Zinus OLB-PWPBBO-12T

Zinus Alexis Deluxe Wood Platform Bed Frame Instruction Manual

Model: OLB-PWPBBO-12T | Brand: Zinus

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Zinus Alexis Deluxe Wood Platform Bed Frame. Designed for durability and ease of use, this solid wood foundation offers reliable support for your mattress without the need for a box spring. Please read all instructions carefully before beginning assembly.

SAFETY INFORMATION

- Do not load more than 350 lbs for Twin size and 700 lbs for other sizes.
- Always follow the assembly instructions carefully to prevent instability or collapse.
- Ensure all bolts are securely tightened before use.
- Keep small parts and packaging materials away from children.

PACKAGE CONTENTS

Your Zinus Alexis Deluxe Wood Platform Bed Frame package includes all necessary components for assembly. Please verify that all parts are present and undamaged before proceeding.

- Solid wood frame components (headboard, footboard, side rails)
- Wooden slats with non-slip tape
- Center support beam(s) and legs
- Assembly hardware (bolts, washers, nuts)
- Assembly tool (ratchet/Allen wrench)
- Instruction manual

SETUP AND ASSEMBLY

Assembly of the Zinus Alexis Deluxe Wood Platform Bed Frame is designed to be straightforward. Follow these steps carefully for a secure setup. All parts are typically numbered for easy identification.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches. Identify each part using the numbering system provided in the included instructions.

2. **Assemble Headboard/Footboard:** Attach the legs to the headboard and footboard using the designated bolts and washers. Ensure all connections are snug but do not fully tighten until the entire frame is assembled.
3. **Attach Side Rails:** Connect the side rails to the assembled headboard and footboard. Use the provided long bolts and lock nuts. The included ratchet tool will assist in tightening these connections.
4. **Install Center Support:** Position the center support beam(s) and attach the support legs. Secure the center support to the headboard and footboard using the specified bolts and washers.
5. **Insert Wooden Slats:** Place the wooden slats across the frame. The slats are designed to fit securely and may feature Velcro or foam tape to prevent movement and reduce noise. Ensure the non-slip tape on the slats is peeled off before placing your mattress.
6. **Final Tightening:** Once all components are in place, go back and securely tighten all bolts and connections.

OPERATING INSTRUCTIONS

The Zinus Alexis Deluxe Wood Platform Bed Frame is designed to be used with any mattress type without the need for a box spring. The wooden slats provide ample support and ventilation for your mattress.

- **Mattress Placement:** Carefully place your mattress directly onto the wooden slats. The non-slip tape on the slats helps to keep the mattress securely in place.
- **Weight Distribution:** For optimal longevity and support, distribute weight evenly across the bed frame.

Maintenance

Proper care will ensure the longevity of your Zinus Alexis Deluxe Wood Platform Bed Frame.

- **Cleaning:** Wipe with a dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners that may damage the wood finish.
- **Regular Checks:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary.
- **Avoid Excessive Moisture:** Protect the wood from prolonged exposure to moisture.

Troubleshooting

If you encounter any issues with your bed frame, please refer to the following common solutions:

- **Squeaking Noises:** Ensure all bolts are tightly secured. The foam tape on the steel frame and non-slip tape on the slats are designed to minimize noise.

- **Mattress Sliding:** Verify that the non-slip tape on the wooden slats is properly peeled and adhered to the mattress.
- **Instability:** Double-check that all frame components are correctly assembled and all hardware is fully tightened.
