Philips PD9016

Philips PD9016 9-inch Dual Portable DVD Player Instruction Manual

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Philips PD9016 9-inch Dual Portable DVD Player. Please read these instructions carefully before using the device and retain them for future reference. This portable DVD player system is designed for in-car entertainment, allowing passengers to enjoy movies and other media on the go.

2. PRODUCT FEATURES

- **Dual Player Design:** Watch movies individually on each portable DVD player or connect them for simultaneous viewing of a single movie.
- **In-Car Accessories:** Includes a car adapter for power via the cigarette lighter and mounting straps for attaching players to car headrests.
- **Integrated Stereo Speakers:** Enjoy audio playback directly from the built-in stereo speakers without the need for headphones.
- **Broad Disc Compatibility:** Supports a wide range of disc formats including DVD, DVD+/-R, DVD+/-RW, (S)VCD, and CD.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- Two (2) Philips PD9016 9-inch Portable DVD Players
- One (1) Car Power Adapter
- Two (2) Headrest Mounting Straps
- One (1) Audio/Video (AV) Connection Cable

4. SETUP

4.1 Mounting the Players in a Vehicle

Use the provided mounting straps to securely attach each portable DVD player to the back of a car headrest. Ensure the players are positioned for optimal viewing by passengers and do not obstruct the driver's view or vehicle safety features.

This image illustrates the Philips PD9016 dual portable DVD players mounted on the back of car headrests. The player on the left, attached to the front passenger seat, shows a child flying a kite. The smaller player further back, attached to the driver's seat, shows an animated car scene. This setup demonstrates the in-car viewing capability.

4.2 Power Connection

Connect the car power adapter to the DC input port on the main DVD player. Plug the other end of the adapter into your vehicle's cigarette lighter socket. Ensure the connection is firm. The players can also be powered via a standard AC adapter (not included) for home use.

4.3 Connecting for Dual Screen Playback

To watch the same movie on both screens, connect the main DVD player to the secondary monitor using the supplied AV connection cable. Insert one end into the AV OUT port on the main player and the other end into the AV IN port on the secondary monitor.

5. OPERATING INSTRUCTIONS

5.1 Loading a Disc

Gently open the disc compartment cover on the main DVD player. Place a DVD or CD disc onto the spindle with the label side facing up. Press down gently until the disc clicks into place. Close the disc compartment cover firmly.

This image shows two Philips PD9016 portable DVD players. The player on the left displays a scene of a child flying a kite on a beach, while the player on the right shows an animated scene with cars. Both players are black with silver accents and have built-in speakers below the screen.

5.2 Basic Playback Controls

- **Play/Pause:** Press the **PLAY/PAUSE** button to start or pause playback.
- **Stop:** Press the **STOP** button to end playback.
- **Skip:** Use the **SKIP** buttons (forward/backward arrows) to navigate between chapters or tracks.
- **Volume:** Adjust the volume using the dedicated volume controls on the player.

5.3 Switching Between Individual and Simultaneous Viewing

When both players are connected via the AV cable, use the **SIGNAL SWITCH** button on the main player to toggle between individual playback (each player plays its own disc) and simultaneous playback (both players display the movie from the main player's disc).

5.4 Audio Output

Audio will play through the built-in stereo speakers. For private listening, connect headphones to the headphone jack on each player. Unplugging headphones will revert audio to the speakers.

6. MAINTENANCE

6.1 Cleaning the Device

Wipe the exterior of the DVD players with a soft, dry cloth. For stubborn marks, slightly dampen the cloth with water. Avoid using abrasive cleaners or solvents. Clean the screen with a soft, lint-free cloth specifically designed for electronics screens.

6.2 Disc Care

Handle discs by their edges to avoid fingerprints. Store discs in their cases when not in use to prevent scratches and dust accumulation. Clean dirty discs with a soft, lint-free cloth, wiping from the center outwards.

6.3 Storage

When not in use for extended periods, disconnect the power adapter and store the players in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

- **No Power:** Ensure the car adapter is securely plugged into both the player and the vehicle's cigarette lighter. Check if the vehicle's power outlet is functioning.
- **"No Disc" Error:** Verify that a disc is properly inserted into the disc compartment with the label side facing up. Ensure the disc is clean and free from scratches.
- **No Picture on Secondary Screen:** Check the AV connection cable between the main player and the secondary monitor. Ensure it is securely connected to the AV OUT on the main player and AV IN on the secondary monitor. Confirm the signal switch button is set correctly for dual screen mode.
- **No Sound:** Check the volume level on the player. If headphones are connected, ensure they are fully inserted. If using speakers, ensure headphones are unplugged.
- **Disc Skipping/Freezing:** Clean the disc thoroughly. Ensure the player is on a stable surface and not subjected to excessive vibration during playback.

8. SPECIFICATIONS

Model Number	PD9016
Screen Size	9 Inches
Media Types Supported	DVD, DVD+/-R, DVD+/-RW, (S)VCD, CD
Approximate Item Weight (Package)	4.91 pounds
Approximate Package Dimensions	17.63 x 13.62 x 3.03 inches
