ILIFE V5s Pro

ILIFE V5s Pro 2-in-1 Robot Vacuum and Mop Combo User Manual

Model: V5s Pro

Introduction

The ILIFE V5s Pro is an advanced 2-in-1 robotic vacuum cleaner and mop designed to simplify your home cleaning routine. It efficiently vacuums dust, debris, and pet hair from various floor types, including hardwood, tile, laminate, and low-pile carpets. Additionally, its mopping function effectively tackles spills and stains, leaving your floors spotless. With intelligent navigation and multiple cleaning modes, the V5s Pro offers a comprehensive and convenient cleaning solution.

Package Contents

Upon unboxing your ILIFE V5s Pro, please ensure all the following components are present:

- 1 x Robot Main Body (battery included)
- 1 x Charging Dock
- 1 x Remote Control (2 AAA batteries included)
- 1 x AC Adapter (approximately 1.5 m long)
- 1 x Cleaning Brush
- 2 x Side Brushes (extra set)
- 1 x Water Tank
- 1 x Mop Holder (with 1 mop pad)
- 1 x User Manual
- 2 x High Performance Filters (extra set)

An illustration detailing all the items included in the ILIFE V5s Pro retail box, ensuring you have everything needed for operation.

Setup Guide

1. Charging Base Placement

Place the charging base against a wall in an open, uncluttered area. Ensure there are no obstacles within 1 meter (3 feet) to the front and 0.5 meters (1.5 feet) to the sides of the charging base to allow the robot to return easily.

2. Initial Charging

Connect the AC adapter to the charging base and plug it into a power outlet. Place the robot onto the charging base, ensuring the charging contacts align. The indicator lights on the robot will illuminate, indicating it is charging. Allow the robot to fully charge before its first use (approximately 3-5 hours).

The robot vacuum automatically returning to its charging base when its battery is low or after completing a cleaning cycle.

3. Installing Side Brushes

Attach the left (L) and right (R) side brushes to their corresponding posts on the bottom of the robot. Press firmly until they click into place.

4. Installing Dustbin or Water Tank

The V5s Pro supports both vacuuming and mopping functions. To switch between modes, you must replace the dustbin with the water tank (for mopping) or vice versa. Open the top cover of the robot, insert the desired tank, and close the cover securely.

Operating Instructions

1. Cleaning Modes

The V5s Pro offers five distinct cleaning modes, selectable via the remote control or the mobile application:

- **Automatic Mode:** The robot cleans automatically, adjusting its path based on the environment.
- **Spot Mode:** The robot focuses on a specific dirty area, cleaning in a spiral pattern.
- **Edge Mode:** The robot cleans along walls and furniture edges.
- **Max Mode:** Increases suction power for deeper cleaning on heavily soiled areas.
- **Scheduling Cleaning Mode:** Set a specific time for the robot to begin cleaning daily.

Visual representation of the ILIFE V5s Pro's multi-cleaning modes, including Auto, Edge, Spot, MAX, and Daily Schedule.

2. Vacuuming Mode

For vacuuming, ensure the dustbin is installed. The robot will use its powerful suction and side brushes to collect dust, dirt, and debris. The brushless suction port design prevents hair tangles, making it ideal for pet owners.

An illustration comparing the brushless suction port of the V5s Pro with a traditional roller brush, highlighting its anti-tangle benefits.

3. Mopping Mode

To activate mopping, replace the dustbin with the water tank. Fill the water tank with clean water. The intelligent control water tank offers three-level water outlet modes (gentle, standard, strong) for controlled water consumption, preventing excessive wetting of floors. The mop pad attached to the holder will then clean hard surfaces.

The ILIFE V5s Pro demonstrating its 2-in-1 system design, capable of both vacuuming and mopping on hard floors.

