)

Brand: REMAX

INTRODUCTION

Thank you for choosing the Remax RB-T8 Bluetooth Headset. This headset is designed to provide clear, low-noise sound for your communication and audio needs. It is portable, easy to operate, and features Bluetooth 4.1 connectivity with noise-cancelling microphone for HD voice calls.

Key features include:

- Bluetooth 4.1 for stable and efficient wireless connection.
- Integrated Noise Cancelling Mic for clear conversations.
- Portable and user-friendly design.

SETUP GUIDE

1. Charging the Headset

Before first use, fully charge the headset. The Remax RB-T8 uses a Micro USB input for charging.

- Connect the Micro USB cable to the headset's charging port.
- Connect the other end of the cable to a USB power source (e.g., computer, wall adapter).
- A full charge typically takes about 2 hours.
- The indicator light will change to indicate charging status (refer to specific light behavior in your product's quick start guide if available).

2. Pairing with a Device

The headset uses Bluetooth 4.1 for wireless connection.

1. Ensure the headset is charged and turned off.
2. Press and hold the Multi-Function Button (MFB) on the headset until the indicator light flashes red and blue alternately, indicating it is in pairing mode.
3. On your smartphone or Bluetooth-enabled device, go to Bluetooth settings and turn Bluetooth on.
4. Search for available devices. You should see "RB-T8" or a similar name appear in the list.
5. Select "RB-T8" to connect. If prompted for a password, enter "0000" (four zeros).
6. Once successfully paired, the indicator light will typically flash blue slowly or turn off, and you may hear a confirmation tone.

The headset is capable of connecting to two devices simultaneously.

Capable of having 2 devices connected
to the headset at the same time

OPERATING INSTRUCTIONS

Power On/Off

- **Power On:** Press and hold the MFB for approximately 3 seconds until the blue indicator light flashes.
- **Power Off:** Press and hold the MFB for approximately 5 seconds until the red indicator light flashes and then turns off.

Call Management

- **Answer Call:** Short press the MFB when a call comes in.
- **End Call:** Short press the MFB during a call.
- **Reject Call:** Press and hold the MFB for 2 seconds when a call comes in.

- **Redial Last Number:** Double-press the MFB when the headset is idle.

Music Playback

- **Play/Pause:** Short press the MFB during music playback.
- **Next Track:** (Functionality may vary, typically a long press on volume up or specific button if available. The RB-T8 has a single MFB, so this might be controlled via the connected device.)
- **Previous Track:** (Functionality may vary, typically a long press on volume down or specific button if available.)

Volume Control

Volume is primarily controlled via the connected device. The RB-T8 headset itself does not have dedicated volume buttons, relying on the connected smartphone's volume controls.

Battery Capacity Display on iPhone

For iPhone users, the headset supports displaying its battery capacity directly on the iPhone's screen, usually next to the Bluetooth icon in the status bar or within the Bluetooth settings menu.

Support Battery Capacity Display on iPhone

Image: An iPhone screen displaying the Bluetooth settings, with a battery icon indicating the charge level of the connected Remax RB-T8 headset.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the headset. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the headset regularly, even if not in use for extended periods.
- **Ear Cushions:** The headset comes with ear cushions. Ensure they are clean and properly fitted for optimal comfort and sound quality.

TROUBLESHOOTING

Cannot Pair the Headset

- Ensure the headset is in pairing mode (red and blue lights flashing alternately).
- Make sure Bluetooth is enabled on your device and it is within range (typically 10 meters).
- Turn off and on both the headset and your device, then try pairing again.
- If previously paired, try "forgetting" or "unpairing" the headset from your device's Bluetooth list and then re-pair.
- Ensure the headset is charged.

No Sound or Low Volume

- Check the volume level on both the headset (if applicable, though RB-T8 relies on device volume) and your connected device.
- Ensure the headset is properly connected to your device.
- Try playing audio from a different application or source.
- Re-pair the headset with your device.

Charging Issues

- Ensure the charging cable is securely connected to both the headset and the power source.
- Try a different USB port or power adapter.
- Verify the charging cable is not damaged.
