SENYANG Crystal Ceiling Lamp User Manual

Model: 43219-62280

1. INTRODUCTION

Thank you for purchasing the SENYANG Crystal Ceiling Lamp. This manual provides essential information for the safe installation, operation, and maintenance of your new lighting fixture. Please read this manual thoroughly before installation and retain it for future reference.

This energy-saving LED ceiling light features a clear, delicate, and space-saving design, suitable for various indoor spaces such as aisles, hallways, corridors, entrances, balconies, dining rooms, and living rooms. Its unique shape and aesthetic lighting enhance the ambiance of your home.

2. SAFETY INFORMATION

WARNING: To reduce the risk of fire, electric shock, or personal injury, always follow these basic precautions:

- **Professional Installation Required:** This product **must** be installed by a qualified, licensed electrician.
- Turn off power at the circuit breaker or fuse box before installation or servicing.
- Do not install this fixture in wet locations.
- Ensure all electrical connections are made in accordance with local codes, ordinances, and the National Electric Code (NEC).
- Do not modify the fixture in any way.
- Handle the crystal components with care to prevent breakage.
- The integrated LED bulb cannot be replaced.
- Please allow for slight measurement variations (1-3cm error) due to manual measurement.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning installation.

- 1 x SENYANG Crystal Ceiling Light Fixture
- 1 x User Manual (this document)

5. SETUP AND INSTALLATION

Important: Installation must be performed by a professional electrician. Ensure power is OFF at the circuit breaker before proceeding.

- 1. Prepare the Installation Area:** Ensure the mounting surface is clean, dry, and structurally sound to support the fixture's weight.
- 2. Mount the Bracket:** Secure the mounting bracket to the electrical junction box in the ceiling. Ensure it is firmly attached.
- 3. Wire Connections:** The fixture has two wires. Your home power supply also has two power lines. Connect one fixture wire to one power line and the other fixture wire to the remaining power line. The two lines on the fixture have the same feature, so the connection order does not matter. Use appropriate wire connectors (not included) and ensure all connections are secure.
- 4. Secure the Fixture:** Carefully align the fixture with the mounting bracket and secure it in place using the provided screws or

fasteners. Ensure the fixture sits flush against the ceiling.

5. **Restore Power:** Once installation is complete and all connections are secure, restore power at the circuit breaker.

