2. Safety Information

To ensure safe use and prevent injury, please adhere to the following safety guidelines:

- Do not exceed the maximum weight capacity. The King size bed frame supports up to 700 lbs. The Twin size supports up to 350 lbs.
- Ensure all bolts and screws are securely tightened before use and periodically check for tightness.
- Keep small parts and packaging materials away from children during assembly.
- Assemble the bed frame on a soft, clean surface to prevent scratching the wood finish.
- Do not stand or jump on the bed frame.
- Use only the mattress size compatible with your bed frame (King for this model).

4. Setup & Assembly

The ZINUS Alexis Deluxe Wood Platform Bed Frame is designed for easy assembly. All necessary parts, tools, and instructions are included in one efficiently packed box. Assembly typically takes less than an hour with the help of a friend.

4.1. Included Components

- Bed Frame components (side rails, end rails, center support beam)
- Wood Slats
- Assembly Tools (e.g., Allen wrench)
- Fasteners (bolts, screws)
- Installation Manual (PDF) - Download PDF Manual

4.2. Assembly Steps

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface. Refer to the included parts list in the PDF manual to ensure all pieces are present.
2. **Assemble the Frame:** Connect the side rails and end rails using the provided bolts and tools. Ensure all connections are snug but do not overtighten until the frame is fully assembled.

3. **Install Center Support:** Attach the center support beam(s) and any associated legs to the frame, following the instructions in the manual.
4. **Place Wood Slats:** Lay the wood slats across the frame. The slats are designed to be closely spaced to provide optimal support for your mattress without a box spring. Some slats may have adhesive strips to prevent mattress movement.
5. **Final Tightening:** Once all components are in place, go back and securely tighten all bolts and screws.

5. Operating Guidelines

The ZINUS Alexis Deluxe Wood Platform Bed Frame is designed for direct mattress placement, eliminating the need for a box spring. Follow these guidelines for optimal use:

- **Mattress Placement:** Carefully place your King-size mattress directly onto the assembled wood slats. Ensure the mattress is centered and evenly distributed on the frame.
- **Weight Distribution:** Distribute weight evenly across the bed surface. Avoid concentrating heavy loads in one small area.
- **Movement:** When moving the bed frame, lift it rather than dragging it to prevent damage to the legs or frame structure.

6. Maintenance

Regular maintenance will help prolong the life and appearance of your ZINUS Alexis Deluxe Wood Platform Bed Frame:

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Fastener Check:** Periodically (e.g., every 3-6 months) check all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Moisture:** Protect the wood from excessive moisture and direct sunlight, which can cause warping or fading.
- **Slat Inspection:** Occasionally inspect the wood slats for any signs of wear or damage. Replace any damaged slats promptly to maintain mattress support.

7. Troubleshooting

If you encounter any issues with your bed frame, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose fasteners.	Check and tighten all bolts and screws using the provided Allen wrench.
Squeaking noises.	Loose connections, friction between parts, or uneven floor.	Tighten all fasteners. Apply a small amount of lubricant (e.g., silicone spray) to connection points if necessary. Ensure the bed is on a level surface.
Mattress slides on the frame.	Anti-slip tape not engaged or worn.	Ensure the anti-slip tape on the slats is clean and free of debris. If tape is worn, consider adding non-slip pads between the mattress and slats.
Missing parts during assembly.	Packaging error.	Refer to the parts list in the manual. Contact ZINUS customer support for replacement parts.
