HUAWEI Leo-B09 B

Huawei Watch 2 Sport Smartwatch User Manual

Model: Leo-B09 B | Brand: HUAWEI

Product Overview

The Huawei Watch 2 Sport Smartwatch integrates advanced technology with a classic sports watch design. It functions both independently and in harmony with your smartphone, offering features such as standalone GPS navigation, professional running coach, offline music storage, and various applications powered by Wear OS by Google/Android Wear.

What's in the Box

Upon unboxing your Huawei Watch 2 Sport Smartwatch, verify that all components are present:

- Huawei Watch 2 Sport Smartwatch
- Charging cradle (including USB cable)
- Power adapter
- Quick start guide
- Safety information
- Warranty card

Setup Guide

1. Initial Charging

Before first use, fully charge your smartwatch. Connect the charging cradle to the power adapter using the USB cable, then place the watch onto the magnetic charging cradle. The watch display will indicate charging status.

Figure 2: Back view of the smartwatch with charging contacts.

2. Pairing with Your Device

To utilize all features, pair your Huawei Watch 2 with a compatible smartphone. Download the Wear OS by Google app (formerly Android Wear) from your phone's app store. Follow the on-screen instructions in the app to complete the pairing process via Bluetooth.

3. Software Updates

Ensure your smartwatch's software is up to date for optimal performance and access to the latest features. Connect your watch to Wi-Fi and check for system updates through the settings menu on the watch or the

Wear OS app on your phone.

Operating Your Smartwatch

Basic Navigation

- **Touchscreen:** Swipe left, right, up, or down to navigate through menus, notifications, and quick settings. Tap to select items.
- **Top Button:** Press to access the app list or activate Google Assistant.
- **Bottom Button:** This is a customizable shortcut button. Assign frequently used apps or functions for quick access.

Key Features

- **Built-in GPS:** Track your workout routes and outdoor activities without needing your phone.
- **Continuous Heart Rate Monitoring:** Monitor your heart rate during workouts and throughout the day.
- **Scientific Sleep Tracking (HUAWEI TruSleep):** Tracks light, deep, and REM sleep stages to provide insights into your sleep quality.
- **Workout Coach:** Get real-time guidance and data such as recovery time and VO2 Max during your exercises.
- **NFC and Google Assistant:** Make payments using NFC and interact with Google Assistant directly from your wrist.
- **Music Storage:** Download and listen to music via Google Play Music directly on your watch.
- **Notifications:** Receive and manage notifications from your paired smartphone.

Customizing Watch Faces

The Huawei Watch 2 offers a variety of pre-installed watch faces. You can also download additional watch faces through the Wear OS by Google app on your smartphone to personalize your device's appearance and displayed information.

Maintenance

Cleaning Your Smartwatch

Regularly clean your watch and strap to prevent skin irritation and maintain device functionality. Use a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.

Water Resistance

The Huawei Watch 2 is rated IP68 for water and dust resistance. This means it can withstand immersion in up to 1.5 meters of fresh water for up to 30 minutes. It is suitable for everyday use and light water activities, but avoid prolonged submersion, hot water, or high-pressure water jets.

Battery Optimization

To maximize battery life, adjust power consumption settings. The watch offers different battery modes (Normal, Battery Saving, Watch Mode). Disabling features like "Always-on display" or "OK Google" detection can significantly extend battery duration.

Troubleshooting

- **Laggy Interface:** If the watch interface feels slow or unresponsive, try disabling "OK Google" detection in the settings. This can improve overall performance.
- **Bluetooth/Wi-Fi Connection Issues:** If you experience problems with connectivity, perform a factory reset of your watch. This often resolves underlying software glitches affecting connections.
- **Screen Locked:** If the screen is locked and unresponsive, long-press the bottom button to unlock it. Ensure the watch is properly worn on your wrist for continuous unlocking.
- **Battery Drains Quickly:** Review your usage patterns and adjust settings as described in the "Battery Optimization" section. Ensure no background apps are excessively consuming power.

Specifications

Feature	Detail
Product Dimensions	1.8 x 0.5 x 1.9 inches
Item Weight	2 ounces
Item Model Number	Leo-B09 B
Operating System	Android Wear 2.0
Screen Size	1.2 Inches
Connectivity Technology	Bluetooth, NFC
Special Features	Time Display, Sleep Monitor, GPS, Pedometer, Heart Rate Monitor
Color	Sport Black
Manufacturer	Huawei Device USA Inc
Battery Cell Composition	Lithium Polymer
