

Outre Premium Purple Pack Yaki

Outre Human Hair Weave Premium Purple Pack Yaki Instruction Manual

INTRODUCTION

This manual provides comprehensive instructions for the proper installation, care, and maintenance of your Outre Human Hair Weave Premium Purple Pack Yaki. Adhering to these guidelines will help ensure the longevity and optimal appearance of your hair weave.

PRODUCT OVERVIEW

The Outre Premium Purple Pack Yaki is a human hair weave designed to provide a natural, straight texture. This product is crafted from 100% human hair, offering versatility in styling and a realistic look. The Yaki texture mimics relaxed African American hair, providing a natural blend.

INSTALLATION GUIDE

Proper installation is crucial for the appearance and longevity of your hair weave. It is recommended to have this product installed by a professional stylist.

Preparation

1. **Natural Hair Care:** Ensure your natural hair is clean, conditioned, and thoroughly dried before installation.
2. **Braiding Pattern:** Your natural hair should be braided into a suitable pattern that will serve as an anchor for the weave.
3. **Scalp Health:** Confirm your scalp is healthy and free from irritation before proceeding.

Weave Installation (General Steps)

1. **Track Placement:** The hair tracks (wefts) are sewn onto the braids using a needle and thread. Ensure tracks are laid flat and securely.

2. **Layering:** Tracks are typically installed in layers, starting from the nape of the neck and working upwards towards the crown.
3. **Closure/Leave-out:** Depending on the desired style, either a closure piece is installed, or a section of your natural hair is left out to blend with the weave.
4. **Trimming and Styling:** After installation, the weave can be trimmed and styled to achieve the desired look.

CARE AND MAINTENANCE

Proper care extends the life and maintains the quality of your human hair weave.

Washing and Conditioning

- **Detangle First:** Before washing, gently detangle the hair using a wide-tooth comb or your fingers, starting from the ends and working upwards.
- **Mild Products:** Use a sulfate-free shampoo and conditioner specifically designed for human hair.
- **Wash Gently:** Wash the hair in a downward motion, avoiding harsh scrubbing or tangling. Rinse thoroughly

with lukewarm water.

- **Condition:** Apply conditioner, focusing on the mid-lengths and ends. Leave on for 5-10 minutes, then rinse completely.

Drying

- **Towel Dry:** Gently blot the hair with a towel to remove excess water. Do not rub vigorously.
- **Air Dry:** Allow the hair to air dry whenever possible. If using a blow dryer, use a cool setting and a heat protectant spray.

Styling

- **Heat Styling:** As this is human hair, it can be heat styled. Always use a heat protectant spray and keep heat settings moderate to prevent damage.
- **Combing:** Use a wide-tooth comb or paddle brush. Avoid excessive pulling.
- **Night Care:** Braid the hair loosely or wrap it in a silk scarf or bonnet before sleeping to prevent tangling and frizz.

TROUBLESHOOTING

- **Shedding:** Minimal shedding is normal. Excessive shedding may indicate improper installation, harsh brushing, or product buildup. Ensure gentle handling and regular conditioning.
- **Tangling:** Tangling can occur due to lack of moisture, product buildup, or friction. Regularly detangle, condition, and protect the hair at night.
- **Dullness:** If the hair appears dull, it may need a clarifying wash to remove product buildup, followed by a deep conditioning treatment.
