## OPERATING INSTRUCTIONS

---

### 1. Basic Microphone Use

- Speak directly into the microphone for optimal sound pickup.
- Use the volume controls on the microphone unit to adjust your vocal output level.

### 2. MP3 Connection

1. **Connect Device:** Use the provided auxiliary cable to connect your smartphone, tablet, or MP3 player to the "MP3 IN" jack on the microphone unit.
2. **Play Music:** Start playing music on your connected device. The audio will be routed through the microphone's speaker system.
3. **Adjust Volume:** The music volume is primarily controlled by your connected device. You can also use the microphone's master volume control to balance the music with your vocals.

### 3. Sound and Light Effects

- **Effect Buttons:** The control panel features buttons for various sound effects (e.g., applause, audience noise) and musical backing tracks. Press these buttons to activate the desired effects.
- **Light Show:** The microphone unit includes dynamic lighting effects that activate during use, adding a visual element to performances.

## MAINTENANCE

- **Cleaning:** Wipe the microphone and stand with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the unit in a cool, dry place away from direct sunlight when not in use.
- **Battery Replacement:** If the sound quality deteriorates or the lights dim, replace the batteries. Always use new batteries of the specified type.