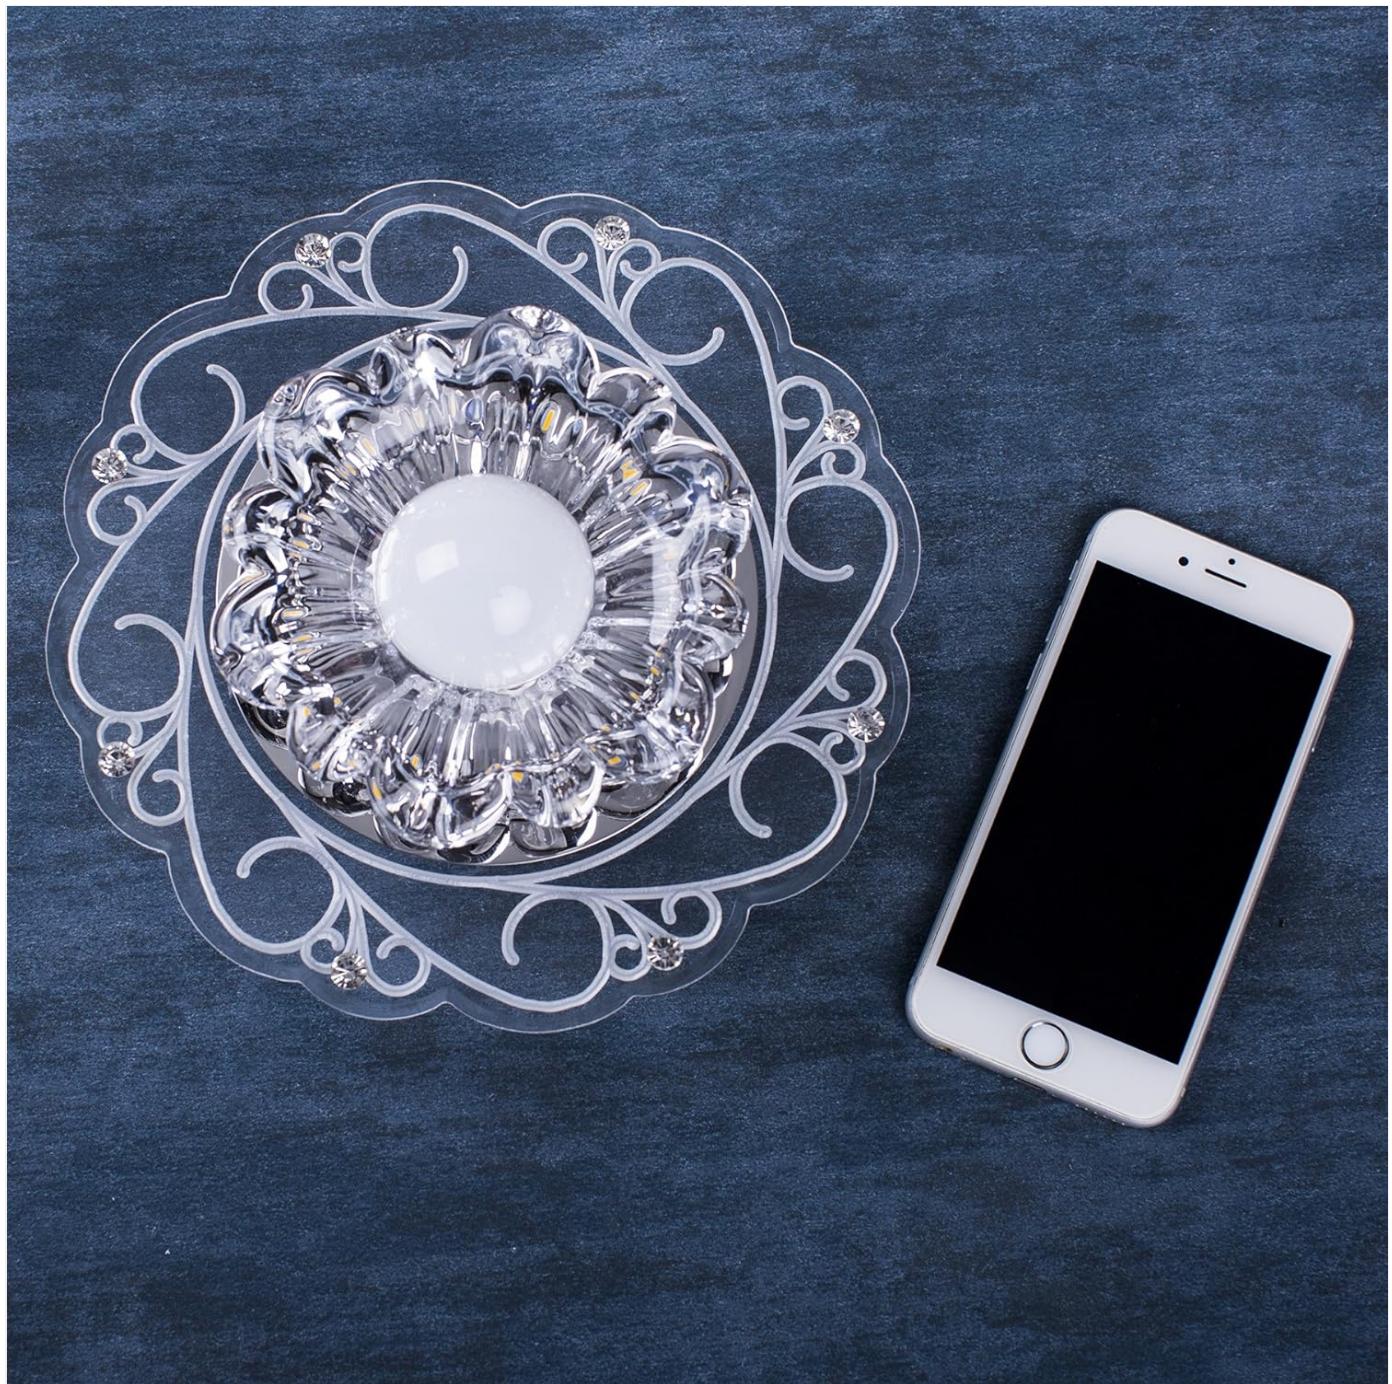

Figure 5.2: The ceiling lamp shown next to a smartphone, providing a visual reference for its compact size.

6. OPERATING INSTRUCTIONS

The SENYANG Crystal Ceiling Lamp is designed for simple operation.

- **Turning On/Off:** Operate the light using a standard wall switch connected to the fixture's power supply.
- **Light Output:** The lamp provides a warm light output, suitable for creating a cozy and inviting atmosphere. It is not dimmable.

Figure 6.1: Example of multiple SENYANG Crystal Ceiling Lamps installed in a hallway, demonstrating their aesthetic appeal when illuminated.

7. MAINTENANCE

To ensure the longevity and appearance of your ceiling lamp, follow these maintenance guidelines:

- **Cleaning:** Turn off the power before cleaning. Use a soft, dry, or slightly damp cloth to wipe the fixture. Do not use abrasive cleaners, solvents, or polishes as they may damage the finish or crystal components.
- **Crystal Care:** For best results, gently wipe crystal elements with a lint-free cloth.
- **Bulb Replacement:** The LED bulb is integrated and cannot be replaced.

8. TROUBLESHOOTING

If you encounter issues with your ceiling lamp, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture. Loose wire connections. Faulty wall switch.	Check circuit breaker/fuse. Ensure power is on. Verify all wire connections are secure (consult an electrician). Test the wall switch.
Light flickers.	Loose wire connections. Incompatible dimmer switch (fixture is not dimmable).	Check wire connections (consult an electrician). Ensure a standard ON/OFF switch is used, not a dimmer.
Fixture is not flush with ceiling.	Improper mounting bracket installation. Obstruction.	Re-check mounting bracket alignment and secureness. Ensure no wires or debris are preventing a flush fit.

If the problem persists after attempting these solutions, please contact a qualified electrician or SENYANG customer support.

9. SPECIFICATIONS

Attribute	Detail
Brand	SENYANG
Model Number	43219-62280
Product Dimensions	19.99 x 19.99 x 7.01 cm (7.87 x 7.87 x 2.76 inches)
Item Weight	498.95 g (1.1 lbs)
