### Grandeur 808066

# Grandeur 808066 Georgetown Plate Dummy with Soleil Knob

## INSTRUCTION MANUAL

### Product Overview

This manual provides instructions for the Grandeur 808066 Georgetown Plate Dummy with Soleil Knob. This product is designed for doors that require a fixed, non-latching handle, offering a decorative element without a functional lock or latch mechanism.

Image: Grandeur Georgetown Plate Dummy with Soleil Knob, featuring a vintage brass finish. The knob has concentric circles and a textured outer ring, mounted on a round backplate.

### Key Features

- **Solid Forged Brass Construction:** Ensures strength and durability for long-lasting performance.
- **Dummy Functionality:** Designed for doors that only require a push/pull function, without a latch or locking mechanism.
- **Pre-mounted Knobs and Levers:** Facilitates straightforward installation.
- **Hand Assembled in the USA:** Reflects quality craftsmanship.

## Package Contents

The package typically includes the following components:

- Non-functioning knob and longplate for one side of the door.
- Dummy spindle.
- Mounting screws.

## Installation Guide

This dummy knob is designed for easy installation on doors where only a fixed handle is desired. No complex latch or lock mechanisms are involved.

1. **Prepare the Door:** Ensure the door surface is clean and free of debris. If replacing existing hardware, remove it completely.
2. **Position the Backplate:** Place the backplate of the knob assembly against the door surface at the desired height.
3. **Secure the Assembly:** Align the dummy spindle and attach the knob assembly to the door using the provided mounting screws. Tighten screws securely but do not overtighten.
4. **Verify Stability:** Gently test the installed knob to ensure it is firmly attached and does not wobble.

*Note: As a dummy knob, it does not require drilling for a latch bore or strike plate.*

## Operation

The Grandeur 808066 Georgetown Plate Dummy with Soleil Knob is a non-functioning door handle. It is designed for decorative purposes or for doors that only require a simple push or pull to open and close, such as closet doors or French doors where one side is inactive.

- To open or close the door, simply grasp the knob and apply gentle force in the desired direction.
- This knob does not turn, latch, or lock.

## Care and Maintenance

To maintain the finish and functionality of your Grandeur brass knob, follow these guidelines:

- **Cleaning:** Wipe the surface regularly with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or polishing agents that can damage the vintage brass finish.
- **Avoid Moisture:** Minimize exposure to excessive moisture to prevent tarnishing.
- **Inspection:** Periodically check the mounting screws for tightness and re-tighten if necessary to ensure the knob remains secure.

## Troubleshooting

As a non-functioning dummy knob, operational issues are minimal. Most concerns relate to installation or appearance.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Knob feels loose or wobbly.	Mounting screws are not sufficiently tightened.	Tighten the mounting screws firmly. Do not overtighten.
Finish appears dull or discolored.	Accumulation of dirt or exposure to harsh chemicals.	Clean with a soft, damp cloth. Avoid abrasive cleaners.

## Product Specifications

Model Number	808066