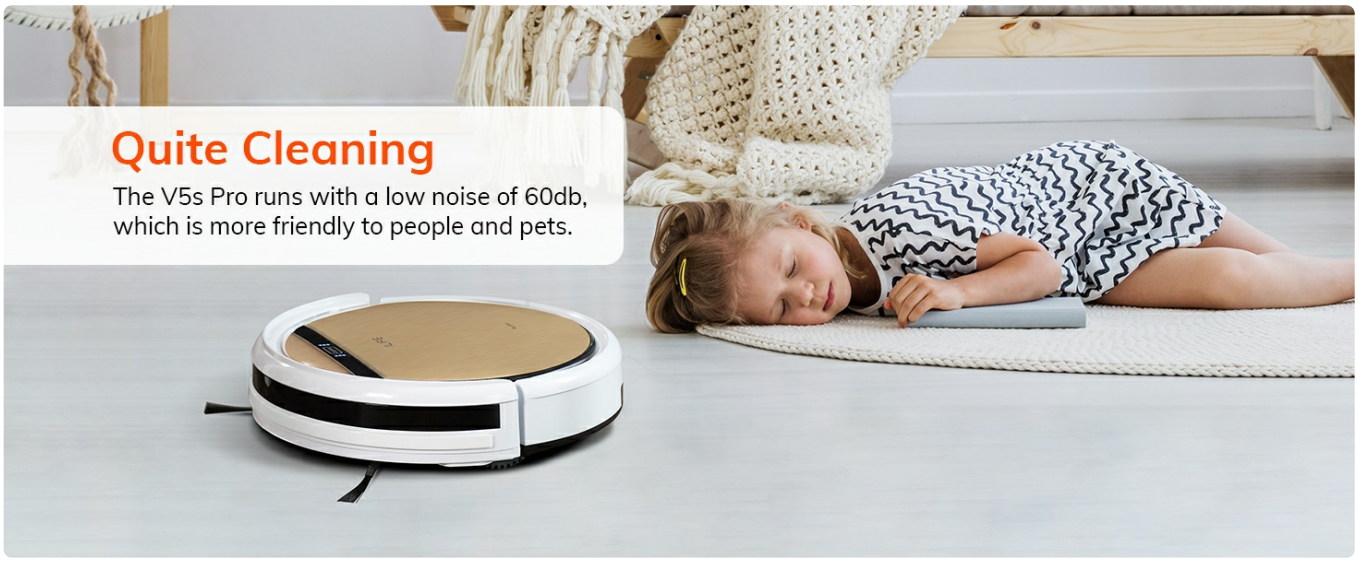

A side-by-side comparison illustrating the robot's vacuuming capability on carpet and mopping function on hard floors.

4. Automatic Charging

When the battery level is low or a cleaning cycle is complete, the V5s Pro will automatically return to its charging base to recharge, ensuring it is always ready for the next cleaning task.

5. Smart Features

- **Slim Design:** With a height of 2.99 inches, the robot can easily navigate under furniture and in narrow spaces for a thorough clean.

The slim profile of the ILIFE V5s Pro enables it to easily access and clean under cabinets and sofa bottoms.

- **Quiet Operation:** The V5s Pro operates at a low noise level of 60dB, making it less disruptive to daily activities and pets.

The robot vacuum operating quietly, demonstrating its pet-friendly design by not disturbing a dog.

The V5s Pro's quiet operation, running at a low noise level of 60dB, ensures it does not disturb sleeping children or pets.

- **Intelligent Protection:** Equipped with a full set of anti-fall sensors, the robot intelligently identifies and prevents falls from stairs or other drop-offs. It also features sensors to avoid bumping into furniture.

The robot vacuum utilizing intelligent protection to avoid bumping into furniture during its cleaning path.

- **Obstacle Climbing:** The V5s Pro can climb over carpets or floor transitions up to 12mm (0.5 inches) in height, ensuring non-stop cleaning across different surfaces.

- **Extended Runtime:** The 2600mAh battery provides up to 110 minutes of cleaning time on a single charge, covering a maximum area of 1290ft².

An illustration highlighting the ILIFE V5s Pro's 100-minute runtime, capable of cleaning up to 120 square meters on a single charge.

Maintenance Guide

Regular maintenance ensures optimal performance and extends the lifespan of your ILIFE V5s Pro.

1. Dustbin and Filter Cleaning

After each use, open the top cover and remove the dustbin. Empty the dustbin contents into a trash can. Remove the primary filter and high-performance filter, tap them gently to remove dust, or use the cleaning brush. Do not wash the high-performance filter with water. Reinstall the filters and dustbin.

An exploded view of the V5s Pro's multi-filter system, designed to separate dust and air for a cleaner home environment.

2. Water Tank and Mop Pad Cleaning

After mopping, remove the water tank and empty any remaining water. Detach the mop pad from the holder and wash it thoroughly with water. Allow the mop pad and water tank to air dry completely before reassembling or storing.

3. Side Brush Cleaning

Periodically check the side brushes for tangled hair or debris. Gently pull them off their posts and remove any obstructions. If the brushes are worn or damaged, replace them with new ones from the included accessories.

4. Sensor Cleaning

Wipe the anti-drop sensors (located on the bottom of the robot) and the bumper sensors (on the front bumper) with a clean, dry cloth. Keeping these sensors clean ensures proper navigation and prevents falls.

Troubleshooting

If you encounter any issues with your ILIFE V5s Pro, refer to the table below for common problems and their solutions.

Problem	Possible Cause	Solution
Robot does not turn on.	Low battery; Power switch off.	Charge the robot; Ensure power switch is ON.
Robot does not charge.	Charging contacts not aligned; Power adapter not connected.	Ensure robot is properly seated on charging base; Check power connections.
Robot gets stuck frequently.	Too many obstacles; Sensors are dirty.	Clear the cleaning area; Clean the sensors.
Poor cleaning performance.	Dustbin full; Filters clogged; Side brushes tangled.	Empty dustbin; Clean/replace filters; Clean side brushes.
Mopping function not working.	Water tank not installed; Water tank empty.	Ensure water tank is correctly installed; Fill water tank.

Product Specifications

Feature	Specification
Brand	ILIFE
Model Name	V5s Pro
Product Dimensions	35 x 35 x 8 cm (13.8 x 13.8 x 3.15 inches)
Item Weight	3.66 kg (8.07 lbs)
Battery Life	Up to 110 minutes
Battery Cell Composition	Lithium Ion
Dustbin Capacity	0.3 liters
Controller Type	Remote Control
Surface Recommendation	Hard Floor, Low Pile Carpet
Special Features	Lightweight, Compact, Automatic Self-Charging, Anti-drop Sensors

Warranty and Support

The ILIFE V5s Pro comes with a 12-month warranty from the date of purchase. This warranty covers manufacturing defects and issues arising from normal use. For warranty claims, technical support, or any inquiries, please refer to the contact information provided in the original packaging or visit the official ILIFE support website.
