deweisn Tri-Fold Lighted Vanity Mirror User Manual

Model: SYNCHKG118603

Brand: deweisn

INTRODUCTION

Thank you for choosing the deweisn Tri-Fold Lighted Vanity Mirror. This manual provides important information regarding the setup, operation, and maintenance of your new mirror. Please read it thoroughly before use to ensure optimal performance and safety.

PRODUCT FEATURES

- **21 Built-in LED Lights:** Intelligent touch sensor switch for brightness adjustment. Long press to dim the light, allowing makeup application in low light conditions without disturbing others.
- **Dual Power Supply Modes:** Can be operated via Micro USB cable (included) or 4 AAA batteries (not included). Note: The mirror does not store power, and batteries cannot be charged within the unit.
- **180° Swivel Rotatable Design:** Allows the mirror to be fixed at any desired position for optimal viewing angles.
- **Tri-Fold Design:** Provides wide-angle viewing and side-view mirror panels that adjust for custom viewing.
- **Magnification Options:** Features 3X, 2X, and 1X magnification for detailed makeup application, ideal for grooming brows, applying eyeliner, and tweezing.
- **Integrated Storage Tray:** The base recess can hold small items like jewelry, earrings, bracelets, or cosmetics.
- **Durable Construction:** Made from premium ABS material and mirror glass, offering a perfect appearance and resistance to scratches.

IMPORTANT SAFETY INFORMATION

To ensure safe operation and prolong the life of your mirror, please observe the following:

- Always turn off the mirror when not in use to conserve energy.
- The mirror does not store power. Do not attempt to charge batteries within the unit.
- Do not power the mirror by both USB charging and batteries simultaneously. Choose one power

source at a time.

SETUP

1. **Unpacking:** Carefully remove all components from the packaging. Ensure all parts are present: the main mirror unit, the base, and the Micro USB cable.
2. **Assembly:** Insert the main mirror unit into the slot on the base. Ensure it clicks securely into place. The mirror is designed for dresser mount use.
3. **Power Connection:**
 - **USB Power:** Connect the provided Micro USB cable to the mirror's USB port (located on the back) and plug the other end into a compatible USB power adapter (not included) or a USB port on a computer.
 - **Battery Power:** Open the battery compartment on the back of the mirror. Insert 4 AAA batteries (not included), ensuring correct polarity (+/-). Close the battery compartment.

OPERATING INSTRUCTIONS

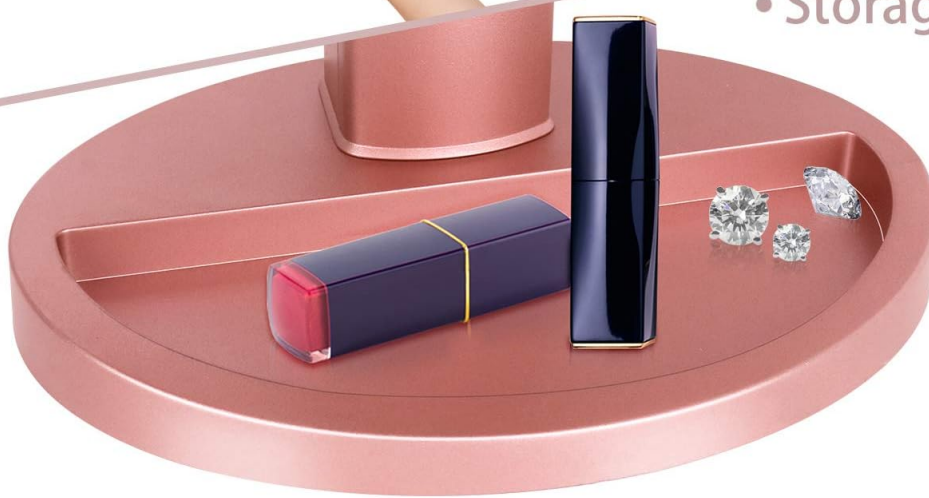

- Turning On/Off the Lights:** Locate the touch sensor switch on the main mirror panel (indicated by a circle icon). Tap the switch to turn the LED lights on or off.
- Adjusting Brightness:** With the lights on, press and hold the touch sensor switch. The brightness will cycle through different levels. Release your finger when the desired brightness is achieved.
- Adjusting Mirror Angle:** The mirror unit can be swiveled 180 degrees on its stand. Gently tilt the mirror to find your most comfortable viewing angle. The side panels can also be folded inwards or outwards to adjust your field of view.
- Using Magnification:** The main mirror provides 1X magnification. The left side panel features 2X magnification, and the right side panel features 3X magnification. Utilize these magnified sections for detailed tasks such as applying eyeliner, tweezing, or close-up skincare.

Touch Sensor Switch

- Touch the button to turn on/off the light,
- long press the button to adjust the brightness

• Storage Tray

For storage of small accessories

MAINTENANCE

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the mirror surfaces. For stubborn smudges, lightly dampen the cloth with water or a mild glass cleaner. Avoid abrasive cleaners or harsh chemicals.
- **Storage:** When not in use, fold the side panels inwards to protect the mirror surfaces and LED lights. Store in a cool, dry place away from direct sunlight.
- **Battery Replacement:** If using batteries, replace all 4 AAA batteries simultaneously when the lights dim or stop working. Do not mix old and new batteries, or different types of batteries.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lights do not turn on.	No power, low batteries, or loose USB connection.	Check USB cable connection. If using batteries, replace with new ones. Ensure only one power source is connected.

Problem	Possible Cause	Solution
Lights are dim.	Low battery power or brightness setting is too low.	Replace batteries. Long press the touch sensor switch to increase brightness.
Mirror is unstable.	Mirror unit not properly seated in the base.	Ensure the main mirror unit is securely inserted into the base slot.
