

Zinus AZ-ASMPCH-15K

ZINUS Korey Metal Platform Bed Frame with Upholstered Headboard (King)

Brand: Zinus | Model: AZ-ASMPCH-15K

1. INTRODUCTION

This manual provides comprehensive instructions for the assembly, safe use, and maintenance of your ZINUS Korey Metal Platform Bed Frame with Upholstered Headboard. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

The ZINUS Korey bed frame is designed to provide sturdy support for your mattress without the need for a box spring. It features a durable steel frame, wood slat support, and a comfortable upholstered headboard.

Figure 1: Fully assembled ZINUS Korey Metal Platform Bed Frame with Upholstered Headboard.

2. SAFETY INFORMATION

Caution: This bed frame has sharp metal edges. Be careful during assembly and use. Do not exceed the maximum weight limit of 700 pounds.

- Ensure all bolts are securely tightened before use. Periodically check and retighten bolts.
- Do not allow children to play on or under the bed frame.
- Distribute weight evenly across the bed frame.
- Keep small parts away from children during assembly to prevent choking hazards.
- Use on a level surface to prevent instability.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. Refer to the diagram below for a visual representation of the parts.

Figure 2: All components laid out for assembly.

Your package should include:

- Upholstered Headboard Panel
- Headboard Frame Pieces (Left & Right)
- Side Rails (Left & Right)
- Footboard Frame Piece
- Center Support Beam
- Support Legs (various sizes)
- Wood Slats (connected by fabric strap)
- Hardware Pack (bolts, washers, nuts, Allen wrench, ratchet tool)
- Instruction Manual

4. ASSEMBLY INSTRUCTIONS

Assembly typically requires two adults and takes approximately 30-60 minutes. An included ratchet tool simplifies the process. For detailed diagrams, please refer to the [official PDF installation manual](#).

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface to prevent scratches. Identify each part using the provided labels and the parts list.
2. **Assemble Headboard:** Attach the upholstered headboard panel to the headboard frame pieces using the designated bolts. Ensure the panel is oriented correctly.
3. **Connect Side Rails:** Attach the side rails to the headboard assembly. Ensure all connections are finger-tightened initially.
4. **Attach Footboard:** Connect the footboard frame piece to the side rails.
5. **Install Center Support:** Secure the center support beam and its legs to the frame. Ensure the legs are properly aligned and tightened.
6. **Tighten All Bolts:** Once the main frame is assembled, use the provided ratchet tool to securely tighten all bolts. Do not overtighten.
7. **Place Wood Slats:** Unroll the wood slats onto the assembled frame. The slats are connected by a fabric strap and attach to the frame via Velcro strips. Ensure the anti-slip tape on some slats is facing upwards.

Figure 4: Details of the wood slat support system, including anti-slip tape and Velcro attachment.

Figure 5: Assembled bed frame ready for mattress placement.

5. USAGE GUIDELINES

Your ZINUS Korey bed frame is designed for optimal support and comfort. Follow these guidelines for proper use:

- **Mattress Placement:** Place your memory foam, latex, or spring mattress directly onto the wood slats. A box spring is not required.
- **Weight Capacity:** The bed frame has a maximum weight capacity of 700 pounds (including mattress and occupants). Do not exceed this limit.
- **Under-bed Storage:** Utilize the 12 inches of clearance under the frame for convenient storage.

Figure 6: Under-bed clearance for storage.

6. MAINTENANCE

Regular maintenance will help prolong the life of your bed frame:

- **Cleaning:** Wipe the metal frame with a damp cloth and mild detergent. For the upholstered headboard, spot clean with a fabric cleaner as needed. Avoid harsh chemicals.
- **Check Connections:** Periodically (e.g., every 3-6 months) inspect all bolts and connections. Retighten any loose hardware to maintain stability and prevent squeaking.
- **Slat Inspection:** Ensure wood slats remain properly seated and free from damage.

7. TROUBLESHOOTING

If you encounter issues with your bed frame, consider the following:

- **Squeaking Noises:** Squeaking often indicates loose connections. Thoroughly check and retighten all bolts, especially those connecting the side rails and center support. Applying a small amount of lubricant (e.g., silicone spray) to metal-on-metal contact points can also help.

- **Instability/Wobbling:** Ensure the bed frame is on a level surface. Verify that all support legs are making firm contact with the floor and that all bolts are fully tightened.
- **Mattress Sliding:** The wood slats include anti-slip tape. Ensure this tape is clean and making good contact with your mattress. If sliding persists, consider using a non-slip mattress pad.

8. SPECIFICATIONS

Feature	Detail
Brand	Zinus
Model Number	AZ-ASMPCH-15K
Size	King
Product Dimensions (L x W x H)	80.5"L x 75.5"W x 38"H
Under-bed Clearance	12 Inches
Color	Black Frame, Grey Upholstered Headboard
Material	Polyester Fabric Upholstery, Durable Steel Frame, Plywood Slats
Assembly Required	Yes
Compatible Mattress Size	King
Item Weight	78.7 pounds
