1. IMPORTANT SAFETY INFORMATION

Read all instructions before using the appliance. Follow basic safety precautions to reduce the risk of fire, electric shock, or injury.

- **DANGER:** Risk of child entrapment. Before you throw away your old refrigerator or freezer: take off the doors, leave the shelves in place so that children may not easily climb inside.
- Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.
- Ensure the appliance is properly grounded.
- Do not use extension cords.
- Unplug the appliance before cleaning or making repairs.

2. SETUP AND INSTALLATION

2.1 Unpacking

Remove all packaging materials, including foam base and adhesive tape. Inspect the refrigerator for any damage. Keep packaging materials out of reach of children.

2.2 Location

Place the refrigerator on a flat, solid surface strong enough to support it when fully loaded. Allow at least 5 inches (12.7 cm) of space between the back and sides of the refrigerator and any adjacent walls to ensure proper air circulation. Avoid direct sunlight or heat sources.

2.3 Electrical Connection

Ensure the electrical outlet is properly grounded and provides the correct voltage (115V AC, 60 Hz). Do not use an adapter or extension cord. Plug the refrigerator directly into a dedicated wall outlet.

2.4 Leveling

Adjust the leveling legs at the bottom front of the refrigerator to ensure it is level. A level appliance operates more efficiently and prevents door alignment issues.

Always unplug the refrigerator before cleaning. Clean the interior and exterior with a mild detergent and warm water. Do not use abrasive cleaners or harsh chemicals. Wipe dry thoroughly.

4.2 Defrosting

This refrigerator features a manual defrost system. When frost accumulates to a thickness of 1/4 inch (0.6 cm) or more in the freezer compartment, it should be defrosted. To defrost:

1. Unplug the refrigerator.

5. Plug the refrigerator back in and return food items.

5. TROUBLESHOOTING

Before contacting service, review the following common issues and solutions:
