

Fame Soundpack 10 MKII

Fame Soundpack 10 MKII Speaker Cover Set User Manual

Model: Soundpack 10 MKII

1. INTRODUCTION

This manual provides instructions for the proper use and care of your Fame Soundpack 10 MKII Speaker Cover Set. This set is designed to protect your Soundpack 10 MKII PA speakers during transport and storage.

The covers are custom-fit for the subwoofers and top components of the Soundpack 10 system, offering protection against light transport damage such as scratches and dents.

2. KEY FEATURES

- **Custom-fit Design:** Specifically tailored for Fame Soundpack 10 MKII subwoofers and top components.
- **Durable Material:** Made from tear-resistant and water-repellent fabric.
- **Padded Protection:** Well-padded to shield speakers from scratches and dents during transport.
- **Functional Cut-outs:** Features cut-outs for handles, allowing easy carrying even with covers on.
- **Secure Fastening:** Equipped with matching hook-and-loop fasteners for a secure fit.

3. SETUP AND INSTALLATION

Follow these steps to properly install the protective covers on your Fame Soundpack 10 MKII speakers:

1. **Identify Covers:** Separate the covers for the subwoofer and the top components. They are designed to fit specific parts of the Soundpack 10 MKII system.
2. **Position Cover:** Carefully slide the appropriate cover over the speaker unit. Ensure the cover aligns with the speaker's shape.
3. **Align Handle Cut-outs:** Make sure the cut-outs in the cover align with the speaker's handles. This allows for easy access and carrying.
4. **Secure Fasteners:** Close any hook-and-loop fasteners (Velcro) to ensure a snug and secure fit around the speaker. This prevents the cover from slipping off during transport.
5. **Verify Fit:** Once installed, gently check that the cover is securely in place and provides full coverage to the speaker's vulnerable areas.

4. OPERATING AND USAGE

The Fame Soundpack 10 MKII Speaker Cover Set is intended for:

- **Transport Protection:** Use the covers when moving your speakers to and from venues to prevent scratches, dents, and minor impacts.
- **Storage Protection:** Keep the covers on your speakers when they are stored to protect them from dust, dirt, and accidental damage.
- **Weather Resistance:** The water-repellent material offers protection against light moisture, but the covers are not designed for prolonged exposure to heavy rain or extreme weather conditions.

Important:

- Do not operate speakers with covers on if they require ventilation during use. These covers are for transport and storage only.
- Ensure covers are dry before storing to prevent mold or mildew.

5. MAINTENANCE AND CARE

To ensure the longevity and effectiveness of your speaker covers, follow these maintenance guidelines:

- **Cleaning:** Wipe the covers with a damp cloth to remove dust and dirt. For stubborn stains, use a mild soap solution and rinse thoroughly.
- **Drying:** Allow the covers to air dry completely before storing them or placing them back on speakers. Do not tumble dry or use direct heat.
- **Storage:** Store the covers in a cool, dry place when not in use.
- **Inspection:** Periodically inspect the covers for any signs of wear, tears, or damage. Repair minor damage promptly to prevent further deterioration.

6. TROUBLESHOOTING

This section addresses common concerns regarding the speaker covers.

- **Cover does not fit:** Ensure you are using the correct cover for the specific speaker component (subwoofer vs. top). The covers are custom-fit for the Fame Soundpack 10 MKII system.
- **Cover feels loose:** Check that all hook-and-loop fasteners are securely closed. If the cover still feels loose, verify it is correctly positioned and aligned.
- **Water penetration:** While water-repellent, the covers are not fully waterproof. For heavy rain, additional protection may be required. Ensure seams and zippers (if any) are intact.

7. SPECIFICATIONS

Attribute	Detail
Product Type	Speaker Protection Cover Set
Model Compatibility	Fame Soundpack 10 MKII (Subwoofer and Top Components)
Material	Tear-resistant, water-repellent fabric, padded
