2. SETUP AND INSTALLATION

Proper installation is crucial for the safe and optimal performance of your Lucci Air Akmani ceiling fan. This fan requires assembly and professional installation is recommended. For detailed step-by-step instructions, please refer to the official Installation Manual.

- **Components:** The package includes the fan unit, three solid wood blades, and a 6-speed remote control with a wall holster.
- **Power Source:** This is a corded electric fan designed for 120 Volts.
- **Mounting:** Ensure the mounting location can support the fan's weight (approximately 13 pounds) and is suitable for a ceiling fan installation.

3. OPERATING INSTRUCTIONS

The Lucci Air Akmani fan is operated exclusively via the included 6-speed remote control, which offers convenient control over fan functions and includes a wall holster for easy storage.

Remote Control Features:

- **Power On/Off:** Turns the fan on or off.
- **Speed Control:** Adjusts fan speed through 6 distinct levels.
- **Winter/Summer Mode:** Reverses blade direction for year-round comfort. In summer, blades rotate counter-clockwise to create a downdraft. In winter, blades rotate clockwise to create an updraft, circulating warm air.
- **Natural Wind Mode:** Simulates natural breezes by varying fan speed.
- **Light On/Off:** The remote control includes a button for light control; however, please note that the Akmani fan model 210506010 is *not* light kit adaptable.

4. MAINTENANCE

Regular maintenance ensures the longevity and continued performance of your ceiling fan. Always ensure the fan is turned off and power is disconnected before performing any maintenance.

- **Cleaning:** Wipe the fan blades and motor housing with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Blade Care:** The solid wood blades should be kept dry and free from excessive moisture.
- **Tightening Screws:** Periodically check and tighten all screws on the fan assembly to ensure secure operation.

5. TROUBLESHOOTING

If you encounter issues with your Lucci Air Akmani fan, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Fan does not turn on	No power supply; Remote control battery low/dead; Remote not paired.	Check circuit breaker; Replace remote battery; Refer to installation manual for remote pairing instructions.
Fan makes unusual noise	Loose screws; Unbalanced blades; Motor issue.	Tighten all mounting and blade screws; Check blade balance; Contact customer support if noise persists.
Remote control not responding	Battery issue; Obstruction; Remote out of range.	Replace battery; Ensure clear line of sight to fan receiver; Operate within recommended range.

If the problem persists after attempting these solutions, please contact Lucci Air customer support.
