

Gtech AR29

Gtech AirRAM MK2 Cordless Vacuum Cleaner User Manual

Model: AR29 | Brand: Gtech

INTRODUCTION

Welcome to the Gtech AirRAM MK2 Cordless Vacuum Cleaner user manual. This guide provides comprehensive instructions for the safe and effective operation, maintenance, and troubleshooting of your new vacuum cleaner. The Gtech AirRAM MK2 is designed for powerful and convenient cleaning on both carpet and hard floors, featuring a lightweight design and a long-lasting rechargeable battery.

IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using your Gtech AirRAM MK2. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always disconnect the vacuum from the charger before cleaning or performing maintenance.
- Do not use outdoors or on wet surfaces.
- Do not allow to be used as a toy. Close attention is necessary when used by or near children.
- Use only as described in this manual. Use only manufacturer's recommended attachments.
- Do not use with damaged cord or plug. If appliance is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to a service center.
- Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Keep cord away from heated surfaces.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.

- Do not handle plug or vacuum with wet hands.
- Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce airflow.
- Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use to pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Use extra care when cleaning on stairs.
- Do not use without dust bin and/or filters in place.

PRODUCT COMPONENTS

Your Gtech AirRAM MK2 comes with the following main components:

- Main Power Unit (Head with brush bar and dust bin)
- Handle Assembly
- Rechargeable 22V Lithium-ion Battery
- Charger
- Filter (pre-installed in dust bin)

Why choose the... **AirRAM?**

Gtech 

Patented AirLOC technology for power cleaning vs other brands that leave dirt behind.

Upright vacuum for effective dirt to bin pick up, no tubes to block vs cyclone bins that get blocked.

Single max power setting for full power all the time vs changing setting reducing power runtime.

Poor suction dependant on floor surface.

Blockage risk caused by long tubes.

Change settings reduces power and runtime.

Engineered (to) perfection in the UK.

SETUP AND ASSEMBLY

The Gtech AirRAM MK2 is designed for quick and easy assembly. Follow these steps to get your vacuum ready for use:

1. **Unpack Components:** Carefully remove all components from the packaging.
2. **Attach Handle:** Insert the handle assembly firmly into the main power unit until it clicks into place. Ensure it is securely fastened.
3. **Charge Battery:** Before first use, fully charge the 22V Lithium-ion battery. Connect the charger to the charging port on the vacuum or directly to the battery if removed. The 4-stage LED indicator will show charging progress. A full charge takes approximately 4 hours.

40 MINUTES MAX POWER

And fast, easy 4-hour charge

Image: The Gtech AirRAM MK2 battery connected to its charger, indicating the charging process.

OPERATING INSTRUCTIONS

The Gtech AirRAM MK2 is simple to operate, providing efficient cleaning on various surfaces.

Powering On/Off

- To turn on the vacuum, simply tap the foot switch located on the main power unit.
- To turn off, tap the foot switch again.

Cleaning Performance

The AirRAM MK2 features a powerful brush head and AirLOC Technology for effective dirt pickup on both forward and backward strokes. It seamlessly transitions between carpet and hard floors without requiring manual adjustments.

- **Carpet Cleaning:** The powered brush head agitates carpet fibers to lift embedded dirt and hair.
- **Hard Floor Cleaning:** The AirLOC Technology creates a seal to efficiently pick up fine dust and debris from hard surfaces.
- **Edge Cleaning:** The design allows for cleaning close to baseboards and edges.
- **Under Furniture:** The low-profile handle allows the vacuum to reach underneath sofas, beds, and tables.

Tough Mess? Don't Stress.

Our patented AirLOC Technology and a powerful rotating brush bar ensure no dirt is left behind.

**Embedded
Pet Hair**

**Large Crumbs
& Debris**

**Stubborn
Dust**

Light & Nimble

Battery-powered

No cords to hold you back.

Lightweight

Weighs just 3.2kg.

LED Lights

Nowhere for dust to hide.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Gtech AirRAM MK2.

Emptying the Dust Bin

The AirRAM MK2 features a bagless design with an easy-empty waste disposal system.

1. **Remove Dust Bin:** Detach the dust bin from the main power unit.
2. **Empty Contents:** Position the dust bin over a trash can. With a simple flip of a latch, the collected dirt and debris will empty out. Use the integrated pusher mechanism to ensure all contents are released without direct contact.
3. **Reattach Dust Bin:** Securely reattach the empty dust bin to the vacuum.

Easy-empty Bin

Empty out dirt and dust with a quick slide of the ejector arm.

**No mess.
No dust cloud.
Simple as that.**

Image: Demonstrating the easy-empty feature of the Gtech AirRAM MK2 dust bin, showing debris being released into a trash can.

Filter Cleaning

The filter should be regularly checked and cleaned to maintain suction power.

- Remove the filter from the dust bin.
- Tap the filter gently over a trash can to remove loose dust.
- If necessary, wash the filter with warm water. Ensure it is completely dry before reinserting it into the vacuum.

Brush Bar Cleaning

Periodically check the brush bar for tangled hair or debris and remove as necessary to ensure effective cleaning.

TROUBLESHOOTING

If you encounter any issues with your Gtech AirRAM MK2, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Vacuum not turning on.	Battery not charged or not properly inserted.	Ensure battery is fully charged and correctly seated in the vacuum.
Loss of suction.	Dust bin full, filter clogged, or brush bar obstructed.	Empty dust bin, clean filter, and remove any debris from the brush bar.
Brush bar not rotating.	Obstruction in brush bar or motor issue.	Check and clear any obstructions from the brush bar. If problem persists, contact customer support.
Short run time.	Battery not fully charged or battery degradation.	Ensure battery is fully charged. If run time remains significantly reduced, consider battery replacement.

For issues not listed here, please contact Gtech customer support.

SPECIFICATIONS

Feature	Detail
Brand	Gtech
Model Name	Ram Air MK2 (AR29)
Special Feature	Bagless
Filter Type	Disk
Power Source	22V Lithium-ion Battery
Runtime	Up to 40 minutes
Charging Time	4 Hours
Capacity	0.8 Liters
Wattage	100 watts
